|--|-------------|
| <b>List of Figures</b>   | <b>xi</b>   |
| <b>List of Tables</b>  | <b>xiii</b> |
| <b>Preface</b>   | <b>xv</b>   |
| <br>   |             |
| <b>I Building Blocks</b>   | <b>1</b>    |
| <b>1 Preliminaries</b>   | <b>3</b>    |
| 1.1 Variables and Constants . . . . .                                  | 3           |
| 1.2 Sets . . . . .   | 5           |
| 1.3 Operators . . . . .  | 9           |
| 1.4 Relations . . . . .  | 13          |
| 1.5 Level of Measurement . . . . .                                     | 14          |
| 1.6 Notation . . . . .   | 18          |
| 1.7 Proofs, or How Do We Know This? . . . . .                          | 22          |
| 1.8 Exercises . . . . .  | 26          |
| <b>2 Algebra Review</b>  | <b>28</b>   |
| 2.1 Basic Properties of Arithmetic . . . . .                           | 28          |
| 2.2 Algebra Review . . . . .   | 30          |
| 2.3 Computational Aids . . . . .                                       | 40          |
| 2.4 Exercises . . . . .  | 41          |
| <b>3 Functions, Relations, and Utility</b>                             | <b>44</b>   |
| 3.1 Functions . . . . .  | 45          |
| 3.2 Examples of Functions of One Variable . . . . .                    | 53          |
| 3.3 Preference Relations and Utility Functions . . . . .               | 74          |
| 3.4 Exercises . . . . .  | 78          |
| <b>4 Limits and Continuity, Sequences and Series, and More on Sets</b> | <b>81</b>   |
| 4.1 Sequences and Series . . . . .                                     | 81          |
| 4.2 Limits . . . . .   | 84          |
| 4.3 Open, Closed, Compact, and Convex Sets . . . . .                   | 92          |

|            |  |            |
|------------|--|------------|
| 4.4        | Continuous Functions . . . . .                               | 96         |
| 4.5        | Exercises . . . . .  | 99         |
| <b>II</b>  | <b>Calculus in One Dimension</b>                             | <b>101</b> |
| <b>5</b>   | <b>Introduction to Calculus and the Derivative</b>           | <b>103</b> |
| 5.1        | A Brief Introduction to Calculus . . . . .                   | 103        |
| 5.2        | What Is the Derivative? . . . . .                            | 105        |
| 5.3        | The Derivative, Formally . . . . .                           | 109        |
| 5.4        | Summary . . . . .  | 114        |
| 5.5        | Exercises . . . . .  | 115        |
| <b>6</b>   | <b>The Rules of Differentiation</b>                          | <b>117</b> |
| 6.1        | Rules for Differentiation . . . . .                          | 118        |
| 6.2        | Derivatives of Functions . . . . .                           | 125        |
| 6.3        | What the Rules Are, and When to Use Them . . . . .           | 130        |
| 6.4        | Exercises . . . . .  | 131        |
| <b>7</b>   | <b>The Integral</b>  | <b>133</b> |
| 7.1        | The Definite Integral as a Limit of Sums . . . . .           | 134        |
| 7.2        | Indefinite Integrals and the Fundamental Theorem of Calculus | 136        |
| 7.3        | Computing Integrals . . . . .                                | 140        |
| 7.4        | Rules of Integration . . . . .                               | 148        |
| 7.5        | Summary . . . . .  | 149        |
| 7.6        | Exercises . . . . .  | 150        |
| <b>8</b>   | <b>Extrema in One Dimension</b>                              | <b>152</b> |
| 8.1        | Extrema . . . . .  | 153        |
| 8.2        | Higher-Order Derivatives, Concavity, and Convexity . . . . . | 157        |
| 8.3        | Finding Extrema . . . . .                                    | 162        |
| 8.4        | Two Examples . . . . .                                       | 169        |
| 8.5        | Exercises . . . . .  | 170        |
| <b>III</b> | <b>Probability</b>   | <b>173</b> |
| <b>9</b>   | <b>An Introduction to Probability</b>                        | <b>175</b> |
| 9.1        | Basic Probability Theory . . . . .                           | 175        |
| 9.2        | Computing Probabilities . . . . .                            | 182        |
| 9.3        | Some Specific Measures of Probabilities . . . . .            | 192        |
| 9.4        | Exercises . . . . .  | 194        |
| 9.5        | Appendix . . . . .   | 197        |
| <b>10</b>  | <b>An Introduction to (Discrete) Distributions</b>           | <b>198</b> |
| 10.1       | The Distribution of a Single Concept (Variable) . . . . .    | 199        |

|           |   |            |
|-----------|---|------------|
| 10.2      | Sample Distributions . . . . .  | 202        |
| 10.3      | Empirical Joint and Marginal Distributions . . . . .                  | 206        |
| 10.4      | The Probability Mass Function . . . . .                               | 209        |
| 10.5      | The Cumulative Distribution Function . . . . .                        | 216        |
| 10.6      | Probability Distributions and Statistical Modeling . . . . .          | 218        |
| 10.7      | Expectations of Random Variables . . . . .                            | 229        |
| 10.8      | Summary . . . . .   | 239        |
| 10.9      | Exercises . . . . .   | 239        |
| 10.10     | Appendix . . . . .  | 241        |
| <b>11</b> | <b>Continuous Distributions</b>                                       | <b>242</b> |
| 11.1      | Continuous Random Variables . . . . .                                 | 242        |
| 11.2      | Expectations of Continuous Random Variables . . . . .                 | 249        |
| 11.3      | Important Continuous Distributions for Statistical Modeling . . . . . | 258        |
| 11.4      | Exercises . . . . .   | 271        |
| 11.5      | Appendix . . . . .  | 272        |
| <b>IV</b> | <b>Linear Algebra</b>   | <b>273</b> |
| <b>12</b> | <b>Fun with Vectors and Matrices</b>                                  | <b>275</b> |
| 12.1      | Scalars . . . . .   | 276        |
| 12.2      | Vectors . . . . .   | 277        |
| 12.3      | Matrices . . . . .  | 282        |
| 12.4      | Properties of Vectors and Matrices . . . . .                          | 297        |
| 12.5      | Matrix Illustration of OLS Estimation . . . . .                       | 298        |
| 12.6      | Exercises . . . . .   | 300        |
| <b>13</b> | <b>Vector Spaces and Systems of Equations</b>                         | <b>304</b> |
| 13.1      | Vector Spaces . . . . .   | 305        |
| 13.2      | Solving Systems of Equations . . . . .                                | 310        |
| 13.3      | Why Should I Care? . . . . .  | 320        |
| 13.4      | Exercises . . . . .   | 324        |
| 13.5      | Appendix . . . . .  | 326        |
| <b>14</b> | <b>Eigenvalues and Markov Chains</b>                                  | <b>327</b> |
| 14.1      | Eigenvalues, Eigenvectors, and Matrix Decomposition . . . . .         | 328        |
| 14.2      | Markov Chains and Stochastic Processes . . . . .                      | 340        |
| 14.3      | Exercises . . . . .   | 351        |
| <b>V</b>  | <b>Multivariate Calculus and Optimization</b>                         | <b>353</b> |
| <b>15</b> | <b>Multivariate Calculus</b>  | <b>355</b> |
| 15.1      | Functions of Several Variables . . . . .                              | 356        |
| 15.2      | Calculus in Several Dimensions . . . . .                              | 359        |

|           |  |            |
|-----------|--|------------|
| 15.3      | Concavity and Convexity Redux . . . . .                    | 371        |
| 15.4      | Why Should I Care? . . . . .                               | 372        |
| 15.5      | Exercises . . . . .  | 374        |
| <b>16</b> | <b>Multivariate Optimization</b>                           | <b>376</b> |
| 16.1      | Unconstrained Optimization . . . . .                       | 377        |
| 16.2      | Constrained Optimization: Equality Constraints . . . . .   | 383        |
| 16.3      | Constrained Optimization: Inequality Constraints . . . . . | 391        |
| 16.4      | Exercises . . . . .  | 398        |
| <b>17</b> | <b>Comparative Statics and Implicit Differentiation</b>    | <b>400</b> |
| 17.1      | Properties of the Maximum and Minimum . . . . .            | 401        |
| 17.2      | Implicit Differentiation . . . . .                         | 405        |
| 17.3      | Exercises . . . . .  | 411        |
