
Contents

Preface.....	vii
Editors.....	xvii
Contributors.....	xix
1. Graphite: Structure, Properties, and Applications	1
<i>John W. Zondlo</i>	
2. Electronic Transport in Graphene: Theory and Applications	59
<i>Pierre Carmier</i>	
3. Different Characterization Techniques to Evaluate Graphene and Its Properties.....	95
<i>Viera Skákalová, Dong Su Lee, and Alan B. Kaiser</i>	
4. Electrochemical Exfoliation: A Cost-Effective Approach to Produce Graphene Nanoplatelets in Bulk Quantities	139
<i>Martin Matis, Urszula Kosidlo, Friedemann Tonner, Carsten Glanz, and Ivica Kolaric</i>	
5. Exfoliation of Graphite toward Graphene from Lab to Industry	169
<i>Weifeng Zhao and Guohua Chen</i>	
6. Graphene-Based Materials for Clean Energy Applications	199
<i>Bin Luo, Minghui Liang, Michael Giersig, and Linjie Zhi</i>	
7. Electrochemistry of Graphene-Based Nanomaterials.....	263
<i>Martin Pumera</i>	
8. Graphene–Polymer Composites for Pulse Lasers.....	283
<i>Qiaoliang Bao, Dingyuan Tang, Han Zhang, and Kian Ping Loh</i>	
9. Epoxy Nanocomposites: Graphene a Promising Filler	315
<i>Iti Srivastava, Mohammad A. Rafiee, Fazel Yavari, Javad Rafiee, and Nikhil Koratkar</i>	
10. Nanoparticles and Polymer Nanocomposites	353
<i>Musa R. Kamal and Jorge Uribe-Calderon</i>	

11. Polymer-Functionalized Graphene via Atom Transfer Radical Polymerization Route for Graphene-Based Polymer Nanocomposites.....	393
<i>Arun K. Nandi, Rama K. Layek, Sanjoy Samanta, and Dhruva P. Chatterjee</i>	
12. Synthesis and Properties of Graphene-Based Nanocomposites in a Biodegradable Polymer	423
<i>Gui Lin, Isao Noda, and James E. Mark</i>	
13. Effect of Modified Graphene on Properties of Polypropylene Nanocomposites.....	447
<i>Olga Shepelev and Samuel Kenig</i>	
14. Diffusion through Polymers Containing Platelike Nanomaterials.....	467
<i>Matthew S. Thompson, Sushant Agarwal, Prithu Mukhopadhyay, and Rakesh K. Gupta</i>	
15. Using Functionalized Graphene Sheets to Restrain Chemically Driven Composite Aging.....	495
<i>J. S. van der Wal</i>	
16. Graphene/Polymer Nanocomposites	513
<i>Hyunwoo Kim, Ahmed A. Abdala, and Christopher W. Macosko</i>	
17. Highly Filled Graphite–Polymer Composites: Synthesis, Processing, and Characterization.....	557
<i>Sadhan C. Jana and Ling Du</i>	
Index.....	591
