

Contents

Preface	vii
Combinatorial formulas for (type A) Macdonald polynomials J. HAGLUND	1
Symmetric and nonsymmetric Macdonald polynomials via a path model with a pseudo-crystal structure CRISTIAN LENART, SATOSHI NAITO, FUMIHIKO NOMOTO, and DAISUKE SAGAKI	25
Shuffle approach to wreath Pieri operators JOSHUA JEISHING WEN	59
New formulas for Macdonald polynomials via the multispecies exclusion and zero range processes OLYA MANDELSHTAM	91
Some combinatorial aspects of Theta and Delta operators MARINO ROMERO	115
A Littlewood-Richardson rule for SSV polynomials JASON SAIED	135
