

TABLE OF CONTENTS

Chapter 1 Modal Auxiliaries and a Category 'Modal'

1.0	Introduction	1
1.1	Modality and the modal auxiliaries	4
1.2	Morphological and syntactic properties of the modal	8
1.3	Auxiliaries as main verbs	10
1.4	Quasi-modals, marginal modals, and the main verb debate	18
1.5	AUX and INFL	25

Chapter 2 Some Theoretical Issues in Language Change

2.0	Introduction	27
2.1	Sentence generation and generative grammar	28
2.2	Perception and inference in language change	29
2.3	Opacity and transparency	37
2.4	Syntax and memory	39
2.5	Surface evidence for deep change	42
2.6	Conclusion	46

Chapter 3 Two Stages of Change in the Modal

3.0	Introduction	47
3.1	Lightfoot's analysis of change in the modal	48
3.2	Some alternative viewpoints	51
3.3	The modal in Old English	56
3.4	Independent causation of change in the modal	64
3.5	Stage One: Special marking of the modals	70
3.6	Stage Two: Syntactic restructuring	82
3.7	Weak and strong abduction	90
3.8	Conclusion	92

Chapter 4 Marginal Modals and Quasi-modals

4.0	Introduction	94
4.1	The marginal modals	94
4.1.1	Marginal modals as semantic modals	95
4.1.2	Historical change in the marginal modals	99
4.1.3	Conclusions regarding the marginal modals	109
4.2	Quasi-modals	110
4.2.1	<u>Be going to</u> , <u>be about to</u>	111
4.2.2	<u>Be able to</u>	111
4.2.3	<u>Have to</u> , <u>be to</u>	113
4.2.4	Other quasi-modals with <u>be</u> and <u>have</u>	115
4.3	Conclusion	116

Chapter 5 Inference, Syntactic Change and Drift

5.0	Summary of the study	117
5.1	The modals and drift	123
5.2	The English <u>to</u> infinitive: another case of drift?	126
	Notes	128
	References Cited	130
