

INHALT DER 13. LIEFERUNG

GÜNTER BRÄUER and FRIEDRICH W. RÖSING: Human biological history of southern Africa:	7
I. Introduction	7
II. Prehistoric and historic populations (G. BRÄUER).....	12
1. The main problems.....	12
2. Upper Pleistocene	18
2.1. Early Upper Pleistocene	18
2.2. Late Upper Pleistocene	22
3. Holocene.....	32
3.1. Early and middle Holocene	33
3.2. Late Holocene	46
3.3. Uncertainly dated material.....	60
4. The history of the Khoisanoids and Negroids in southern Africa	61
III. Living populations (F.W. Rösing)	71
1. Demography.....	71
2. Ethnography and ethnohistory of the indigenous populations	77
3. Europeans and Indians.....	86
3.1. History of immigration	86
3.2. Immigrant induced population changes	91
3.3. Urbanization	92
3.4. Marital barriers	93
3.5. Social stratification: race and class	95
3.6. Reduction of population numbers: violence and epidemics	96
4. Physical characters.....	98
4.1. Metric and morphognostic traits	98
4.2. Pigmentation	104
4.3. Dermatoglyphics	105
4.4. Blood polymorphisms.....	110
5. The racial level	120
IV. Conclusions	122
Acknowledgements.....	125
References I. (G. BRÄUER, chapter II)	126
II. (F.W. RÖSING, chapter I, III)	132
MAURICE CHABEUF (†): Le peuplement de Madagascar	139
I. Introduction.....	139
II.Histoire du peuplement.....	141
1. De la préhistoire à l'histoire.....	141
1.1. Préhistoire	141
1.2. Protohistoire	142
2. Apports humains pendant la période historique	146
III.La population malgache vivante.....	150
1. L'ethnographie de Madagascar	150
2. Aperçu de l'anthropologie des Malgaches.....	154
2.1. Anthropométrie et morphologie	155

2.2. Dermatoglyphes	161
2.3. Polymorphismes génétiques.....	161
IV.Conclusion: Du passé à l'avenir d'un peuple	166
Bibliographie	166
Plates	169
