

Android Programming

THE BIG NERD RANCH GUIDE

Bill Phillips, Chris Stewart & Kristin Marsicano

Big Nerd
Ranch

Table of Contents

Learning Android	xix
Prerequisites	xix
What's New in the Third Edition?	xix
How to Use This Book	xx
How This Book Is Organized	xx
Challenges	xxi
Are you more curious?	xxi
Code Style	xxi
Typographical Conventions	xxii
Android Versions	xxii
The Necessary Tools	xxiii
Downloading and Installing Android Studio	xxiii
Downloading Earlier SDK Versions	xxiii
A Hardware Device	xxiv
1. Your First Android Application	1
App Basics	2
Creating an Android Project	3
Navigating in Android Studio	8
Laying Out the UI	9
The view hierarchy	13
Widget attributes	14
Creating string resources	15
Previewing the layout	16
From Layout XML to View Objects	17
Resources and resource IDs	18
Wiring Up Widgets	21
Getting references to widgets	22
Setting listeners	23
Making Toasts	25
Using code completion	26
Running on the Emulator	27
For the More Curious: Android Build Process	30
Android build tools	31
Challenges	32
Challenge: Customizing the Toast	32
2. Android and Model-View-Controller	33
Creating a New Class	34
Generating getters and setters	35
Model-View-Controller and Android	37
Benefits of MVC	38
Updating the View Layer	39
Updating the Controller Layer	41
Running on a Device	46
Connecting your device	46
Configuring your device for development	46

Adding an Icon	48
Adding resources to a project	49
Referencing resources in XML	51
Challenge: Add a Listener to the TextView	52
Challenge: Add a Previous Button	52
Challenge: From Button to ImageButton	53
3. The Activity Lifecycle	55
Logging the Activity Lifecycle	57
Making log messages	57
Using Logcat	59
Exploring the activity lifecycle by example	60
Rotation and the Activity Lifecycle	63
Device configurations and alternative resources	63
Saving Data Across Rotation	68
Overriding onSaveInstanceState(Bundle)	69
The Activity Lifecycle, Revisited	70
For the More Curious: Current State of Activity Cleanup	72
For the More Curious: Log Levels and Methods	73
Challenge: Preventing Repeat Answers	74
Challenge: Graded Quiz	74
4. Debugging Android Apps	75
Exceptions and Stack Traces	76
Diagnosing misbehaviors	78
Logging stack traces	78
Setting breakpoints	80
Using exception breakpoints	83
Android-Specific Debugging	85
Using Android Lint	85
Issues with the R class	87
Challenge: Exploring the Layout Inspector	88
Challenge: Exploring Allocation Tracking	89
5. Your Second Activity	91
Setting Up a Second Activity	93
Creating a new activity	93
A new activity subclass	96
Declaring activities in the manifest	97
Adding a cheat button to QuizActivity	98
Starting an Activity	99
Communicating with intents	100
Passing Data Between Activities	101
Using intent extras	102
Getting a result back from a child activity	105
How Android Sees Your Activities	109
Challenge: Closing Loopholes for Cheaters	112
6. Android SDK Versions and Compatibility	113
Android SDK Versions	113
Compatibility and Android Programming	114
A sane minimum	114

Minimum SDK version	117
Target SDK version	117
Compile SDK version	117
Adding code from later APIs safely	118
Using the Android Developer Documentation	120
Challenge: Reporting the Build Version	122
Challenge: Limited Cheats	122
7. UI Fragments and the Fragment Manager	123
The Need for UI Flexibility	124
Introducing Fragments	125
Starting <code>CriminalIntent</code>	126
Creating a new project	129
Two types of fragments	130
Adding dependencies in Android Studio	131
Creating the <code>Crime</code> class	134
Hosting a UI Fragment	136
The fragment lifecycle	136
Two approaches to hosting	137
Defining a container view	137
Creating a UI Fragment	139
Defining <code>CrimeFragment</code> 's layout	139
Creating the <code>CrimeFragment</code> class	142
Adding a UI Fragment to the <code>FragmentManager</code>	148
Fragment transactions	149
The <code>FragmentManager</code> and the fragment lifecycle	152
Application Architecture with Fragments	153
The reason all our activities will use fragments	154
For the More Curious: Fragments and the Support Library	155
For the More Curious: Why Support Fragments Are Superior	156
8. Displaying Lists with <code>RecyclerView</code>	157
Updating <code>CriminalIntent</code> 's Model Layer	159
Singletons and centralized data storage	159
An Abstract Activity for Hosting a Fragment	161
A generic fragment-hosting layout	161
An abstract Activity class	162
<code>RecyclerView</code> , <code>Adapter</code> , and <code>ViewHolder</code>	167
<code>ViewHolders</code> and <code>Adapters</code>	168
Using a <code>RecyclerView</code>	171
A view to display	173
Implementing a <code>ViewHolder</code> and an <code>Adapter</code>	173
Binding List Items	176
Responding to Presses	178
For the More Curious: <code>ListView</code> and <code>GridView</code>	179
For the More Curious: Singletons	179
Challenge: <code>RecyclerView ViewTypes</code>	180
9. Creating User Interfaces with Layouts and Widgets	181
Using the Graphical Layout Tool	182
Introducing <code>ConstraintLayout</code>	183

Using ConstraintLayout	184
The graphical editor	186
Making room	188
Adding widgets	190
ConstraintLayout's inner workings	194
Editing properties	195
Making list items dynamic	199
More on Layout Attributes	200
Screen pixel densities and dp and sp	200
Margins vs padding	202
Styles, themes, and theme attributes	203
Android's design guidelines	204
The Graphical Layout Tools and You	204
Challenge: Formatting the Date	204
10. Using Fragment Arguments	205
Starting an Activity from a Fragment	205
Putting an extra	207
Retrieving an extra	207
Updating CrimeFragment's view with Crime data	208
The downside to direct retrieval	209
Fragment Arguments	210
Attaching arguments to a fragment	210
Retrieving arguments	211
Reloading the List	212
Getting Results with Fragments	215
For the More Curious: Why Use Fragment Arguments?	216
Challenge: Efficient RecyclerView Reloading	216
Challenge: Improving CrimeLab Performance	216
11. Using ViewPager	217
Creating CrimePagerActivity	219
ViewPager and PagerAdapter	219
Integrating CrimePagerActivity	221
FragmentManager vs FragmentPagerAdapter	223
For the More Curious: How ViewPager Really Works	224
For the More Curious: Laying Out Views in Code	225
Challenge: Restoring CrimeFragment's Margins	226
Challenge: Adding First and Last Buttons	226
12. Dialogs	227
Creating a DialogFragment	228
Showing a DialogFragment	231
Setting a dialog's contents	232
Passing Data Between Two Fragments	235
Passing data to DatePickerFragment	236
Returning data to CrimeFragment	238
Challenge: More Dialogs	245
Challenge: A Responsive DialogFragment	245
13. The Toolbar	247
AppCompatActivity	248

Using the AppCompatActivity library	248
Menus	250
Defining a menu in XML	250
Creating the menu	256
Responding to menu selections	259
Enabling Hierarchical Navigation	260
How hierarchical navigation works	261
An Alternative Action Item	262
Toggling the action item title	263
“Just one more thing...”	265
For the More Curious: Action Bar vs Toolbar	267
Challenge: Deleting Crimes	267
Challenge: Plural String Resources	268
Challenge: An Empty View for the RecyclerView	268
14. SQLite Databases	269
Defining a Schema	270
Building Your Initial Database	271
Exploring files using Android Device Monitor	274
Debugging database issues	276
Gutting CrimeLab	277
Writing to the Database	278
Using ContentValues	278
Inserting and updating rows	279
Reading from the Database	281
Using a CursorWrapper	282
Converting to model objects	284
For the More Curious: More Databases	287
For the More Curious: The Application Context	288
Challenge: Deleting Crimes	288
15. Implicit Intents	289
Adding Buttons	290
Adding a Suspect to the Model Layer	291
Using a Format String	293
Using Implicit Intents	294
Parts of an implicit intent	295
Sending a crime report	296
Asking Android for a contact	299
Checking for responding activities	302
Challenge: ShareCompat	304
Challenge: Another Implicit Intent	304
16. Taking Pictures with Intents	305
A Place for Your Photo	305
File Storage	308
Using FileProvider	309
Designating a picture location	310
Using a Camera Intent	311
Firing the intent	311
Scaling and Displaying Bitmaps	313

Declaring Features	316
Challenge: Detail Display	316
Challenge: Efficient Thumbnail Load	316
17. Two-Pane Master-Detail Interfaces	317
Adding Layout Flexibility	319
Modifying SingleFragmentActivity	320
Creating a layout with two fragment containers	321
Using an alias resource	323
Creating tablet alternatives	324
Activity: Fragment Boss	325
Fragment callback interfaces	326
For the More Curious: More on Determining Device Size	335
Challenge: Adding Swipe to Dismiss	335
18. Localization	337
Localizing Resources	338
Default resources	341
Checking string coverage using Translations Editor	344
Targeting a region	345
Configuration Qualifiers	348
Prioritizing alternative resources	349
Multiple qualifiers	351
Finding the best-matching resources	352
Testing Alternative Resources	353
Challenge: Localizing Dates	354
19. Accessibility	355
TalkBack	355
Explore by Touch	359
Linear navigation by swiping	359
Making Non-Text Elements Readable by TalkBack	362
Adding content descriptions	362
Making a widget focusable	364
Creating a Comparable Experience	365
Using labels to provide context	367
For the More Curious: Using Accessibility Scanner	370
Challenge: Improving the List	373
Challenge: Providing Enough Context for Data Entry	373
Challenge: Announcing Events	373
20. Data Binding and MVVM	375
Different Architectures: Why Bother?	376
Creating BeatBox	376
Simple data binding	378
Importing Assets	382
Getting At Assets	384
Wiring Up Assets for Use	386
Binding to Data	389
Creating a ViewModel	391
Binding to a ViewModel	392
Observable data	394

Accessing Assets	396
For the More Curious: More About Data Binding	396
Lambda expressions	397
More syntactic sugar	397
BindingAdapters	397
For the More Curious: Why Assets, Not Resources	398
For the More Curious: Non-Assets?	398
21. Unit Testing and Audio Playback	399
Creating a SoundPool	399
Loading Sounds	400
Playing Sounds	402
Test Dependencies	402
Creating a Test Class	403
Setting Up Your Test	405
Using mocked dependencies	405
Writing Tests	407
Testing object interactions	407
Data Binding Callbacks	411
Unloading Sounds	412
Rotation and Object Continuity	413
Retaining a fragment	414
Rotation and retained fragments	414
For the More Curious: Whether to Retain	416
For the More Curious: Espresso and Integration Testing	417
For the More Curious: Mocks and Testing	418
Challenge: Playback Speed Control	419
22. Styles and Themes	421
Color Resources	422
Styles	422
Style inheritance	424
Themes	425
Modifying the theme	426
Adding Theme Colors	428
Overriding Theme Attributes	429
Theme spelunking	429
Modifying Button Attributes	433
For the More Curious: More on Style Inheritance	435
For the More Curious: Accessing Theme Attributes	436
23. XML Drawables	437
Making Uniform Buttons	438
Shape Drawables	439
State List Drawables	441
Layer List Drawables	443
For the More Curious: Why Bother with XML Drawables?	444
For the More Curious: Mipmap Images	445
For the More Curious: 9-Patch Images	446
Challenge: Button Themes	452
24. More About Intents and Tasks	453

Setting Up NerdLauncher	454
Resolving an Implicit Intent	456
Creating Explicit Intents at Runtime	460
Tasks and the Back Stack	462
Switching between tasks	462
Starting a new task	464
Using NerdLauncher as a Home Screen	466
Challenge: Icons	468
For the More Curious: Processes vs Tasks	468
For the More Curious: Concurrent Documents	471
25. HTTP and Background Tasks	473
Creating PhotoGallery	475
Networking Basics	477
Asking permission to network	479
Using AsyncTask to Run on a Background Thread	479
You and Your Main Thread	481
Beyond the main thread	482
Fetching JSON from Flickr	483
Parsing JSON text	487
From AsyncTask Back to the Main Thread	491
Cleaning Up AsyncTasks	495
For the More Curious: More on AsyncTask	496
For the More Curious: Alternatives to AsyncTask	497
Challenge: Gson	498
Challenge: Paging	498
Challenge: Dynamically Adjusting the Number of Columns	498
26. Loopers, Handlers, and HandlerThread	499
Preparing RecyclerView to Display Images	499
Downloading Lots of Small Things	502
Communicating with the Main Thread	502
Assembling a Background Thread	504
Messages and Message Handlers	506
Message anatomy	506
Handler anatomy	507
Using handlers	508
Passing handlers	512
For the More Curious: AsyncTasks vs Threads	518
For the More Curious: Solving the Image Downloading Problem	518
For the More Curious: StrictMode	519
Challenge: Preloading and Caching	520
27. Search	521
Searching Flickr	521
Using SearchView	526
Responding to SearchView user interactions	530
Simple Persistence with Shared Preferences	532
Polishing Your App	536
Challenge: Polishing Your App Some More	536
28. Background Services	537

Creating an IntentService	537
What Services Are For	540
Safe background networking	540
Looking for New Results	542
Delayed Execution with AlarmManager	544
Being a good citizen: using alarms the right way	545
PendingIntent	547
Managing alarms with PendingIntent	547
Controlling Your Alarm	548
Notifications	551
Challenge: Notifications on Android Wear	553
For the More Curious: Service Details	553
What a service does (and does not do)	553
A service's lifecycle	554
Non-sticky services	554
Sticky services	554
Bound services	555
For the More Curious: JobScheduler and JobServices	556
JobScheduler and the future of background work	559
Challenge: Using JobService on Lollipop	559
For the More Curious: Sync Adapters	559
29. Broadcast Intents	561
Regular Intents vs Broadcast Intents	561
Receiving a System Broadcast: Waking Up on Boot	562
Creating and registering a standalone receiver	562
Using receivers	565
Filtering Foreground Notifications	567
Sending broadcast intents	567
Creating and registering a dynamic receiver	568
Limiting broadcasts to your app using private permissions	570
Passing and receiving data with ordered broadcasts	572
Receivers and Long-Running Tasks	577
For the More Curious: Local Events	578
Using EventBus	578
Using RxJava	579
For the More Curious: Detecting the Visibility of Your Fragment	580
30. Browsing the Web and WebView	581
One Last Bit of Flickr Data	582
The Easy Way: Implicit Intents	585
The Harder Way: WebView	586
Using WebChromeClient to spruce things up	590
Proper Rotation with WebView	593
Dangers of handling configuration changes	593
For the More Curious: Injecting JavaScript Objects	594
For the More Curious: WebView Updates	595
Challenge: Using the Back Button for Browser History	595
Challenge: Supporting Non-HTTP Links	596
31. Custom Views and Touch Events	597

Setting Up the DragAndDraw Project	598
Creating a Custom View	600
Creating BoxDrawingView	600
Handling Touch Events	602
Tracking across motion events	604
Rendering Inside onDraw(Canvas)	606
Challenge: Saving State	608
Challenge: Rotating Boxes	608
32. Property Animation	609
Building the Scene	609
Simple Property Animation	612
View transformation properties	614
Using different interpolators	616
Color evaluation	616
Playing Animators Together	618
For the More Curious: Other Animation APIs	620
Legacy animation tools	620
Transitions	620
Challenges	620
33. Locations and Play Services	621
Locations and Libraries	622
Google Play Services	622
Creating Locatr	623
Play Services and Location Testing on Emulators	623
Mock location data	624
Building Out Locatr	627
Setting Up Google Play Services	629
Location permissions	630
Using Google Play Services	631
Flickr Geosearch	633
Getting a Location Fix	634
Asking for Permission at Runtime	637
Checking for permissions	638
Find and Display an Image	644
Challenge: Permissions Rationale	646
Challenge: Progress	646
34. Maps	647
Importing Play Services Maps	647
Mapping on Android	647
Getting a Maps API Key	648
Setting Up Your Map	650
Getting More Location Data	652
Working with Your Map	654
Drawing on the map	657
For the More Curious: Teams and API Keys	659
35. Material Design	661
Material Surfaces	662
Elevation and Z values	664

State list animators	665
Animation Tools	667
Circular reveal	667
Shared element transitions	669
View Components	673
Cards	673
Floating action buttons	675
Snackbars	676
More on Material Design	677
36. Afterword	679
The Final Challenge	679
Shameless Plugs	679
Thank You	680
Index	681
