Groups and Algebras

Preface	ix
On the bosonization of the enveloping algebra of a finite dimensional Lie superalgebra NICOLÁS ANDRUSKIEWITSCH and KEN A. BROWN	1
Polyboundedness of zero-closed semigroups TARAS BANAKH and ANDRIY REGA	11
Primitive permutation groups of finite Morley rank and affine type AYŞE BERKMAN and ALEXANDRE BOROVİK	31
On Clifford algebras of infinite dimensional vector spaces OKSANA BEZUSHCHAK	53
Partial actions in terms of category theory MIKHAILO DOKUCHAEV and NICOLA SAMBONET	61
Distributional topological complexity of finitely generated groups ALEXANDER DRANISHNIKOV	83
Symmetry questions about amenability and simplicity of bases FATMA AZMY EBRAHİM, SERGIO R. LÓPEZ-PERMOUTH, and MAJED ZAILAEE	107
SFT covers for actions of the first Grigorchuk group ROSTISLAV GRIGORCHUK and VILLE SALO	127
Algebraisation of combinatorial isoperimetry MISHA GROMOV	159
Automorphism groups of affine varieties and their Lie algebras HANSPETER KRAFT and MIKHAIL ZAIDENBERG	187
On the structure of some pre-Lie algebras L. KURDACHENKO and I. YA. SUBBOTIN	219
Free products of groups defined by p -automata ANDRIY OLIYNYK and VERONIKA PROKHORCHUK	235

Simple Jordan superalgebras with the even parts of Clifford type IVAN SHESTAKOV and EFIM ZELMANOV	241
On Schubert cells of Lie geometries and public keys of multivariate cryptography VASYL USTIMENKO	263
