1	Introduction, Outline, Discussion in a Nutshell.....	1
	References	16
2	The Human Information Problem	17
2.1	Information and Choices	17
2.2	Individual Preferences and Match Values	19
2.3	Choices with Perfect Information.....	21
2.4	Imperfect Information and Bayesian Learning.....	22
	References	32
3	Consumer Choice Under Imperfect Information.....	35
3.1	Learning with Information Acquisition	38
3.2	Sequential Information and Optimal Choice	41
3.3	A Heuristic Approach and Optimal Choice	50
3.4	Comparison and Implications	53
	References	56
4	Needs and Preferences: An Extended Concept	57
4.1	Existential and Epistemic Needs.....	59
4.2	Relational Needs.....	71
4.3	Agency Needs	76
	References	82
5	Belief Systems and Ideologies, Their Functions, and Their Organizations.....	89
5.1	Functions of Belief Systems and Ideologies	90
5.2	Ideologies and Belief Systems Are Shaped by Organizations.....	101
	References	123
6	The Individual Choice of an Ideology	125
6.1	A Simple Choice from a Menu	128
6.2	Adopting an Ideology Through Bayesian Learning	145
	References	155

7	Ideologies and Everyday Decisions	157
7.1	Facts or Ideologies? Optimal Orientation	158
7.2	A Consumer Choice Model with Ideologies	165
7.3	An Occupational Choice Model with Ideologies	172
7.4	A Political Choice Model with Ideologies	179
7.5	Implications for Gathering Empirical Evidence	184
	References	187
8	The Quality of Ideological Guidance	189
8.1	The Normative Dimension of “good guidance”.....	189
8.2	The Information Problem in Democracies	195
8.3	Implementing Narratives: The Instrument Problem	204
	References	209
9	Final Remark	211
	Appendix	213
A.1	Solution for Maximization Problem (M)	213
A.2	Derivation of Assumption (A)	215
A.3	Proof of Proposition 3.2.....	216
A.4	Proof of Proposition 3.3	217
A.5	Organizations	220
A.6	Choice of Ideologies	221
A.7	Everyday Decisions	222
A.8	The Quality of Ideological Guidance	224
	Index	227
