A Centrist Proclamation xiv

Preface xvii

For the Student: Economics and the Internet xxii

PART ONE BASIC CONCEPTS I

Chapter 1	
The Central Concepts of Economics	3
A. Why Study Economics?	3
For Whom the Bell Tolls • Scarcity and Efficiency: The Twin Themes of Economics 3 • Definitions of Economics • Scarcity and Efficiency • Microeconomics and Macroeconomics • The Logic of Economics 5 • Cool Heads at the Service of Warm Hearts 6 •	
B. The Three Problems of Economic Organization	7
Market, Command, and Mixed Economies 8 •	
C. Society's Technological Possibilities	8
Inputs and Outputs 9 • The Production-Possibility Frontier 9 • Applying the PPF to Society's Choices • Opportunity Costs • Efficiency •	
Summary 15 • Concepts for Review 15 • Further Reading and Internet Websites 16 • Questions for Discussion 16 •	

Appendix I	
How to Read Graphs	18
The Production-Possibility Frontier 18 • Production-Possibility Graph • A Smooth Curve • Slopes and Lines • Slope of a Curved Line • Slope as the Marginal Value • Shifts of and Movement along Curves • Some Special Graphs •	
Summary to Appendix 23 • Concepts for Review 24 • Questions for Discussion 24 •	

Chapter 2	
The Modern Mixed Economy	25
A. The Market Mechanism	26
Not Chaos, but Economic Order • How Markets Solve the Three Economic Problems • The Dual Monarchy • A Picture of Prices and Markets • The Invisible Hand •	
B. Trade, Money, and Capital	30
Trade, Specialization, and Division of Labor 31 • Money: The Lubricant of Exchange 33 • Capital 33 • Capital and Private Property •	
C. The Visible Hand of Government	34
Efficiency 35 • Imperfect Competition • Externalities • Public Goods • Equity 38 • Macroeconomic Growth and Stability 39 • The Rise of the Welfare State 40 • Conservative Backlash • The Mixed Economy Today •	
Summary 41 • Concepts for Review 42 • Further Reading and Internet Websites 43 • Questions for Discussion 43 •	

Chapter 3	
Basic Elements of Supply and Demand	45
A. The Demand Schedule	46
The Demand Curve 47 • Market Demand • Forces behind the Demand Curve • Shifts in Demand •	
B. The Supply Schedule	51
The Supply Curve 51 • Forces behind the Supply Curve • Shifts in Supply •	
C. Equilibrium of Supply and Demand	53
Equilibrium with Supply and Demand Curves 54 • Effect of a Shift in Supply or Demand • Interpreting Changes in Price and Quantity • Supply, Demand, and Immigration • Rationing by Prices 59 •	
Summary 60 • Concepts for Review 61 • Further Reading and Internet Websites 61 • Questions for Discussion 61 •	

PART TWO
MACROECONOMICS: ECONOMIC
GROWTH AND BUSINESS CYCLES
63

Chapter 4	
Overview of Macroeconomics	65
A. Key Concepts of Macroeconomics	66
The Birth of Macroeconomics 66 • Objectives and Instruments of Macroeconomics 68 • Measuring Economic Success • The Tools of Macroeconomic Policy • International Linkages 74 •	
B. Aggregate Supply and Demand	75
Inside the Macroeconomy: Aggregate Supply and Demand 75 • Definitions of Aggregate Supply and Demand • Aggregate Supply and Demand Curves • Macroeconomic History: 1900–2008 78 • The Role of Macroeconomic Policy •	
Summary 80 • Concepts for Review 81 • Further Reading and Internet Websites 81 • Questions for Discussion 82 •	
Appendix 4	
Macroeconomic Data for the United States	83
<hr/>	
Chapter 5	
Measuring Economic Activity	84
Gross Domestic Product: The Yardstick of an Economy's Performance 84 • Two Measures of National Product: Goods Flow and Earnings Flow • National Accounts Derived from Business Accounts • The Problem of "Double Counting" • Details of the National Accounts 89 • Real vs. Nominal GDP: "Deflating" GDP by a Price Index • Consumption • Investment and Capital Formation • Government Purchases • Net Exports • Gross Domestic Product, Net Domestic Product, and Gross National Product • GDP and NDP: A Look at Numbers • From GDP to Disposable Income • Saving and Investment • Beyond the National Accounts 98 • Price Indexes and Inflation 100 • Price Indexes • Accounting Assessment 102 •	
Summary 103 • Concepts for Review 104 • Further Reading and Internet Websites 104 • Questions for Discussion 104 •	
<hr/>	
Chapter 6	
Consumption and Investment	106
A. Consumption and Saving	106
Budgetary Expenditure Patterns • Consumption, Income, and Saving 109 • The Consumption Function •	

The Saving Function • The Marginal Propensity to Consume • The Marginal Propensity to Save • Brief Review of Definitions • National Consumption Behavior 114 • Determinants of Consumption • The National Consumption Function • Alternative Measures of Saving •	
B. Investment	118
Determinants of Investment 118 • Revenues • Costs • Expectations • The Investment Demand Curve 119 • Shifts in the Investment Demand Curve • On to the Theory of Aggregate Demand 122 •	
Summary 122 • Concepts for Review 123 • Further Reading and Internet Websites 123 • Questions for Discussion 124 •	
<hr/>	
Chapter 7	
Business Cycles and Aggregate Demand	126
A. What Are Business Cycles?	127
Features of the Business Cycle 127 • Business-Cycle Theories 129 • Financial Crises and Business Cycles •	
B. Aggregate Demand and Business Cycles	130
The Theory of Aggregate Demand 130 • The Downward-Sloping Aggregate Demand Curve 131 • Shifts in Aggregate Demand • Business Cycles and Aggregate Demand • Is the Business Cycle Avoidable? •	
C. The Multiplier Model	135
Output Determined by Total Expenditures 135 • Reminder on the Meaning of Equilibrium • The Adjustment Mechanism • A Numerical Analysis • The Multiplier 138 • The Multiplier Model Compared with the AS-AD Model •	
D. Fiscal Policy in the Multiplier Model	139
How Government Fiscal Policies Affect Output 140 • Impact of Taxation on Aggregate Demand • A Numerical Example • Fiscal-Policy Multipliers 144 • Impact of Taxes • The Multiplier Model and the Business Cycle • The Multiplier Model in Perspective •	
Summary 147 • Concepts for Review 148 • Further Reading and Internet Websites 149 • Questions for Discussion 149 •	
<hr/>	
Chapter 8	
Capital, Interest, and Profits	151
A. Basic Concepts of Interest and Capital	151
What Is Capital? • Prices and Rentals on Investments • Capital vs. Financial Assets • The Rate of Return on Investments • Rates of Return and Interest Rates 152 • Rate of Return on Capital • Financial Assets and Interest Rates • The Present Value of Assets 153 •	

Present Value for Perpetuities • General Formula for Present Value • Acting to Maximize Present Value • **The Mysterious World of Interest Rates 155** • Real vs. Nominal Interest Rates •

B. The Theory of Capital, Profits, and Interest 159

Basic Capital Theory 159 • Roundaboutness • Diminishing Returns and the Demand for Capital • Determination of Interest and the Return on Capital • Graphical Analysis of the Return on Capital • **Profits as a Return to Capital 163** • Reported Profit Statistics • Determinants of Profits • Empirical Evidence on Returns to Labor and Capital •

Summary 165 • **Concepts for Review 166** • **Further Reading and Internet Websites 166** • **Questions for Discussion 167** •

Chapter 9

Money and the Financial System 169

Overview of the Monetary Transmission Mechanism •

A. The Modern Financial System 170

The Role of the Financial System • The Functions of the Financial System • The Flow of Funds • **A Menu of Financial Assets 172** • Review of Interest Rates •

B. The Special Case of Money 174

The Evolution of Money 174 • The History of Money • Components of the Money Supply • **The Demand for Money 177** • Money's Functions • The Costs of Holding Money • Two Sources of Money Demand •

C. Banks and the Supply of Money 179

How Banks Developed from Goldsmith Establishments • Fractional-Reserve Banking • Final System Equilibrium • A Modern Banking System •

D. The Stock Market 181

Risk and Return on Different Assets • Bubbles and Crashes • Efficient Markets and the Random Walk • **Personal Financial Strategies 186** •

Summary 187 • **Concepts for Review 188** • **Further Reading and Internet Websites 189** • **Questions for Discussion 189** •

Chapter 10

Monetary Policy and the Economy 191

A. Central Banking and the Federal Reserve System 191

The Essential Elements of Central Banking 192 • History • Structure • Goals of Central Banks • Functions of the Federal Reserve • Central-Bank Independence • **How the Central Bank Determines Short-Term Interest Rates 194** • Overview of the Fed's Operations • Balance Sheet of the Federal Reserve Banks • Operating Procedures • **How the Federal**

Reserve Affects Bank Reserves 195 • Open-Market Operations • Discount-Window Policy: A Backstop for Open-Market Operations • The Role of Reserve Requirements • Determination of the Federal Funds Rate •

B. The Monetary Transmission Mechanism 200

A Summary Statement • The Effect of Changes in Monetary Policy on Output • The Challenge of a Liquidity Trap • Monetary Policy in the *AS-AD* Framework • Monetary Policy in the Long Run •

C. Applications of Monetary Economics 205

Monetarism and the Quantity Theory of Money and Prices 205 • The Roots of Monetarism • The Equation of Exchange and the Velocity of Money • The Quantity Theory of Prices • Modern Monetarism • The Monetarist Platform: Constant Money Growth • The Monetarist Experiment • The Decline of Monetarism • **Monetary Policy in an Open Economy 209** • International Linkages • **Monetary Transmission in the Open Economy 210** • From Aggregate Demand to Aggregate Supply 211 •

Summary 211 • **Concepts for Review 212** • **Further Reading and Internet Websites 213** • **Questions for Discussion 213** •

**PART THREE
GROWTH, DEVELOPMENT,
AND THE GLOBAL ECONOMY
215**

Chapter 11

Economic Growth 217

The Long-Term Significance of Growth •

A. Theories of Economic Growth 218

The Four Wheels of Growth 218 • Human Resources • Natural Resources • Capital • Technological Change and Innovation • **Theories of Economic Growth 222** • The Classical Dynamics of Smith and Malthus • Economic Growth with Capital Accumulation: The Neoclassical Growth Model • Geometrical Analysis of the Neoclassical Model • The Central Role of Technological Change • Technological Change as an Economic Output •

B. The Patterns of Growth in the United States 228

The Facts of Economic Growth • Relationship of the Seven Trends to Economic-Growth Theories • The Sources of Economic Growth • **Recent Trends in Productivity 232** • The Productivity Rebound •

Summary 234 • **Concepts for Review 235** • **Further Reading and Internet Websites 235** • **Questions for Discussion 236** •

<hr/>	
Chapter 12	
The Challenge of Economic Development	237
A. Population Growth and Development	237
Malthus and the Dismal Science 237 • Limits to Growth and Neo-Malthusianism •	
B. Economic Growth in Poor Countries	240
Aspects of a Developing Country 240 • Human Development • The Four Elements in Development 241 • Human Resources • Natural Resources • Capital • Technological Change and Innovations • Vicious Cycles to Virtuous Circles • Strategies of Economic Development 247 • The Backwardness Hypothesis • Industrialization vs. Agriculture • State vs. Market • Growth and Outward Orientation • Summary Judgment •	
C. Alternative Models for Development	249
A Bouquet of “ISMS” 249 • The Central Dilemma: Market vs. Command • The Asian Models 250 • Asian Dragons • The Rise of China • Socialism 251 • The Failed Model: Centrally Planned Economies 252 • Baleful Prophecies • From Textbooks to Tactics: Soviet-Style Command Economy • From Marx to Market • A Final Note of Cautious Optimism •	
Summary 255 • Concepts for Review 256 • Further Reading and Internet Websites 256 • Questions for Discussion 257 •	
<hr/>	
Chapter 13	
Exchange Rates and the International Financial System	259
Trends in Foreign Trade 260 •	
A. The Balance of International Payments	261
Balance-of-Payments Accounts 261 • Debits and Credits • Details of the Balance of Payments •	
B. The Determination of Foreign Exchange Rates	264
Foreign Exchange Rates 264 • The Foreign Exchange Market 265 • Effects of Changes in Trade • Exchange Rates and the Balance of Payments • Purchasing-Power Parity and Exchange Rates •	
C. The International Monetary System	269
Fixed Exchange Rates: The Classical Gold Standard 270 • Hume’s Adjustment Mechanism • Updating Hume to Modern Macroeconomics • International Monetary Institutions After World War II 273 • The International Monetary Fund • The World Bank • The Bretton Woods System • Intervention • Flexible Exchange Rates 275 • Today’s Hybrid System 276 • Concluding Thoughts •	
Summary 276 • Concepts for Review 277 • Further Reading and Internet Websites 278 • Questions for Discussion 278 •	
<hr/>	
Chapter 14	
Open-Economy Macroeconomics	280
A. Foreign Trade and Economic Activity	280
Net Exports and Output in the Open Economy • Determinants of Trade and Net Exports • Short-Run Impact of Trade on GDP 282 • The Marginal Propensity to Import and the Spending Line • The Open-Economy Multiplier • Trade and Finance for the United States Under Flexible Exchange Rates 285 • The Monetary Transmission Mechanism in an Open Economy 287 •	
B. Interdependence in the Global Economy	290
Economic Growth in the Open Economy 290 • Saving and Investment in the Open Economy 290 • Determination of Saving and Investment at Full Employment • Promoting Growth in the Open Economy 294 •	
C. International Economic Issues	296
Competitiveness and Productivity 296 • “The Deindustrialization of America” • Trends in Productivity • The European Monetary Union 297 • Toward a Common Currency: The Euro • Costs and Benefits of Monetary Union • Final Assessment 299 •	
Summary 299 • Concepts for Review 301 • Further Reading and Internet Websites 301 • Questions for Discussion 301 •	
<hr/>	
PART FOUR	
UNEMPLOYMENT, INFLATION, AND ECONOMIC POLICY	
303	
<hr/>	
Chapter 15	
Unemployment and the Foundations of Aggregate Supply	305
A. The Foundations of Aggregate Supply	305
Determinants of Aggregate Supply 306 • Potential Output • Input Costs • Aggregate Supply in the Short Run and Long Run 309 • Sticky Wages and Prices and the Upward-Sloping AS Curve •	
B. Unemployment	310
Measuring Unemployment 311 • Impact of Unemployment 311 • Economic Impact • Social Impact • Okun’s Law 313 • Economic Interpretation	

of Unemployment 313 • Equilibrium Unemployment • Disequilibrium Unemployment • Microeconomic Foundations of Inflexible Wages • **Labor Market Issues 317** • Who Are the Unemployed? • Duration of Unemployment • Sources of Joblessness • Unemployment by Age •

Summary 322 • **Concepts for Review 323** • **Further Reading and Internet Websites 323** • **Questions for Discussion 323** •

Chapter 16

Inflation 325

A. Definition and Impact of Inflation 325

What Is Inflation? 325 • The History of Inflation • Three Strains of Inflation • Anticipated vs. Unanticipated Inflation • **The Economic Impacts of Inflation 330** • Impacts on Income and Wealth Distribution • Impacts on Economic Efficiency • Macroeconomic Impacts • What Is the Optimal Rate of Inflation? •

B. Modern Inflation Theory 332

Prices in the AS-AD Framework 333 • Expected Inflation • Demand-Pull Inflation • Cost-Push Inflation and “Stagflation” • Expectations and Inflation • Price Levels vs. Inflation • **The Phillips Curve 336** • Short-Run Phillips Curve • The Nonaccelerating Inflation Rate of Unemployment • From Short Run to Long Run • The Vertical Long-Run Phillips Curve • Quantitative Estimates • Doubts about the NAIRU • Review •

C. Dilemmas of Anti-Inflation Policy 340

How Long Is the Long Run? • How Much Does It Cost to Reduce Inflation? • Credibility and Inflation • Policies to Lower Unemployment •

Summary 343 • **Concepts for Review 344** • **Further Reading and Internet Websites 344** • **Questions for Discussion 345** •

Chapter 17

Frontiers of Macroeconomics 346

A. The Economic Consequences of the Government Debt 346

Fiscal History 347 • **Government Budget Policy 348** • Actual, Structural, and Cyclical Budgets • **The Economics of the Debt and Deficits 349** • **The Short-Run Impact of Government Deficits 349** • Short Run vs. Long Run • Fiscal Policy and the Multiplier Model • **Government Debt and Economic Growth 350** • Historical Trends • External vs. Internal Debt • Efficiency Losses from Taxation • Displacement of Capital • Debt and Growth •

B. Advances in Modern Macroeconomics 354

Classical Macroeconomics and Say’s Law 355 • Say’s Law of Markets • **Modern Classical Macroeconomics 355** • Rational Expectations • Real Business Cycles • The Ricardian View of Fiscal Policy • Efficiency Wages • Supply-Side Economics • **Policy Implications 358** • Policy Ineffectiveness • The Desirability of Fixed Rules • A New Synthesis? •

C. Stabilizing the Economy 359

The Interaction of Monetary and Fiscal Policies 359 • Demand Management • The Fiscal-Monetary Mix • **Rules vs. Discretion 362** • Budget Constraints on Legislatures? • Monetary Rules for the Fed? •

D. Economic Growth and Human Welfare 364

The Spirit of Enterprise 365 • Fostering Technological Advance •

Summary 366 • **Concepts for Review 368** • **Further Reading and Internet Websites 368** • **Questions for Discussion 368** •

Glossary of Terms 370

Index 391
