Preface	v
On the finite-dimensional representations of the double of the Jordan plane NICOLÁS ANDRUSKIEWITSCH and HÉCTOR MARTÍN PEÑA POLLASTRI	1
2-unitary operads of GK-dimension 3 YAN-HONG BAO, DONG-XING FU, YU YE, and JAMES J. ZHANG	19
On a necessary condition for unitary categorification of fusion rings PAVEL ETINGOF, DMITRI NIKSHYCH, and VICTOR OSTRIK	45
On finite group scheme-theoretical categories, I SHLOMO GELAKI and GUILLERMO SANMARCO	55
Left coideal subalgebras of Nichols algebras ISTVAN HECKENBERGER and KATHARINA SCHÄFER	97
On Hopf algebras of dimension p^n in characteristic p SIU-HUNG NG and XINGTING WANG	151
Categorical Morita equivalence of pointed fusion categories, and subgroups PETER SCHAUENBURG	183
On classification of Hopf superalgebras of low dimension TAIKI SHIBATA and RYOTA WAKAO	193
Nakayama functor for coalgebras and a categorical perspective of the integral theory for Hopf algebras KENICHI SHIMIZU	223
The gamma function and a certain sequence of differences DAVID E. RADFORD	255
