<b>1 Introduction</b>	<b>1</b>
1.1 What is novel about digital platforms?	1
1.1.1 Digitalisation	2
1.1.2 Mobility	3
1.1.3 Datafication and artificial intelligence	4
1.2 Defining digital platforms	6
1.3 Platform consequences	7
1.3.1 Technologies and societal change	8
1.3.2 Challenges to the social order	9
1.4 Structure of the book	12
<b>2 Digital platform origins and novelty</b>	<b>15</b>
2.1 Introduction	15
2.2 Digital platforms as radical innovations	15
2.2.1 Establishing connectivity	16
2.2.2 Common Web standards	17
2.3 Virtualisation of publication and commerce	17
2.3.1 Offline to online translation process	18
2.3.2 E-commerce and online sales	19
2.3.3 Online search and indexing	20
2.4 Working definition of a digital platform	21
2.5 Examining digital platform elements	23
2.5.1 Content desired by users	23
2.5.2 Business models for platforms	24
2.5.3 Collection, retention and use of data about users	28

2.5.4	Provision of auxiliary services	29
2.6	Digital platforms, norms and values	30
2.7	Conclusion	33
<b>3</b>	<b>Economic analysis of platforms</b>	<b>35</b>
3.1	Introduction	35
3.2	Neoclassical economic analysis	35
3.2.1	Economics of multisided markets	38
3.2.2	Economies of scale consequences	40
3.2.3	Natural monopoly claims and counterclaims	41
3.2.4	The media industry	43
3.2.5	E-commerce	44
3.2.6	Limitations of neoclassical economics analysis	44
3.3	Institutional economic analysis	46
3.4	Critical political economy analysis	50
3.5	Conclusion	51
<b>4</b>	<b>Technologies and datafication practices</b>	<b>55</b>
4.1	Introduction	55
4.2	Why is AI related to platforms?	56
4.2.1	Can AI predictions be trusted?	59
4.2.2	Is there an AI “arms race”?	61
4.3	Will platform-based AI supplant humans?	62
4.4	Negotiating change	64
4.5	Creating, acquiring and utilising content	67
4.6	Consequences	68
4.7	Conclusion	72
<b>5</b>	<b>Self-regulation and alternative business models</b>	<b>75</b>
5.1	Introduction	75
5.2	Platform self-regulation strategies	76
5.2.1	Global market expansion	76
5.2.2	Strategic uses of standards	78
5.2.3	Service conditions and codes of practice	80
5.2.4	Strategic content moderation	81
5.2.5	Responding to external regulation	83
5.3	Ethical principles and practices	84

5.4	The alternative platform landscape	86
5.4.1	Changing the public–private boundary for data control	87
5.4.2	Changing the public–private boundary in platform provision	89
5.5	Conclusion	94
<b>6</b>	<b>Policy, regulation and alternative platform provision</b>	<b>97</b>
6.1	Introduction	97
6.2	Rationales for regulatory intervention	98
6.3	Regulating platform operations and markets	101
6.3.1	Government mandated obligations	101
6.3.2	Data and privacy protection	103
6.3.3	Codes of practice	105
6.3.4	Skills and training policies	106
6.4	Structural intervention and alternative platform provision	107
6.4.1	Competition policy and antitrust	108
6.4.2	Alternative platform provision	110
6.5	Conclusion	112
<b>7</b>	<b>Global perspectives</b>	<b>115</b>
7.1	Introduction	115
7.2	Being left behind	116
7.3	Doing digitalisation and datafication differently	118
7.3.1	Mitigating measures	118
7.3.2	Leapfrogging strategies	122
7.4	China’s digital vision	124
7.5	Conclusion	128
<b>8</b>	<b>Conclusion</b>	<b>131</b>
8.1	Introduction	131
8.2	Revisiting the digital platform problem	132
8.3	The road ahead	136
8.4	Conclusion	140
