<i>Preface</i>	v
--------------------------	---

Chapter 1. **Synthesis and Properties of Carboxylic Ortho Esters and Related Compounds**

I. Introduction	1
II. Synthesis of Ortho Esters from Nitriles and Imidic Esters	2
III. Synthesis of Ortho Esters from Trihalomethyl Compounds and α -Halo Ethers	12
IV. Synthesis of Ortho Esters from Other Ortho Esters	18
V. Formation of Ortho Esters by Reactions involving addition of Alcohols to Carbon–Carbon Multiple Bonds.	32
VI. Synthesis of Ortho Esters from Carbonium Salts	36
VII. Synthesis of Cyclic and Spirocyclic Ortho Esters from Epoxides and Formate Esters or Lactones	38
VIII. Formation of Ortho Esters by Cyclizations of Acyloxy Compounds.	40
IX. Synthesis of Carboxylic Ortho Esters from Tetraalkyl Orthocarbonates	44
X. Formation of Carboxylic Ortho Esters by Reactions of Dialkoxycarbenes with Alcohols	45
XI. Synthesis of Ortho Esters by Addition of Ketene Acetals to α,β -Unsaturated Carbonyl Compounds	46
XII. Miscellaneous Reactions Which Yield Ortho Esters	47
XIII. Synthesis of Peroxy and Hydroperoxy Ortho Esters	50

XIV. Synthesis of Acyloxy Ortho Esters	52
XV. Physical Properties of Ortho Esters	54
References	122

Chapter 2. Reactions of Ortho Esters Which Result in Carbon–Oxygen and Carbon–Halogen Bond Formation

I. Hydrolysis of Carboxylic Ortho Esters	134
II. Reactions of Carboxylic Ortho Esters Which Yield Ethers	146
III. Reactions of Carboxylic Ortho Esters Which Yield Carboxylate Esters	152
IV. Conversion of Carbonyl Compounds to Hemiacetals, Acetals, and Ketals	154
V. Reactions of Carboxylic Ortho Esters Which Yield Esters of Acids Other than Carboxylic and Carbonic Acids	164
VI. Reactions of Carboxylic Ortho Esters Which Yield Alkyl Halides	167
References	168

Chapter 3. Reactions of Ortho Esters Which Result in Carbon–Nitrogen or Carbon–Phosphorus Bond Formation

I. Introduction	178
II. Reactions Which Yield Acyclic Products	179
III. Reactions Which Yield Nitrogen Heterocycles	195
IV. Reactions Resulting in Carbon–Phosphorus Bond Formation	212
References	215

Chapter 4. Reactions of Ortho Esters Which Involve Carbon–Carbon or Carbon–Hydrogen Bond Formation

I. Introduction	223
II. Reactions of Ortho Esters with Organometallic Compounds	224
III. Reactions of Ortho Esters with Metal Hydrides	231
IV. Reactions of Ortho Esters with Compounds Which have Activated Carbon–Hydrogen Bonds	231
V. Electrophilic Additions of Orthocarboxylates to Carbon–Carbon Double Bonds	266
VI. Aromatic Substitution Reactions of Ortho Esters	269
VII. Reactions of Ortho Esters with Ethyl Diazoacetate and with Diazo Ketones	271
VIII. Miscellaneous Ortho Ester Addition Reactions Which Form Carbon–Carbon Bonds	272
IX. Elimination Reactions of Ortho Esters–Synthesis of Ketene Acetals	274
X. Other Elimination Reactions of Ortho Esters	277
References	278

Chapter 5. Carbohydrate Ortho Esters

I. Introduction	298
II. Synthesis and Properties of Carbohydrate Ortho Esters	299
III. Reactions of Carbohydrate Ortho Esters Which Yield Non-Ortho Ester Products	331
References	342

Chapter 6. Thioorthocarboxylates, Thioorthocarbonates, and Related Compounds	
I. Introduction	348
II. Syntheses of Trithioorthocarboxylates, Tetra-Thioorthocarbonates, and Related Compounds	349
III. Properties and Sources of Thioorthocarboxylic and Thioorthocarbonic Acid Derivatives	373
IV. Reactions of Thioorthocarboxylates, Thioortho-Carbonates, and Related Compounds	373
References	414
Chapter 7. Amide Acetals, Ester Aminals, and Ortho Amides	
I. Introduction	420
II. Syntheses of Amide Acetals, Ester Aminals, and Ortho Amides	421
III. Properties and Sources of Amide Acetals, Ester Aminals, and Ortho Amides	450
IV. Reactions of Amide Acetals, Ester Aminals, and Ortho Amides	475
References	501
Author Index	507
Subject Index	547
