

Contents

Chapter 1.	Introduction	1
Chapter 2.	Outline of proof	7
Chapter 3.	Visible L -theory revisited	11
Chapter 4.	The hyperquadratic L -theory of a point	25
Chapter 5.	Excision and restriction in controlled L -theory	31
Chapter 6.	Control and visible L -theory	41
Chapter 7.	Control, stabilization and change of decoration	45
Chapter 8.	Spherical fibrations and twisted duality	55
Chapter 9.	Homotopy invariant characteristics and signatures	59
Chapter 10.	Excisive characteristics and signatures	63
Chapter 11.	Algebraic approximations to structure spaces: Set-up	71
Chapter 12.	Algebraic approximations to structure spaces: Constructions	75
Chapter 13.	Algebraic models for structure spaces: Proofs	81
Appendix A.	Homeomorphism groups of some stratified spaces	93
Appendix B.	Controlled homeomorphism groups	101
Appendix C.	K -theory of pairs and diagrams	103
Appendix D.	Corrections and Elaborations	105
	Bibliography	109
