

Contents

Chapter 1. Introduction	1
1.1. Technical introduction	6
1.2. Preliminaries and Outline	18
Acknowledgments	24
Chapter 2. The leC-calculus	25
2.1. Phase Spaces and Symbols	25
2.2. Calculi	29
2.3. Sobolev Spaces	39
Chapter 3. The conjugated perspective	49
Chapter 4. The situation at zero energy	61
Chapter 5. Symbolic estimates	67
5.1. Ellipticity	72
5.2. Propagation	73
5.3. The Radial “Point” \mathcal{R}	88
5.4. Upshot	96
Chapter 6. Proof of main theorem	99
6.1. Estimates	102
6.2. Smoothness at zf, Conormality elsewhere	108
6.3. Asymptotics at bf, tf	118
Appendix A. The model ODE	127
Bibliography	135
