1 The idea of Europe: dream and reality 1

1.1 The idea of Europe 1

1.2 From the United States of Europe to the European Community 2

1.3 Acceptance of the European Community: W. Germany, Italy, France and the U.K. 4

2 Public opinion and European integration: a review and critique 9

2.1 Integration theory and the place of public opinion 9

2.2 The common Man and public opinion 13

2.3 Opinion – public or elite? 14

2.4 In defence of public opinion 16

2.5 European public opinion: early evidence 20

2.6 European public opinion: *Euro-baromètre* 1974–84 22

2.6.1 Affective support for European integration 24

2.6.2 Support for Community membership 28

2.6.3 Intensity of attachment to the European ideal 31

2.6.4 Saliency of the European Community 34

2.6.5 The European Parliament 35

2.6.6 Summary 37

2.7 Theoretical analyses of Community attitudes: the determinants of ‘Europeanism’ 39

2.8. Limitations of public opinion surveys 46

3 Towards a social-psychological analysis of ‘Europeanism’ 51

3.1 Social representations 52

3.2 Attitudes 57

3.2.1 Attitude definition 58

3.2.2 The functions of attitudes 60

3.2.3 The structure of attitudes 61

3.2.4 Expectancy-value theories of attitude 67

3.3 Ethnocentrism: stereotypes, liking and national images 77

3.4 Equity theory: perceived gains and losses of Community membership 82

3.5	Utilitarian and affective support for Community membership	85
3.6	The effects of personal contact and travel	85
3.7	Perceptions of economic policy and its outcomes	86
3.8	Information and knowledge about the Community	87
3.9	Description of the study	87
3.9.1	Samples and respondents	87
3.9.2	The questionnaire	89
3.9.3	Procedure	92
3.9.4	Caveats	92
3.10	Summary	93
4	Social representations of the European Community: content-analyses of open-ended responses	95
4.1	Content-analysis	95
4.2	Procedure	96
4.3	Results	97
4.3.1	Overall view of the Community	97
4.3.2	Positive aspects	99
4.3.3	Negative aspects	102
4.3.4	Principles, goals and aims	102
4.3.5	The Common Agricultural Policy	104
4.4	Discussion	107
4.4.1	From specialised knowledge to social representations	107
4.4.2	Social representations and common-sense metaphors: the mental 'landscape' of the Community	108
4.4.3	The origin of social representations	109
4.4.4	The importance of social representations	112
4.5	Conclusion	113
5	The social psychology of the European Community: cross-national comparisons	115
5.1	Introduction	115
5.2	Results	116
5.2.1	Attitudinal measures	116
5.2.2	Stereotypes, liking and national images	126
5.2.3	Perceived inequity	129
5.2.4	Support for the European Community	138
5.2.5	Contact	142
5.2.6	Economic perceptions	142
5.2.7	Interest and knowledge	145
5.2.8	Effects of respondents' sex and political affiliation	148
5.2.9	A methodological note on cross-national differences	149
5.3	Discussion	150
5.3.1	Attitudes: the Community's 'credibility gap'	150
5.3.2	Ethnocentrism	154
5.3.3	Perceived inequity	155
5.3.4	Utilitarian and affective support	157
5.3.5	Contact	157

5.3.6	Common policy and its effects	158	
5.3.7	Dark areas of ignorance	158	
5.3.8	National profiles	160	
5.3.9	Conclusion	162	
6	Predicting attitudes towards the European Community: towards a model of underlying structure	163	
6.1	Introduction	163	
6.2	The factorial structure of questionnaire responses	164	
6.2.1	Factor analysis	164	
6.2.2	Results of factor analysis	164	
6.2.3	Discussion	166	
6.3	Prediction of overall attitudes I: selection of variables	166	
6.3.1	Multiple regression	166	
6.3.2	Initial regression analyses: selecting predictor variables	167	
6.3.3	Results of multiple regression: analyses in four independent samples	167	
6.3.4	The 'best' subset of predictor variables for all respondents	170	
6.3.5	Discussion	170	
6.4	Prediction of overall attitudes II: path-analytic models	171	
6.4.1	Path analysis	171	
6.4.2	Path-analysis methodology	172	
6.4.3	Results of path analyses in four independent samples	175	
6.4.4	Discussion	179	
6.5	Classification of respondents with positive and negative attitudes	181	
6.5.1	Discriminant analysis	181	
6.5.2	Results and discussion	181	
6.6	Conclusions	183	
7	Conclusion: findings and implications	186	
7.1	Findings	187	
7.1.1	Social representations and social attitudes	187	
7.1.2	Cross-national differences: the 'British problem'	190	
7.1.3	The Community's impact on its citizens: the death of nationalism, the birth of new loyalties, or a growing sense of solidarity?	199	
7.2	Implications	202	
7.2.1	Awakening the European public: education, public information and attitude change	203	
7.2.2	Awakening the European electorate: apathy and voting turn-out	213	
7.2.3	Future polls and European public opinion	219	
7.2.4	The relevance of social psychology for the study of European integration	221	
<i>Appendix A</i>		Characteristics of national samples	225
<i>Appendix B</i>		English-language version of the questionnaire	227
<i>Appendix C</i>		Content-analysis coding scheme (supplement to Chapter 4)	242

<i>Appendix D</i>	Supplementary Tables to Chapter 5	248
<i>Appendix E</i>	Supplementary Tables to Chapter 6	254
<i>Appendix F</i>	Reproduction of the correlation matrix using estimates of path coefficients (further supplement to Chapter 6)	262
