Introduction	1
Simplicial Blow-up and Intersection-Cohomology	2
Rational Homotopy and Intersection-Formality	3
Outline of the paper	4
Chapter 1. Simplicial blow-up	7
1.1. Filtered face sets	7
1.2. Perverse local systems on filtered face sets	13
1.3. Proof of Theorem A	19
1.4. Cochains on filtered face sets	28
1.5. Particular cases: $\bar{q} = \bar{0}$ , $\bar{q} = \bar{\infty}$ , cone and suspension	35
1.6. Homotopy of filtered face sets	42
Chapter 2. Rational algebraic models	47
2.1. Perverse differential graded algebras	47
2.2. Balanced perverse cochain complex	52
2.3. Minimal models of balanced perverse CDGA's	57
2.4. Minimal models of filtered spaces	61
Chapter 3. Formality and examples	69
3.1. Intersection-formality	69
3.2. A model for isolated singularities	72
3.3. Thom spaces	74
3.4. Nodal Hypersurfaces in $\mathbb{C}P(4)$	78
Appendix A. Topological setting	85
A.1. Filtered spaces	85
A.2. Stratified spaces	94
A.3. CS Sets and pseudomanifolds	99
Bibliography	103
Index	107
