Contents

Preface.....	VII
Chapter 1 C–H Activation Strategies for Heterofunctionalization and Heterocyclization on Quinones: Application in the Synthesis of Bioactive Compounds.....	1
Andivelu Ilangovan and Thumadath Palayullaparambil Adarsh Krishna	
Chapter 2 Catalytic Activity of Iron N-Heterocyclic Carbene Complexes.....	34
Badri Nath Jha, Nishant Singh and Abhinav Raghuvanshi	
Chapter 3 Synthetic Studies of Vitamin B12.....	59
David Joshua Ferguson	
Chapter 4 Therapeutic Significance of 1,4-Dihydropyridine Compounds as Potential Anticancer Agents.....	77
Tangali Ramanaik Ravikumar Naik	
Chapter 5 Total Synthesis of Macrolides.....	95
Chebolu Naga Sessa Sai Pavan Kumar	
Chapter 6 Torrefaction of Sunflower Seed: Effect on Extracted Oil Quality.....	117
Jamel Mejri, Youkabed Zarrouk and Majdi Hammami	
Chapter 7 Synthesis of s- and p-Element Organosiloxanes by Mechanochemical Activation.....	126
Vitaliy Viktorovich Libanov, Alevtina Anatol'evna Kapustina and Nikolay Pavlovich Shapkin	
Chapter 8 N,N-Dialkyl Amides as Versatile Synthons for Synthesis of Heterocycles and Acyclic Systems.....	138
Andivelu Ilangovan, Sakthivel Pandaram and Tamilselvan Duraisamy	
Chapter 9 Approaches to the Total Synthesis of Puupehenone-Type Marine Natural Products.....	170
Yan-Chao Wu, Yun-Fei Cheng and Hui-Jing Li	
Chapter 10 Design and Strategic Synthesis of Some β-Carboline-Based Novel Natural Products of Biological Importance.....	188
Tejpal Singh Chundawat	
Chapter 11 Hydrolase-Catalyzed Promiscuous Reactions and Applications in Organic Synthesis.....	200
Yun Wang and Na Wang
