

# Contents

## INTRODUCTION

- Recent Research in Mental Handicap: Issues and Perspectives . . . 3  
*J. Hogg and P. J. Mittler*

## SECTION 1: ASSESSMENT

- Experimental Approaches to the Assessment of Retarded Behaviour**  
The Behaviour Assessment Battery for use with the Profoundly  
Retarded . . . . . 27  
*C. C. Kiernan and M. Jones*

- Issues Encountered in Devising an Observation System to Assess  
Spontaneous Infant Behaviour-Environment Interactions . . . 55  
*G. Chatelanat and M. Schoggen*

## SECTION 2: EXPERIMENTATION

- Experimental Approaches to the Analysis of Retarded Behaviour**  
Stimulus Fading Procedures and Discrimination Learning by Retarded  
Children . . . . . 83  
*J.-L. Lambert*

- Transfer: Behaving Effectively in New Situations . . . . . 129  
*J. E. Spradlin and A. VanBiervliet*

## SECTION 3: INTERACTION

- The Analysis of Interactive Behaviour in Mentally Handicapped Children**  
Down's Syndrome Children in Structured Dyadic Communication  
Situations with their Parents . . . . . 161  
*D. R. Mitchell*

## SECTION 4: INTERVENTION

- Intervention Strategies**  
Teaching a First Language: Building Complex Structure from Simpler  
Components . . . . . 197  
*R. P. Brinker and D. Bricker*

Early Intervention . . . . .	225
