

CONTENTS

Part One. Theoretical Foundations

1. Human Knowledge: Some Epistemological and Psychological Notes 3
General Remarks, 3; Developmental Aspects of Human Knowledge, 15; Notes, 31
2. The Development of Self-Knowledge 32
Infancy and Preschool Years, 34; Childhood, 41; Adolescence, 48; Notes, 55
3. A Descriptive Model of Knowledge Organization 56
The Formalization of Self-Knowledge, 56; The Organization of Cognitive Structures, 61; Notes, 82
4. Maintenance and Change of Cognitive Structures 84
The Central Role of Attitude toward Oneself and Personal Identity, 84; Maintenance and Change of Cognitive Organization, 87; Notes, 99
5. The Etiology of Cognitive Dysfunction 101
Pathology of Attachment, 102; Abnormal Patterns of Attachment and Corresponding Cognitive Distortions, 106; Precipitating Events Likely to Elicit Cognitive Dysfunction, 114; Notes, 115

Part Two. General Implications for Psychotherapy

6. The Nature of the Therapeutic Relationship 119
 Knowledge of Syndromic Organization and Shaping of the Therapeutic Relationship, 120; Therapeutic Cooperation, 122; The Therapeutic Relationship and the Assessment Procedures, 124; The Therapeutic Relationship and Therapeutic Interventions, 126; Notes, 129
7. Assessment of Cognitive Structures 131
 The Assessment of Cognitive Structures as a Process of Reconstruction, 131; The Assessment of Cognitive Structures as a Historical Research, 135; The Assessment of Cognitive Structures inside the Psychotherapy Process, 137; Notes, 141
8. Psychotherapy as a Strategic Process of Cognitive Change 143
 Cognitive-Behavioral Techniques for Modifying Superficial Structures and Identifying Deeper Cognitive Structures, 145; Cognitive Techniques That Logically Challenge Patients' Deeper Theories, 151; The Structure of Knowledge and Cognitive Change in Psychotherapy, 161; Notes, 165

Part Three. Clinical Applications

9. Depression 171
 Behavioral Aspects, 172; Cognitive Aspects, 177; Developmental Aspects, 185; The Cognitive Organization in Depression, 190; Psychotherapeutic Strategy with Depressed Patients, 194; Notes, 199
10. Agoraphobia and Related Multiple Phobias 204
 Behavioral Aspects, 205; Cognitive Aspects, 212; Developmental Aspects, 219; The Cognitive Organization in Agoraphobia, 221; Psychotherapeutic Strategy with Agoraphobic Patients, 227; Notes, 237
11. Obsessive-Compulsive Patterns 243
 Behavioral Aspects, 244; Invariant Cognitive Aspects, 250;

Developmental Aspects, 257; The Cognitive Organization in Obsessive–Compulsive Patterns, 261; Planning a Therapeutic Strategy, 266; Notes, 272

12. Eating Disorders 276

Behavioral Aspects, 277; Cognitive Aspects, 279; Analysis of Family Transactions and of Early Development, 285; The Cognitive Organization in Eating Disorders, 291; Planning a Therapeutic Strategy, 299; Notes, 305

In Conclusion 307

Appendix A. The Structure of Psychiatric Knowledge
and the Problem of Premorbid Personality 313

Appendix B. The Patient Sample 321
