Preface	vii
The Grothendieck ring of the periplectic Lie supergroup and supersymmetric functions	
MEE SEONG IM, SHIFRA REIF, and VERA SERGANOVA	1
Divided difference operators for partial flag varieties	
JULIANNA S. TYMOCZKO	13
Exotic Spaltenstein varieties	
DANIELE ROSSO and NEIL SAUNDERS	47
Minimal semisimple Hessenberg schemes	
REBECCA GOLDIN and MARTHA PRECUP	93
On the pure dimensionality of Spaltenstein varieties: A family of counterexamples	
DREW MEYER	109
Connections on the projective line whose differential Galois groups are as large as possible	
DANIEL S. SAGE	117
Nakajima's quiver varieties and triangular bases of bipartite cluster algebras	
LI LI	131
Elliptic Schubert classes and the Poincaré duality	
CHANGLONG ZHONG	159
Quasi-split symmetric pairs of type A and Steinberg varieties of classical type, II. Constructible functions	
YIQIANG LI	173
