

# Why Study Biology by the Sea?

EDITED BY KARL S. MATLIN,  
JANE MAIENSCHN,  
AND RACHEL A. ANKENY

*The University of Chicago Press Chicago and London*

# Contents

*Foreword ix*

NIPAM H. PATEL

**Introduction 1**

KARL S. MATLIN, JANE MAIENSCHIN,  
AND RACHEL A. ANKENY

## **PART ONE Marine Places**

- 1 **Why Have Biologists Studied at the Seashore?  
The Woods Hole Marine Biological Laboratory 5**  
JANE MAIENSCHIN
  
- 2 **Marine Biology Studies at Naples:  
The Stazione Zoologica Anton Dohrn 29**  
CHRISTIANE GROEBEN
  
- 3 **The First Marine Biological Station in Modern  
China: Amoy University and Amphioxus 68**  
CHRISTINE YI LAI LUK
  
- 4 **The Misaki Marine Biological Station's Dual  
Roles for Zoology and Fisheries, 1880s–1930s 87**  
KJELL DAVID ERICSON

PART TWO Marine Practice

- 5 **Illuminating Animal Behavior: The Impact of Laboratory Structure on Tropism Research at Marine Stations 119**  
SAMANTHA MUKA
- 6 **The Scientific Fishery: Sampling, Dissecting, and Drawing in the Gulf of Naples 144**  
KATHARINA STEINER
- 7 **A Dual Mission: Research and Education as Critical Factors for the Scientific Integrity of the Marine Biological Laboratory 167**  
KATE MACCORD
- 8 **Francis O. Schmitt: At the Intersection of Neuroscience and Squid 187**  
KATHRYN MAXSON JONES
- 9 **Microscopes and Moving Molecules: The Discovery of Kinesin at the Marine Biological Laboratory 211**  
KARL S. MATLIN
- 10 **Using Repertoires to Explore Changing Practices in Recent Coral Research 249**  
RACHEL A. ANKENY AND SABINA LEONELLI
- 11 **Why Study Sex by the Sea? Marine Organisms and the Problems of Fertilization and Cell Cleavage 271**  
MICHAEL R. DIETRICH, NATHAN CROWE,  
AND RACHEL A. ANKENY
- 12 **Hagfish and Vascular Biology: Why the Marine Model Matters 297**  
MARIANNE A. GRANT AND WILLIAM C. AIRD

Epilogue: The Future of Biological Research  
Will Be Found in the Oceans 325

ALEJANDRO SÁNCHEZ ALVARADO
