

TABLE OF CONTENTS

I.	Getting to work	1
	Starting <i>The LogicWorks</i>	1
II.	Protecting your homework and your disk	5
	Creating backup copies	5
	Taking care of computer disks	7
III.	General hints and suggestions	7
	A) Using the program	7
	B) Special keys	7
	C) Main program options	9
	D) Choosing options for exercises	10
	E) Preparing for examinations	11
	F) Viewing and printing your homework record	11
IV.	Hints and suggestions for Critical Reasoning	12
	A) Hints for Definition Analysis, Fallacy Identification, Kinds of Disagreement, Language Functions, Naming Argument Forms, and Recognizing Arguments	12
	B) Hints for Argument Analysis	16
	C) Hints for Categorical Logic	17
	D) Hints for Making Immediate Inferences	17
V.	Hints and suggestions for Symbolic Logic	18
	A) Hints for English to Symbolic	18
	B) Hints for Justification of Proofs	18
	C) Hints for Sentential Logic and Predicate Logic	20
	D) Hints for Truthtable Construction	24
	E) Hints for Using Truth Trees	24
VI.	Setting things up	25
	A) System Requirements	25
	B) Installing <i>The LogicWorks</i> IBM	25
	C) Installing <i>The LogicWorks</i> MAC	28
VII.	Comments and Suggestions	29
	Appendix 1	30
