UNIVERSITY PRESS

# Contents

	<i>Preface</i>	<i>page</i> vii
<b>1</b>	<b>Introduction</b>	1
<b>2</b>	<b>Some Group Theory</b>	15
	2.1 Finite Index Subgroups	15
	2.2 Growth	18
	2.3 Soluble and Polycyclic Groups	25
	2.4 Nilpotent Groups	27
	2.5 Isoperimetric Inequalities	32
<b>3</b>	<b>Groups of Linear Growth</b>	36
	3.1 Linear Growth	36
	3.2 Linear Growth Functions	41
<b>4</b>	<b>The Growth of Nilpotent Groups</b>	44
	4.1 Polynomial Growth of Nilpotent Groups	44
	4.2 Groups of Small Degree	50
<b>5</b>	<b>The Growth of Soluble Groups</b>	56
	5.1 Soluble Groups of Polynomial Growth	56
	5.2 Uniform Exponential Growth of Soluble Groups	60
<b>6</b>	<b>Linear Groups</b>	63
<b>7</b>	<b>Asymptotic Cones</b>	67
<b>8</b>	<b>Groups of Polynomial Growth</b>	77
<b>9</b>	<b>Infinitely Generated Groups</b>	81
<b>10</b>	<b>Intermediate Growth: Grigorchuk's First Group</b>	90
<b>11</b>	<b>More Groups of Intermediate Growth</b>	108
	11.1 The General Grigorchuk Groups	108
	11.2 Groups Acting on Regular Trees	113

11.3	Groups Defined by Finite Automata	115
11.4	Bartholdi–Erschler Groups	119
<b>12</b>	<b>Growth and Amenability</b>	<b>121</b>
12.1	Amenability and Intermediate Growth	121
12.2	More Isoperimetric Inequalities	127
<b>13</b>	<b>Intermediate Growth and Residual Finiteness</b>	<b>131</b>
<b>14</b>	<b>Explicit Calculations</b>	<b>136</b>
14.1	The Trefoil Group	136
14.2	Wreath Products	139
14.3	Free Products with Amalgamations and HNN-Extensions	141
14.4	Central Products	146
<b>15</b>	<b>The Generating Function</b>	<b>148</b>
<b>16</b>	<b>The Growth of Free Products</b>	<b>158</b>
<b>17</b>	<b>Conjugacy Growth</b>	<b>176</b>
<b>18</b>	<b>Research Problems</b>	<b>185</b>
	<i>References</i>	187
	<i>Index</i>	195
