

Coccolithophores

Edited by

AMOS WINTER AND WILLIAM G. SIESSER

Contents

	Contributors	viii
	Preface	ix
1	Historical background of coccolithophore studies <i>William G. Siesser</i>	1
2	Ultrastructure and calcification of coccolithophores <i>Richard N. Pienaar</i>	13
3	Physiological ecology of marine coccolithophores <i>Larry E. Brand</i>	39
4	Composition and morphology of coccolithophore skeletons <i>William G. Siesser and Amos Winter</i>	51
5	Functions of coccoliths <i>Jeremy R. Young</i>	63
6	A classification system for living coccolithophores <i>Ric Jordan and Annelies Kleijne</i>	83
7	Atlas of living coccolithophores <i>Amos Winter and William G. Siesser</i>	107
8	Biogeography of living coccolithophores in ocean waters <i>Amos Winter, Ric W. Jordan and Peter H. Roth</i>	161
9	Sedimentation of coccolithophores <i>John C. Steinmetz</i>	179
10	Distribution of coccoliths in oceanic sediments <i>Peter H. Roth</i>	199
11	Stable isotopes in modern coccolithophores <i>John C. Steinmetz</i>	219
