VOLUME 1

Introduction 1

Part I The Fundamental Theory of TCM **17**

Chapter 1 Yin (阴) and Yang (阳) 19
Fu-Lin Wang
A. Concept 19
B. Application of Yin–Yang in Traditional Chinese Medicine (TCM) 24

Chapter 2 The Five Elements (*Wu Xing*, 五行) 31
Helen Yuan
A. Classification of the Five Elements 32
B. Five Elements Correlation 34
C. Application of the Five Elements Theory in TCM 37

Chapter 3 The Manifestation of the Internal Organs (*Zang Xiang*, 藏象) 43
Stevenson Xutian
A. The Five *Zang*-Viscera 46
B. The Six *Fu*-Viscera 59
C. Extraordinary *Fu*-Viscera 66
D. The Relationships Among the Viscera 68

Chapter 4 *Qi*, Blood, Essence, and Body Fluid 73
Ju Ling
A. *Qi* (气) 73
B. Blood (血) 79
C. Essence (精) 81
D. Body Fluid (津液) 82

E. The Relationships Among *Qi*, Blood, Essence, and Body Fluid 84

Chapter 5 The Meridians (经) and Collaterals (络) 87
James J. Fu

A. Overview of *Jing-Luo* or the Meridian-Collateral System 87
B. General Information on Acupuncture Points 90
C. Classification of Acupuncture Points 92

Chapter 6 Diseases and Their Etiologies 99
Shusheng Tai, Feng Sun

A. The Six Climate-Related Pathogens 99
B. Internal Impairment Due to the Seven Emotions 108
C. Improper Food Intake 110
D. Overwork and Over-Rest 112
E. Phlegm, Rheum, and Stagnated Blood-Inducing Diseases 113

Chapter 7 Pathology and Pathogenesis 119
Shusheng Tai, Feng Sun

A. Causes of Diseases 119
B. Mechanisms of Diseases 122

Chapter 8 Prevention of Diseases and Principles of Therapeutics 127
Helen Yuan

A. Prevention of Diseases 127
B. Prevention of Spread and Control of Deterioration 129
C. Therapeutic Principles 129

Chapter 9 New Exploration and Understanding of Traditional Chinese Medicine 139
Stevenson Xutian, John Junion, Louis Wozniak

A. The Importance of Understanding the Unification of Nature 139
B. The Human Body in Connection with the Universe 141
C. Etiology, Pathogenesis, Function States, and TCM Diagnoses 144
D. The Function of Consciousness in Human Health 147
E. The Mechanism of Chinese Herbal Medicine 149

Part II Diagnostics **155**

Chapter 10 Introduction to TCM Diagnostics 157
Stevenson Xutian

A. The Characteristics 157
B. The Principles of TCM Diagnostics 159
C. Valuable Diagnosis for Some Complicated or Sub-Health Cases 160

Chapter 11 "Four Pillars Diagnosis" Methods 163
Marc Raedschelders

A. Inspection (*Wang,* 望诊) 164
B. Auscultation and Olfaction (*Wen*, 闻诊) 171
C. Inquiry (*Wen*, 问诊) 172
D. Body Palpation (*Chu,* 触诊) 173

Chapter 12 Tongue Diagnosis 177
Zhi-Chen Guo

A. General Information 177
B. Manifestation of the Tongue 179
C. The Key Points for Reading and Analyzing the Tongue 181

Chapter 13 Pulse-Taking 197
Wendy Wei Zhang

A. Pulse-Feeling 197
B. The Abnormal Pulse 200

Chapter 14 Differentiation of Syndromes (辨证) 205
Fu-Lin Wang, Wendy Wei Zhang

A. Differentiation of Syndromes with the Eight Principles (八纲辩证) 206
B. Differentiation of Syndromes with the Theory of Viscera (脏腑辩证) 211
C. Differentiation of Syndromes with Six Meridians (六经辩证) 267

Part III Acupuncture, Moxibustion, Cupping, and Tuina 275

Chapter 15 Introduction to Chinese Acupuncture and Moxibustion 277
Jiulin Wang

A. The Academic Accomplishments of Acupuncture and Moxibustion in History 278
B. Spread of Acupuncture and Moxibustion Beyond China 280

Chapter 16 Meridians and Acupuncture Points 285
James J. Fu

A. Lung Meridian of Hand *Taiyin* (手太阴肺经) 285
B. Large Intestine Meridian of Hand *Yangming* (手阳明大肠经) 291
C. Stomach Meridian of Foot *Yangming* (足阳明胃经) 300
D. Spleen Meridian of Foot *Taiyin* (足太阴脾经) 318
E. Heart Meridian of Hand *Shaoyin* (手少阴心经) 327
F. Small Intestine Meridian of Hand *Taiyang* (手太阳小肠经) 332
G. Bladder Meridian of Foot *Taiyang* (足太阳膀胱经) 340
H. Kidney Meridian of Foot *Shaoyin* (足少阴肾经) 364
I. Pericardium Meridian of Hand *Jueyin* (手厥阴心包经) 374

J. *San Jiao* Meridian of Hand *Shaoyang* (手少阳三焦经) 379
K. Gall Bladder Meridian of Foot *Shaoyang* (足少阳胆经) 389
L. Liver Meridian of Foot *Jueyin* (足厥阴肝经) 406
M. *Ren* or Conception Meridian (任脉) 413
N. *Du* or Governor Meridian (督脉) 423
O. The Extraordinary Points (经外奇穴) 433

Chapter 17 Clinical Application 455
Marc Raedschelders

A. Preparation 455
B. Acupuncture Methods 456
C. Moxibustion Methods 458
D. Cupping Methods 460

Chapter 18 Tuina: Classic Chinese Massage, 推拿 463
Shusheng Tai, Feng Sun

A. Mechanisms of Tuina 463
B. Commonly Used Acupoints 464
C. The Basic Technical Methods 468
D. The *Tuina* Procedure 476
E. *Tuina* Self-Massage 483

Index 485

VOLUME 2

Part IV Chinese Herbology and Formulation 491

Chapter 19 General Principles of Chinese Herbology 493
Stevenson Xutian, Danny C. Li

A. Basics of Chinese Herbal Medicine 493
B. Collection and Preparation of Herbs 494
C. Properties and Functions of Chinese Herbs 497
D. Application of Chinese Herbs 499
E. Principle of Chinese Herbal Formulation 502

Chapter 20 Chinese Herbs and Herbal Prescriptions 505
Danny C. Li, Zongwei Wang, Yi Feng

A. Herbs and Herbal Prescriptions Releasing Exterior Syndromes (解表) 505
B. Herbs and Herbal Prescriptions Clearing Heat (清热) 527
C. Purgative Herbs and Herbal Prescriptions (泻下) 557
D. Herbs and Herbal Prescriptions Resolving Dampness (祛湿) 566
E. Herbs and Herbal Prescriptions Warming the Interior (温里) 589
F. Herbs and Herbal Prescriptions Regulating *Qi* (理气) 600

G. Herbs and Herbal Prescriptions Relieving Food Stagnation (消食) 613
H. Herbs and Herbal Prescriptions Arresting Bleeding (止血剂) 616
I. Herbs and Herbal Prescriptions Invigorating Blood and Resolving Blood Stagnation (理血剂) 624
J. Herbs and Herbal Prescriptions Resolving Phlegm and Relieving Cough and Asthma (祛痰止咳消喘剂) 638
K. Herbs and Herbal Prescriptions Tranquilizing the Mind (安神剂) 655
L. Herbs and Herbal Prescriptions Pacifying the Liver and Calming Endogenous Wind (治风剂) 661
M. Herbs and Herbal Prescriptions for Resuscitation (开窍剂) 671
N. Herbs and Herbal Prescriptions Tonifying Deficiencies (补益剂) 676
O. Astringent Herbs and Herbal Prescriptions (固涩剂) 714
P. Herbal Prescriptions for Mediation (和解剂) 724

Part V Healthy Lifestyle and Rehabilitation 733

Chapter 21 Principle of Life Nourishment (*Yangshengshu*, 养生术) 735
Stevenson Xutian
A. Traditional Chinese Medicine's Inception and Development Originated with *Yangshengshu* 735
B. What Is the Reality of the Human Body 736
C. Pathology and Therapy Principle 737

Chapter 22 Tai Chi (太极) 741
Stevenson Xutian, Feng Sun, Shusheng Tai
A. History and Philosophy 742
B. Simplified Public Practice Program 744
C. The Real Fitness and Therapy Principle 757
D. New Research Evidence 760

Chapter 23 TCM Self-Healing Meditation 773
Yanling Guo
A. Introduction 773
B. Beginning or Opening Posture 774
C. Clearing and Opening the Mind 775
D. TCM Energy Circulation Method 777
E. Energy Storing and Accumulating Method 778

Chapter 24 Special *Daoyin* (导引) Healing Methods 781
Yanling Guo
A. *Daoyin* (导引) Healing Stance 781

B. Assistant Healing Stances for Various Illnesses 784
C. Basic Practices of *Daoyin* (导引) Healing Stances 801

Chapter 25 Traditional Mind–Body Exercises for Health 807
Hua Zhu

A. *Yi Jin Jing* (易筋经) 807
B. The Five Animal Frolics (*Wu Qin Xi*, 五禽戏) 825
C. *Ba Duan Jin* (八段锦) 839

Part VI Clinical Practice **849**

Chapter 26 Clinical Practice Guided by the Supporting-Yang Theory 851
Chonghan Lu

A. Exploration and Utilization of Some Classical Prescriptions 851
B. Faulty Diagnosis of Yang Deficiency Symptoms 859

Chapter 27 Differentiation of Yin–Yang and Prescriptions for Some Common Diseases 869
Qinan Zheng, Buqi Tang

Chapter 28 Differentiation of Yin–Yang and Prescriptions for Some Special Diseases (Yang Deficiency or Yang Escaping) 923
Qinan Zheng, Buqi Tang

A. Diagnosis and Treatment Analysis 923
B. Case Study 926
C. List of Prescriptions Used in This Chapter 947
D. Possible Reactions to Herbs for Restoring Yang 956

Chapter 29 Acupuncture Treatment for Selected Medical Conditions 959
Jiulin Wang

A. *Bi* Syndrome (痹证) 959
B. Chest *Bi* (胸痹) 962
C. Abdominal Pain (腹痛) 970
D. Constipation (便秘) 977
E. Diarrhea (泄泻) 981
F. Hypochondriac Pain (胁痛) 987
G. Stomachache (胃痛) 991
H. Vomiting (呕吐) 996
I. Asthma (喘证) 1001
J. Common Cold (感冒) 1007
K. Cough (咳嗽) 1015
L. Depression (抑郁证) 1023
M. Headache (头痛) 1030
N. Insomnia (不寐) 1038

O. Palpitations (心悸) 1044

Chapter 30 Simplified Tongue Diagnosis with Herb Treatment 1053
Meiyan Guo

A. The Principle and the Point of View 1053
B. Dynamic Tongue Diagnosis and Prescriptions 1054

Part VII Practice Regulation and Certification 1061

Chapter 31 TCM Practice in Western Countries 1063
Jing Shen, Baisong Zhong, Julian Zhu

A. Situation in North America 1063
B. Situation in Other Countries 1065

Chapter 32 Regulations for Certification 1069
A. National Certification Commission for Acupuncture and Oriental Medicine (NCCAOM) Application Process (USA) (adapted from NCCAOM, 2007) 1069
B. Registration for the Examination in Alberta, Canada 1080
C. Required Courses for Acupuncture and TCM in British Columbia, Canada 1088

Chapter 33 Examination Preparation and Strategies 1091
A. Practice Questions on the Foundation of TCM 1091
B. Practice Questions on Acupuncture 1113
C. Practice Questions on Acupuncture Point Locations 1190
D. Biomedicine Questions for Practice 1195
E. Chinese Herbal Medicine Questions for Practice 1210

Index 1263

VOLUME 3

Part VIII Achievements of TCM in The Contemporary Age 1269

Chapter 34 Introduction to Body Space Medicine 1271
Zhi-Chen Guo

A. The Theory of Body Space Medicine 1271
B. The Simplified Diagnostic Methods 1273
C. The Treatment Principles and Methods 1273
D. The Exploration of the Five-Element Principle from Human Body Research 1274
E. New Application of Chinese Herbs in Body Space Medicine 1278
F. Examples of Body Space Medicine Application 1279
G. The Significance and Prospects of Body Space Medicine 1281

Chapter 35 Carrying Zhang Zhongjing's Classics Toward the Revival of TCM: Theories and Practices on Supporting Yang 1283
Chonghan Lu

A. Clarifying the Importance of Yin and Yang 1283
B. Objective Reality of Focusing on Supporting Yang 1286
C. The Formation and Development of the Supporting-Yang Theory 1289
D. Application of the Supporting-Yang Theory in the Use of Ginger, Cinnamon, and Monkshood 1290

Chapter 36 Achievements in Acupuncture Technology 1293
Dongyi Cao, Etsang Zeng

A. Bloodletting Acupuncture Therapy 1294
B. The Application of the Heat Needle in the Clinic (火针) 1297
C. The Application of Auricular Point Signature Pressing Treatment (耳针) 1301

Chapter 37 An Exploration of Dong's Extra Points and His Philosophy 1305
Weijie Young

A. Nomenclature and Needling Methods of Dong's Extra Points 1305
B. Basic Principles of Dong's Extra Points 1307
C. The Unique Techniques 1312
D. Conclusion 1320

Chapter 38 Development of Other Non-Medication Treatment Techniques 1323
Dongyi Cao, Etsang Zeng

A. The Application of Moxibustion 1323
B. Clinical Application of *Gua Sha* (Scraping Therapy, 刮痧) 1326
C. Diet for Health and Prevention of Disease 1328
D. Traditional and Modern Cupping Therapy (拔罐) 1329
E. Discussion on the Theory and Practice of Emotional Therapy 1330

Chapter 39 Introduction to Tibetan Medicine 1333
Etsang Zeng, Dongyi Cao

A. Basic Principles 1333
B. Diagnosis 1336
C. Therapy 1336
D. Diseases Most Amenable to Treatment by Tibetan Medicine 1339

Chapter 40 Three Strategies for the Promotion and Development of TCM 1341
Ju Ling

A. Improved Scientific Concentrated Granules of Chinese Herbs (SCGCH) 1342
B. Dynamic Tongue Diagnosis Technique 1343
C. Modified Chinese Herb Prescriptions 1344
D. Conclusion 1345

Postscript 1347
Qian Jia

Appendices **1351**

1. A Simplified History of TCM 1353
Stevenson Xutian, Qian Jia
2. Yin–Yang Theory Used in the Comprehension of Modern Medicine 1359
Fu-Lin Wang
3. Some Famous Ancient Chinese Doctors and Their Main Contributions 1363
Jiulin Wang
4. Nomenclature of Acupuncture 1373
5. A List of Commonly Used Chinese Herbal Medicines 1387
6. A List of Classic Chinese Herbal Prescriptions 1399

Index 1411*

*This is the first page number of the Handbook's Index found in its final volume (Vol. 3). For easy reference, this same Index is repeated in Vols. 1 and 2, where they begin with page numbers 485 and 1263, respectively.
