

Risk and Rationality

Lara Buchak

OXFORD
UNIVERSITY PRESS

Contents

Introduction	1
I.1 Introduction	1
I.2 Chapter Summary	4
I.3 Terminology	6
1 Instrumental Rationality and Expected Utility Theory	10
1.1 Examples	10
1.2 Risk-Aversion and Expected Utility Theory	13
1.3 Risk-Aversion and Reasons	24
1.4 Non-Expected Utility Theories	36
2 Risk-Weighted Expected Utility	48
2.1 An Alternative Theory of Instrumental Rationality	48
2.2 The Risk Function	60
2.3 Examples Explained	70
2.4 <i>Deviations from REU Theory</i>	74
3 Representation	82
3.1 From Preferences to Beliefs and Desires	82
3.2 Representation Theorem for REU Maximizers	86
3.3 Comonotonicity and Global Properties	100
3.4 Separating Beliefs from Risk-Attitudes	110
4 Redescription	114
4.1 The Role of Rationality in Decision Theory	114
4.2 The Individuation Strategy	117
4.3 Local Individuation	123
4.4 Global Individuation	136
4.5 The Failure of the Individuation Strategy	145
5 Consistency	148
5.1 Decision-Theoretic Rationality	148
5.2 Coherent Consequentialist Preferences	154
5.3 The Sure-Thing Principle and the Independence Axiom	157
5.4 The Argument from Dominance and No Interaction Effects	160
6 Diachronic Choice	170
6.1 Three Diachronic Arguments	170
6.2 Diachronic Choice under Certainty	173
6.3 Diachronic Choice under Risk	184
6.4 Inconsistent Preferences?	191
6.5 The Cost of Global Sensitivity	197

7	Bookmaking and Packaging	201
	7.1 Bookmaking Arguments	201
	7.2 The Package Principle	206
	7.3 The Hypothetical Long-Run Argument	212
	7.4 The Motivational Long-Run Argument	218
	7.5 Insurance	223
	7.6 Carving up the World	226
8	Conclusion	230
	Appendices	235
	Appendix A: Representation Theorem	235
	Appendix B: Axioms for EU theory	247
	Appendix C: Tradeoff Equality and Utility Differences	248
	<i>Bibliography</i>	250
	<i>Index</i>	257
