

Contents

Chapter One: Introduction	1
1.1. The endeavor	1
Chapter Two: Grounding and definitions	5
2.1. At the core of the language	5
2.1.1. Lexicon	6
2.1.2. Syntax	12
Chapter Three: Theories of language processing	15
3.1. The lexicon-syntax interface in performance models	15
3.2. Models of language production	20
3.2.1. An overall survey	20
3.2.2. Selected issues: Where lexicon and syntax meet	30
3.3. Models of language comprehension	48
3.3.1. An overall survey	48
3.3.2. Syntax and lexicon revisited	55
Chapter Four: Linguistic models under scrutiny	89
4.1. The lexicon-syntax interface in competence models	89
4.1.1. Linguistic models and the concept of naturalness	90
4.1.2. General assumptions as to the interrelation between lexicon and syntax	93
4.2. Functional approaches	97
4.2.1. Dik's model	98
4.2.2. Halliday's model	104
4.2.3. The methodological turn from Halliday to Sinclair	108
4.3. Generative approaches	120
4.3.1. The Government-and-Binding model	123
4.3.2. The model of Lexical Functional Grammar	132

4.3.3. The model of Lexical-Generative Grammar	138
4.3.4. The model of Head-Driven Phrase Structure Grammar	142
4.4. Cognitive linguistic approaches	148
4.4.1. Deane's explorations in cognitive syntax	161
4.4.2. Goldberg's Construction Grammar	165
4.4.3. Langacker's Cognitive Grammar	176
 Chapter Five: Performance data	 187
5.1. Securing and interpreting the evidence	187
5.2. Reformulations/self-repairs	190
5.3. Overlaps	212
5.4. Lexical co-occurrences	227
 Chapter Six: In the psycholinguist's laboratory	 247
6.1. An experimental test	247
6.2. The experiment	256
6.2.1. Method and procedure	257
6.2.2. Results	261
6.2.3. Discussion	265
 Chapter Seven: The finale	 279
7.1. Launching the project	279
7.2. Bringing in the harvest	280
7.2.1. The lexicon-syntax interface as reflected in performance models	280
7.2.2. The lexicon-syntax interface as reflected in competence models	283
7.2.3. The lexicon-syntax interface as reflected by performance data	292
7.2.4. The lexicon-syntax interface as reflected by experimentally elicited data	297
7.1. Evaluating the results – a psychologically plausible linguistic model	298
