WHAT IS ANTHROPOLOGY?	2	The Hardy-Weinberg Law	49
Culture	6	Social Selection	50
Why Is Culture Important?	7	Adaptive Polymorphism	50
Anthropology and the Scientific Method	8	Clines	51
The Four Fields of Anthropology	9	3 BEHAVIORAL EVOLUTION	56
Cultural Anthropology	9	Adaptive Behavior	57
Physical Anthropology	11	Innate Responses	57
Linguistics	12	Learning	58
Archeology	12	The Integration of Behavior and Evolution	62
Applied Aspects of Anthropology	14	Morphological Evolution and Behavior	62
The Integration of Anthropology	14	Sensation and Behavior	62
PART 1 PHYSICAL ANTHROPOLOGY AND ARCHEOLOGY	19	Innate Behavior, Learning, and Selection	63
2 EVOLUTION AND GENETICS	20	Studying Behavioral Evolution	65
Charles Darwin	22	The Problem of Altruism	67
Adaptation	24	The Problem of Territoriality and Aggression	68
Internal and External Adaptation	24	Sociobiology	71
Variation and Stability	25	4 EVOLUTION THROUGH PRIMATES	76
Niches	26	The Cell	78
Genotype and Phenotype	28	Cellular Differentiation	78
Specialization and Generalization	29	The Major Stages of Evolution	81
Adaptive Radiation	30	Nervous System and Skeletal Evolution	81
Speciation	31	The Emergence of Limbs	81
Simplicity and Complexity in Adaptation	31	Land Vertebrates	81
Fossils and Evolution	32	Homeothermy	83
Genetics and Evolution	32	Mammals	87
Sources of Evolutionary Change	34	The Primates	87
Negative Selection	34	Primate Evolution	90
Genetics	36	The Apes	92
DNA	36	Comparison of Apes and Humans	94
Gene Mutations	38	Primate Fossils	94
Chromosomal Changes	39	5 PRIMATE BEHAVIOR	100
Mendelian Genetics	43	General Characteristics of Primate Behavior	102
Sex Linkage	45		
Polygenes	46		
Population Genetics and Evolution	47		
Major Evolutionary Factors	47		

Locomotion	102	Race and IQ	
Food-getting	102	The Problem	
Social Life	102	The Jensen Argument	
Problems of Observation and Interpretation	106	Sociology of Race	
Dominance	106	Establishing Identity	
An Integrated Approach to Primate Behavior	107	The Latin American Case	
Selected Primate Studies	110	Race as a Folk Category	
Hamadryas Baboons	110	Cultural Misunderstandings	
Tradition in Monkeys: The Japanese Macaques	113	Race and Aesthetics	
The Gombe Chimps	114	Racial Myths	
The Shy Mountain Gorilla	116	Race and "Primitivism"	
Comparing Species: Chimpanzee and Gorilla Communication	117	"Positive" Racism	
6 THE EVOLUTION OF <i>HOMO SAPIENS</i>	122	Sexism	
Humans as Mammals	123	Women and Power	
Specific Human Adaptations	123	Sexist Stereotypes	
How the Human Adaptation Occurred	124	Attitudes toward Women's Liberation	
Hominid Fossils	131	Biological Differences	
Frameworks for Dating Fossil Hominids	131	SPECULATIONS ON THE EVOLUTION OF ARTISTIC BEHAVIOR	
<i>Homo erectus</i>	136	Artistic Behavior	
The Australopithecines	138	Exploration and Play	—
<i>Homo habilis</i>	141	Rhythm and Balance: Form	
What Do the East African Finds Mean?	143	Pattern Recognition and Discrimination	—
<i>Australopithecus afarensis</i>	143	Transformation-Representation	
<i>Ramapithecus</i> : The First Hominid?	145	Defining Art	
Later Forms: Progressive and Classic Neanderthal	148	Music as a Special Case	
7 HUMAN DIVERSITY; RACE AND SEX	156	8 APPLIED PHYSICAL AND MEDICAL ANTHROPOLOGY	
The Classification of Human Diversity	157	Biology and Culture, Culture and Biology	
The Reasons for Human Variation	160	Population Genetics	
Drift as a Cause of Variation	161	Data Problems	
Interbreeding	161	Tracking Down the Cause of Disease	
Mutation	162	Causes of Disease	
Can Populations Be Grouped into Races?	162	Solving a Medical Mystery through Anthropology and Medicine	
		Applied Problems	
		Nutrition	
		Energy and Work	

Environmental Adaptation	201	The Near East	250
Growth	202	Asia	251
Blood Chemistry and Genetics	203	The New World	251
Sports	203	The Worldwide Development of Agriculture	254
The Ethics of Basic and Applied Physical Anthropology	203	Technological Developments	256
		Social Structure	256
DIGGING TO KNOW AND UNDERSTAND THE PAST	206	11 THE RISE OF THE STATE	262
Archeological Sites and Artifacts	207	Stratification and State Formation	263
Finding Sites	207	Rank and Stratification	263
Space and Archeology	210	States and Urban Centers	263
Dating	214	Civilization	265
Carbon-14	214	The Origin of Stratification	266
Potassium-Argon Dating	214	Population as Motor	266
Dendrochronology	214	Technology as Motor	266
Newer Techniques	216	Social Structure as Motor	266
Site Analysis	217	Criticisms of These Theories	266
Palynology	217	Theories of the Rise of the State	268
Classification of Artifacts	218	Conquest	268
Experimental Archeology	218	Trade	268
Historical Sites and Experimentation	218	Ecological Confinement	269
Archeology and Contemporary Populations	220	Circumscription, Warfare, and Population Increase	272
Computer Use	221	Hydraulic Agriculture	273
		States of the Old and New Worlds	276
FROM HUNTING AND GATHERING TO DOMESTICATION	224	The Mesopotamian State	276
The Origins of Culture: Hunting and Gathering, the Division of Labor, Sharing, Carrying	225	Olmec and Maya in the New World	277
The Paleolithic (Old Stone Age)	228	The Valley of Mexico	279
The Lower Paleolithic	228	Peru	282
The Middle Paleolithic	230		
The Upper Paleolithic	232	PART 2 CULTURAL ANTHROPOLOGY AND LINGUISTICS	289
The Mesolithic (Middle Stone Age)	237	12 LANGUAGE: THE BASIS OF CULTURE	290
Hunting and Gathering in the New World: Paleoindian Cultures	238	The Evolution of Language	291
The Neolithic (New Stone Age)	239	The Skinnerian View	291
Domestication	241	The Chomskyan View	294
Animal Domestication	241	Criticism of Both Approaches	297
Plant Domestication	245	Language as a System	297
The Rise of Domestication in Selected Areas	250	Sounds	298
		Syntax and Grammar	302
		Semantics	302

Language and Society (Sociolinguistics)	303	Animal Husbandry	3
The Language-and-Culture Problem	303	Pastoralism in Arid Environments	3
Are There Primitive Languages?	304	Species Choice	3
Language in Social Context	305	Island Subsistence	3
Dialects as Social Markers	306	Economy, Ecology, and Social Structure	3
Secret Dialects	308		3
Language Change and Historical Linguistics	308	14 STUDYING LIVING PEOPLES	34
Linguistic Change and Ethnohistory	310	Preparing for the Field: The Training of Anthropologists	34
The Development of Writing	310	Language Competence	34
Language in Action	312	Further Preparation	34
Translation	312	Principal Methods	34
Playing with Language	314	Participant Observation	34
Unconscious Use of Linguistic		Interviews	34
Symbolism and Language	314	Studying the Abron	34
