Introduction	xv
<i>Martin Scherer</i>	
SECTION A: Approaches to Disruptive Behaviour	3
1 Perspectives on Disruptive Behaviour	
<i>Neil Frude</i>	
Incidents – Individuals – Teacher–pupil relationships – Classes and peer groups – Schools – The wider context – Multiple phenomena, multiple levels, multiple factors – Implications for treatment – References	
2 Disruptive Pupils: Changes in Perception and Provision	24
<i>Keith Topping</i>	
Introduction: the problems of definition – Incidence and causation – Policy and legislation – Provision – The future – References	
3 Contemporary Behavioural Psychology and Problem Behaviour in School	38
<i>Robert Cameron</i>	
Introduction – Human behaviour – Problems within people – Behaviour in context – The rise and fall of ‘behaviour mod’ – An improved behavioural approach – The problem- centred approach – Steps to systematic problem solving – Overview – References	
SECTION B: Assessment of Disruptive Behaviour	
4 Monitoring and Analysing Disruptive Incidents	53
<i>David Steed and Jean Lawrence with Martin Scherer</i>	
Introduction – Incident monitoring in secondary schools – Incident monitoring in primary schools – Critical Incident reporting – Practical uses of Critical Incident Forms: an example – Discussion and conclusion – References	

- 5 Checking Pupils' Behavioural Skills** 69
Martin Scherer
 Why check pupils' behaviour? – Who should check behaviour? – Exams and personality tests – Checking skills – Assessment of disruptive behaviour – Writing a list of classroom social and behavioural skills – What is a checklist? – When to use checklists – How are skills checked? – What to do with the results – Are checklists a reliable assessment method? – Conclusions: stages of assessment – References – Appendix: School Skills Checklist
- 6 Assessment by Baselines** 91
Martin Scherer
 Introduction – Principles of single-subject methods – Examination of results – Evidence for programme – Advantages of single-subject methods – Why not use statistics? – The basic method – Presenting the results – Why use single-subject methods – Conclusions – References
- 7 The Pupil's View** 117
Irvine Gersch
 Introduction – Background – Pupil involvement: four practical projects – Focus on behaviour change – Some questions for adults seeking to alter pupil behaviour – Conclusions – References – Appendix: Child's Report – Acknowledgements
- SECTION C: Influencing Behaviour Change**
- 8 Analysing Classroom Organisation** 141
Colin J. Smith
 Introduction – Relationships, rules and routines – Assignments and rewards – Working in groups – Classroom design – Providing support – Defining teaching skills – References
- 9 Assertive Discipline** 153
Lee Canter
 Introduction – Assertive, non-assertive and hostile teachers – Encouraging teachers to be more assertive – The process of limit setting – What Assertive Discipline can do for your school – References

- 10 Using Consequences in Class** 163
Martin Scherer
 Introduction – Using consequences: immediate delivery –
 Punishment: decreasing and suppressing behaviour –
 Guidelines on the use of punishment – Reinforcement:
 increasing and maintaining behaviour – Maintaining escape
 and avoidance: negative reinforcement – Maintaining
 approach and achievement behaviour – Delivering
 consequences – Teaching the value of tokens and points –
 Extinguishing behaviour – Time out – Conclusions –
 References
- 11 Using Behavioural Contracts in the Classroom** 181
Peter Gurney
 Introduction – What is a behavioural contract? –
 Stages involved in process – Further example of a
 behavioural contract – Essential features of the
 behavioural contract – Conclusions – Appendix:
 Reciprocal behaviour change contracting – References
- 12 Survival Skills for The Comprehensive School** 197
Roger Burland
 Introduction – Understanding and knowledge of the
 comprehensive school – The basic requirements to be an
 ‘OK’ person – Strategies of social interaction between
 child and teacher – Interactions with peers – References
- 13 Behavioural Systems Projects in Junior and Secondary
 Schools** 206
Irvine Gersch
 Introduction – The systems and behavioural approaches in
 outline – The secondary school project – A junior school
 project – Outcomes – Evaluation – Conclusions –
 References – Acknowledgements
- SECTION D: Partnerships in Meeting Disruptive Behaviour**
- 14 Partnerships between Educational Psychologists and
 Teachers** 225
Don Hills
 Introduction – The basis for partnership – A partnership
 in meeting disruptive behaviour – Partnership in action –

	The reciprocal nature of the partnership – References – Acknowledgements	
15	Involving Parents in Behaviour Management: A Whole-School Approach <i>Sheila Wolfendale</i>	237
	Introduction – Working with parents as clients or partners – Special educational needs and parental involvement – Behavioural problems: involving parents in a whole-school approach – Evolving strategies – Applications: practice and possibilities – Further reading – References – Appendix: Parental Profile	
16	Partnership with Pupils <i>David Lane and Fiona Green</i>	252
	Education as negotiation – Open files: a basis for partnership – The open class: a truancy project – The analysis of a problematic situation – Attempting partnership: an example – Conclusions – References	
	Conclusion	267
