<b>ACKNOWLEDGMENTS</b>	<b>XV</b>
<b>1 What Is Sustainability?</b>	<b>1</b>
<i>What is sustainability?</i>	1
<i>If everything is interconnected with everything else, where do you start?</i>	3
<i>Is sustainability always about the environment?</i>	4
<i>Is sustainability primarily about climate change?</i>	5
<i>Does progress in the economy, society, and the environment add up to sustainability?</i>	6
<i>Is sustainability always a good thing?</i>	7
<i>Is sustainability a social movement?</i>	8
<i>Is sustainability opposed to economic growth?</i>	9
<i>Does sustainability imply a political agenda?</i>	10
<i>Is sustainability achievable?</i>	11
<i>Where did the idea of sustainability come from?</i>	13
<i>Has the idea of sustainability changed over time?</i>	15
<i>What is resilience?</i>	16
<i>What's the difference between sustainability and resilience?</i>	16
<i>Why has sustainability become fashionable? What is it good for?</i>	17
<i>Is pursuing sustainability an individual or social responsibility?</i>	19
<i>How can I use this book?</i>	20

## **2 Sustainability and Business** **23**

<i>Why start with business?</i>	23
<i>What does profitable mean?</i>	24
<i>Why does the business mindset see sustainability in terms of profit?</i>	25
<i>Are all businesses committed to sustainability then?</i>	26
<i>How does a business manager think about sustainability?</i>	27
<i>How does business sustainability relate to the economy as a whole?</i>	29
<i>But businesses have always understood the need for profit. Why is sustainability different?</i>	30
<i>What is social capital?</i>	31
<i>How does social capital relate to sustainability?</i>	32
<i>How does social capital relate to the environment?</i>	33
<i>What is the triple bottom line?</i>	34
<i>What is greenwashing?</i>	35
<i>How do businesses fail to address social responsibility?</i>	37
<i>How is social justice related to sustainability in business?</i>	39
<i>How does business depend on the environment?</i>	41
<i>How does business affect the environment?</i>	42
<i>What is the take-home message?</i>	43

## **3 Sustainability and Ecology** **45**

<i>What is ecology?</i>	45
<i>How do ecologists approach sustainability?</i>	46
<i>What is an ecosystem?</i>	48
<i>What is a nutrient cycle?</i>	50
<i>What are stocks and flows?</i>	52
<i>What is feedback?</i>	54
<i>What is population ecology?</i>	55
<i>What are predator-prey relationships in ecology?</i>	56

<i>How do predator-prey feedbacks shape ecosystems?</i>	57
<i>What is resilience?</i>	58
<i>How does the sustainability of ecosystems become threatened?</i>	59
<i>How are ecological principles applied to identify threats to the global ecosystem?</i>	60
<i>What is biodiversity?</i>	62
<i>How does climate change affect planetary boundaries?</i>	63
<i>What is applied ecology?</i>	63
<i>What is sustainable yield?</i>	64
<i>Is sustainability a controversial idea in ecology?</i>	66
<b>4 Sustainability and Environmental Quality</b>	<b>68</b>
<i>What is environmental quality?</i>	68
<i>How does environmental quality affect sustainability?</i>	70
<i>How is environmental quality different from ecology?</i>	72
<i>What are ecosystem services?</i>	73
<i>What is pollution?</i>	74
<i>What is resource depletion?</i>	77
<i>How can environmental quality be protected?</i>	78
<i>What are environmental indicators?</i>	80
<i>What do indicators of freshwater quality tell us?</i>	82
<i>How is outdoor air quality assessed?</i>	84
<i>What do indicators tell us about climate change?</i>	85
<i>Why is ocean temperature monitored?</i>	87
<i>What does monitoring land use change tell scientists about the environment?</i>	88
<i>What do indicators of waste generation reveal about sustainability?</i>	89
<i>What is life-cycle assessment?</i>	91
<i>Are environmental indicators controversial?</i>	94
<i>Does sustainability change how people understand and protect environmental quality?</i>	95

## **5 Sustainable Development 99**

<i>What is sustainable development?</i>	99
<i>What is development?</i>	100
<i>What is welfare?</i>	103
<i>What is capital?</i>	104
<i>What limits the sustainability of development?</i>	107
<i>What is economic growth?</i>	108
<i>How are wealth and poverty related to welfare and economic growth?</i>	111
<i>What is global development?</i>	112
<i>How can sustainable global development be achieved?</i>	114
<i>What are the forms of capital?</i>	116
<i>What is natural capital?</i>	117
<i>What are weak and strong sustainability?</i>	118
<i>What is wrong with GDP as an indicator of sustainability?</i>	120
<i>What is the Genuine Progress Indicator?</i>	123
<i>Is sustainable development just equivalent to sustainability?</i>	124

## **6 Sustainability and Social Justice 127**

<i>What is justice?</i>	127
<i>What is social justice?</i>	128
<i>How is social justice related to politics?</i>	131
<i>What is environmental justice?</i>	132
<i>How is environmental justice part of sustainability?</i>	133
<i>What is food justice? How is it related to sustainability?</i>	134
<i>What is food sovereignty?</i>	136
<i>What is climate justice? Why does it matter for sustainability?</i>	138
<i>How does social justice relate to sustainability?</i>	140
<i>Is social justice inherently tied to politically liberal or anticapitalist politics?</i>	141
<i>What is social sustainability?</i>	143

<i>Can sustainability combat social injustice?</i>	146
<i>Are there conflicts or contradictions between sustainability and social justice?</i>	149
<i>Does environmental sustainability require a commitment to social justice?</i>	152
<i>Does sustainability require that people come to an agreement on their understanding of social justice?</i>	153
<b>7 Sustainable Governance</b>	<b>155</b>
<i>Why do we have to talk about government?</i>	155
<i>What do governments do to increase sustainability?</i>	156
<i>What is governance?</i>	158
<i>What is sustainable governance?</i>	160
<i>Are there indicators of sustainable governance?</i>	162
<i>What are standards, and how are they part of collaborative governance?</i>	164
<i>How do standards promote governance for sustainability?</i>	167
<i>How else do nongovernmental organizations (NGOs) contribute to governance for sustainability?</i>	168
<i>What is the role of government in governance for sustainability?</i>	169
<i>Why do governments fail?</i>	171
<i>Why are so many governments struggling?</i>	173
<i>Are there indicators of whether governments are struggling?</i>	175
<i>Does collaborative governance help?</i>	176
<i>How does climate change threaten the sustainability of governance?</i>	179
<i>How do pandemics threaten the sustainability of governance?</i>	181
<i>What is the take-home message?</i>	182
<b>8 Sustainability in Science, Education, Religion, and the Arts</b>	<b>185</b>
<i>Why discuss sustainability in science, education, religion, and the arts?</i>	185
<i>How do science, education, religion, and the arts address sustainability?</i>	186

<i>What is sustainability science?</i>	187
<i>How is sustainability science different from applied science?</i>	188
<i>What are wicked problems?</i>	191
<i>What is interdisciplinary science?</i>	194
<i>What is complexity science?</i>	195
<i>What are coupled human and natural systems?</i>	196
<i>What is participatory research?</i>	197
<i>Is sustainability a wicked problem for science?</i>	199
<i>What is sustainability education?</i>	201
<i>How do schools address sustainability education?</i>	201
<i>What is adult sustainability education?</i>	203
<i>How is sustainability incorporated into religion?</i>	204
<i>What are religious groups doing to promote sustainability?</i>	205
<i>What are the arts, and how do they relate to sustainability?</i>	207
<i>What is sustainable architecture?</i>	208
<i>How do the visual arts practice sustainability?</i>	209
<i>Do other arts also practice sustainability?</i>	210
<i>What other arts reflect sustainability in their subject matter?</i>	212
<i>Can religion and the arts help us achieve sustainability?</i>	214

## **9 Sustainability: What Everyone Needs to Ask 215**

<i>Can I do anything to improve sustainability?</i>	215
<i>How about starting small for practice?</i>	218
<i>Are there simple guidelines for evaluating the sustainability of day-to-day activities?</i>	220
<i>What can people do to consume less?</i>	221
<i>How does using more efficient products contribute to sustainability?</i>	222
<i>How can consumer purchases promote resilience?</i>	223
<i>Can my consumption choices really make a difference to sustainability?</i>	224
<i>Should I be concerned about greenwashing?</i>	226
<i>Should I recycle? And if so, what?</i>	227

<i>How do I think about other choices?</i>	228
<i>Why isn't everyone concerned about sustainability?</i>	231
<i>How can I help beyond being a more responsible consumer?</i>	232
<i>Is sustainability just a passing fad?</i>	235
<i>Does the complexity of sustainability mean we should just throw up our hands in despair?</i>	237
