SECTION B	Basic grammar: description and distribution	47
2	Word and phrase grammar	49
2.1	The nature of grammatical units	50
2.2	Words and their characteristics	51
2.3	Survey of lexical words	62
2.4	Survey of function words	69
2.5	Survey of inserts	93
2.6	Phrases and their characteristics	94
2.7	Types of phrase	96
2.8	Embedding of phrases	113
2.9	Coordination of phrases	113
2.10	Simple v. complex phrases	117
3	Clause grammar	119
3.1	Clause v. non-clausal material	120
3.2	Major clause elements	122
3.3	Clause links	134
3.4	Peripheral elements	136
3.5	Major clause patterns	141
3.6	Variations on clause patterns	152
3.7	Ellipsis	156
3.8	Negation	158
3.9	Subject-verb concord	180
3.10	Types of dependent clauses	192
3.11	Finite dependent clauses	193
3.12	Non-finite clauses	198
3.13	Major types of independent clauses	202
3.14	Unembedded dependent clauses	223
3.15	Non-clausal material	224

SECTION C	Key word classes and their phrases	227
4	Nouns, pronouns, and the simple noun phrase	229
4.1	Overview of nominals in discourse	230
4.2	The basic structure of noun-headed phrases	240
4.3	Types of nouns	241
4.4	Determiners	258
4.5	Number	284
4.6	Case	292
4.7	Gender	311
4.8	Noun formation	318
4.9	The role of pronouns in discourse	327
4.10	Personal pronouns	328
4.11	Possessive pronouns	340
4.12	Reflexive pronouns	342
4.13	Reciprocal pronouns	346
4.14	Demonstrative pronouns	347
4.15	Indefinite pronouns	351
4.16	Other pronouns	355
5	Verbs	357
5.1	Major verb functions and classes	358
