## Preface

- |          |   |            |
|----------|---|------------|
| <b>1</b> | <b>The Roads Traveled: Our 50-Year Journey</b>  | <b>1</b>   |
|          | <i>Lynne Billard</i>  |            |
| <b>2</b> | <b>Chester Bliss and the International Biometric Society</b>                                      | <b>21</b>  |
|          | <i>Alan T. James</i>  |            |
| <b>3</b> | <b>The International Biometric Society and Biometrics: Contributions to Experimental Design</b>   | <b>25</b>  |
|          | <i>Ralph A. Bradley and Richard L. Anderson</i>   |            |
| <b>4</b> | <b>The Teaching of Biometry</b>   | <b>51</b>  |
|          | <i>Pierre Dagnelie</i>  |            |
| <b>5</b> | <b>Linear Models 1945–1995</b>  | <b>65</b>  |
|          | <i>Shayle R. Searle and Charles E. McCulloch</i>  |            |
| <b>6</b> | <b>The Evolution of Categorical Data Modeling: A Biometric Perspective</b>                        | <b>89</b>  |
|          | <i>Peter B. Imrey, Gary G. Koch, and John S. Preisser</i>   |            |
| <b>7</b> | <b>Empirical Bayes and Hierarchical Bayes Procedures in Simultaneous Estimation of Parameters</b> | <b>115</b> |
|          | <i>C. Radhakrishna Rao</i>  |            |

vi	Contents
<b>8 Computer-Intensive Statistical Methods</b>	131
<i>Bradley Efron and Robert Tibshirani</i>	
<b>9 Multivariate and Multidimensional Analysis</b>	149
<i>J. C. Gower</i>	
<b>10 Survival Analysis</b>	177
<i>Per Kragh Andersen and Niels Keiding</i>	
<b>11 Statistical Computing</b>	201
<i>John A. Nelder</i>	
<b>12 Statistical Ecology, Environmental Statistics, and Risk Assessment</b>	213
<i>G. P. Patil</i>	
<b>13 Statistics for Agriculture and Forestry</b>	241
<i>G. H. Freeman and Janet Riley</i>	
<b>14 Statistical Genetics</b>	263
<i>E. A. Thompson</i>	
<b>15 Statistics in Epidemiology: The Case-Control Study</b>	287
<i>Norman E. Breslow</i>	
<b>16 Biometric Advances in Infectious Disease Epidemiology</b>	319
<i>Klaus Dietz</i>	
<b>17 The Design and Analysis of Longitudinal Studies: A Historical Perspective</b>	339
<i>James H. Ware and Kung-Yee Liang</i>	
<b>18 Spatial Analysis in Biometry</b>	363
<i>Peter J. Diggle</i>	
<b>19 A Review of Image Analysis in Biometry</b>	385
<i>C. A. Glasbey and M. Berman</i>	

Contents	vii
<b>20 Clinical Trials: A Statistician's Perspective</b>	405
<i>Stuart J. Pocock</i>	
<b>21 Statistical Analysis of Toxicological Experiments on Carcinogenicity, Mutagenicity, and Developmental Toxicity</b>	423
<i>Daniel Krewski, Brian G. Leroux, and Yiliang Zhu</i>	
<b>Author Index</b>	449
<b>Subject Index</b>	467
<b>List of Series Titles</b>	

~
