

Contents

Chapter 1. Introduction	1
1.1. 2D Euler rigidity and construction of stationary solutions	2
1.2. Structure of the proofs	4
1.3. Organization of the paper	7
Chapter 2. Functional equations and functional setting for stationary vortex patches	9
Chapter 3. Warm-up: Existence of non-radial stationary vortex patches with infinite energy	11
3.1. Main results for infinite energy	11
3.2. Proof of Theorem 3.1	13
Chapter 4. Existence of non-radial stationary vortex patches with finite energy	21
4.1. Main results for finite energy	21
4.2. Compactly supported velocity	23
4.3. Nash-Moser theorem	25
4.4. Estimates on the velocity	41
4.5. Checking the hypotheses in Theorem 4.7	49
4.6. Analytic regularity of the boundary	66
Appendix A. Appendix	69
A.1. Crandall–Rabinowitz Theorem	69
A.2. Useful integrals	69
A.3. Integral estimates	70
A.4. Stability of linear operators	76
Bibliography	79
