Preface ix

I Mainly on Sensory Integration 1

1 Bayesian Modeling of Perceiving: A Guide to Basic Principles 3

David J. Bennett, Julia Trommershäuser, and Loes C. J. van Dam

2 The Multisensory Nature of Perceptual Consciousness 15

Tim Bayne

3 The Long-Term Potentiation Model for Grapheme-Color Binding in Synesthesia 37

Berit Brogaard, Kristian Marlow, and Kevin Rice

4 Intermodal Binding Awareness 73

Casey O'Callaghan

5 The Unity Assumption and the Many Unities of Consciousness 105

Ophelia Deroy

6 Multimodal Unity and Multimodal Binding 125

Frédérique de Vignemont

7 Can Blue Mean Four? 151

Jennifer Matey

8 Establishing Cross-Modal Mappings: Empirical and Computational Investigations 171

Pawan Sinha, Jonas Wulff, and Richard Held

9 Berkeley, Reid, and Sinha on Molyneux's Question 193

James Van Cleve

10 Modeling Multisensory Integration 209

Loes C. J. van Dam, Cesare V. Parise, and Marc O. Ernst

II	Primarily on the Unity of Consciousness	231
11	A Unity Pluralist Account of the Unity of Experience	233
	David J. Bennett and Christopher S. Hill	
12	Unity, Synchrony, and Subjects	255
	Barry Dainton	
13	Experiences and Their Parts	287
	Geoffrey Lee	
14	Unity of Consciousness: Advertisement for a Leibnizian View	323
	Farid Masrour	
15	Partial Unity of Consciousness: A Preliminary Defense	347
	Elizabeth Schechter	
16	<i>E pluribus unum</i>: Rethinking the Unity of Consciousness	375
	Robert Van Gulick	
17	Counting Minds and Mental States	393
	Jonathan Vogel	
	Contributors	401
	Index	403
