

Contents

1. The CIDNP Effect
S. H. Glarum, BELL TELEPHONE LABORATORIES, INCORPORATED,
MURRAY HILL, NEW JERSEY 1
2. Electron Spin Polarization
P. W. Atkins and K. A. McLauchlan, PHYSICAL CHEMICAL LABORA-
TORY, SOUTH PARKS ROAD, OXFORD, ENGLAND 41
3. CIDNP in Reactions of Carbenes, Azo Compounds, and Photo-
excited Carbonyl Compounds
G. L. Closs, DEPARTMENT OF CHEMISTRY, THE UNIVERSITY OF
CHICAGO, CHICAGO, ILLINOIS 95
4. Thermal and Photochemical Decomposition of Aliphatic Acyl
Peroxides and Related Compounds
Robert Kaptein, SHELL RESEARCH LABORATORIES, AMSTERDAM,
NETHERLANDS 137
5. Aroyl Peroxide Decompositions
Hanns Fischer, PHYSIKALISCH-CHEMISCHES INSTITUT DER UNIVER-
SITAT ZURICH, ZURICH, SWITZERLAND 197
6. CIDNP and Reactions of Radical Ions; Sodium Naphthalene-
Alkyl Halide Reactions in Low Magnetic Fields
John F. Garst, DEPARTMENT OF CHEMISTRY, UNIVERSITY OF GEORGIA,
ATHENS, GEORGIA 223

7. The Role of CIDNP in a Mechanistic Investigation of Alkyl- lithium-Alkyl Halide Reactions	
Harold R. Ward, Ronald G. Lawler, and Robert A. Cooper, METCALF RESEARCH LABORATORIES, BROWN UNIVERSITY, PROVIDENCE, RHODE ISLAND	281
8. Molecular Rearrangements and Miscellaneous Reactions	
Arthur R. Lepley, DEPARTMENT OF CHEMISTRY, MARSHALL UNIVER- SITY, HUNTINGTON, WEST VIRGINIA	323
AUTHOR INDEX	385
SUBJECT INDEX	397
