
Contents

1	A Moment for Reflection	1
	Some Things Look More Real Than Others	3
	The Art of Symmetry	8
	Don't Forget to Drop a Line	15
	Rounding Out the Idea	19
2	A Mirror to Life	23
	The Right Universe to Live In	24
	Animal Righties and Lefties	27
	Lopsided Humanity	32
	How <i>Does</i> It Do It	39
	Contrariwise	43
	Acid with a Twist, Please	44
	Symmetry and the Origin of Life	50
3	A Transformation of Space	61
	When Are Two Things the Same?	63
	What's the Use?	70
	Let a Tile Be Your Umbrella	73

Eschervescence (Part 1)	81
Reflection in a Very Small Mirror	85
Music to My Enantiomorphic Ears	88
If You've Got the Time and the Place	91
The First Big Break	92
Summary	97
4 Even an Odd Equation or Two	99
A Puzzle in Parity	104
Parity Squared	108
An Algebra of Geometry	116
Eschervescence (Part 2)	118
One Kind of Parity for Particles	121
5 Finding the Way	129
Directions for the Real World	131
An Interesting Sidelight	135
A Very Special Theory	144
6 Predicting the Unknown	151
Anticipating Reality	153
Is There an Antigalaxy?	165
At Play in the Fields of Physics	172
7 Of Time and the Mirror	189
Right or Left?	191
A Particle with Hair?	198
The Lord Is a Weak Left-Hander	205
Parity in an Antigalaxy	210
Reversing Time's Arrow	215
8 The Group's All Here	219
Let Me Count the Ways	220
The Legend of Group Theory	224

Three Other Group Properties	227
One Thing Looks Just Like Another (Again)	230
Particles Come in Groups	232
Summary	245
9 Taking Symmetry to New Heights	247
Broken Symmetry	248
It Takes GUTs to Predict the Disintegration of Matter	252
Supersymmetry and Other Super Stuff	260
What Does It All Mean	267
Selected Further Reading	279
Index	281
