How to Use this Book.....	xlvi

PART 1 FIBRE TYPES

CHAPTER 1	Understanding Textile Fibres and Their Properties: What is a Textile Fibre?.....	3
	Learning Objectives.....	3
1.1	Introduction.....	3
1.2	Types of Textile Fibres.....	4
1.3	Fibres, Yarns and Fabrics.....	7
1.4	Fibre Properties.....	9
1.5	Fibre Length, Shape and Diameter	10
1.6	Fibre Colour and Lustre.....	12
1.7	Fibre Fineness.....	13
	1.7.1 Fibres	13
	1.7.2 Yarns.....	13
	1.7.3 Fabrics.....	14
1.8	Fibre Strength, Flexibility and Abrasion Resistance	15
	1.8.1 Tensile Strength and Extension (Elongation)	15
	1.8.2 Flexibility or Stiffness	16
	1.8.3 Elasticity	18
	1.8.4 Resiliency.....	18
	1.8.5 Abrasion Resistance.....	18
1.9	Moisture Absorbency.....	18
1.10	Electrical Properties of Fibres	19
1.11	Thermal Properties of Fibres	20
1.12	Chemical Reactivity and Resistance.....	22
1.13	Case Studies: From Fibre Properties to Textile Products	22
	1.13.1 Case Study 1: Choosing Apparel Fibres	22
	1.13.2 Case Study 2: Microfibres	24
1.14	Summary.....	24
1.15	Project Ideas.....	24
1.16	Revision Questions	25
	References and Further Reading.....	25

CHAPTER 2	Natural Textile Fibres: Vegetable Fibres	29
	Learning Objectives.....	29
2.1	Introduction.....	29
	2.1.1 Molecular Composition of Cellulose.....	29
	2.1.2 Common Properties of Vegetable Fibres	30
2.2	Cotton	31
	2.2.1 Definitions and Types of Cotton	31
	2.2.2 Cultivation and Ginning.....	31
	2.2.3 Structure of Cotton	32
	2.2.4 Composition of Cotton	32
	2.2.5 Physical Properties of Cotton	34
	2.2.6 Measurement of Fibre Properties.....	36
	2.2.7 Cotton Application in Textile.....	39
2.3	Other Seed Fibres	40
	2.3.1 Kapok.....	40
	2.3.2 Coir	42
2.4	Bast Fibre.....	43
	2.4.1 Flax	43
2.5	Other Bast Fibres	46
	2.5.1 Ramie.....	46
	2.5.2 Jute.....	48
	2.5.3 Kenaf.....	50
	2.5.4 Hemp.....	50
	2.5.5 Sisal, Abaca, and Pineapple Fibre.....	51
2.6	Sustainability Issues/Eco Issues	52
	2.6.1 Biotech Cotton.....	52
	2.6.2 Organic Cotton.....	52
	2.6.3 Naturally Coloured Cotton	52
	2.6.4 Bast Fibres	54
2.7	Case Studies.....	54
2.8	Future Trends.....	55
2.9	Summary.....	55
2.10	Project Ideas.....	55
2.11	Revision Questions	56
	References	56
CHAPTER 3	Natural Textile Fibres: Animal and Silk Fibres	57
	Learning Objectives.....	57
3.1	Introduction.....	57
3.2	Wool Fibres.....	58
	3.2.1 Structure of Wool.....	58
	3.2.2 Amino Acid Composition	59

3.2.3	Properties of Wool Fibres	61
3.2.4	Applications	62
3.3	Silk Fibres	62
3.3.1	Sericulture and Cocoon Production	63
3.3.2	Silk Reeling	64
3.3.3	Silk Manufacture	65
3.3.4	Fine Structure of Silk	66
3.3.5	Amino Acid Composition	67
3.3.6	Properties of Silk Fibres	68
3.3.7	Applications	70
3.4	Other Specialty Hair Fibres	71
3.4.1	Cashmere Fibres	71
3.4.2	Camel Hair Fibres	72
3.4.3	Mohair Fibres	73
3.5	Applications of Natural Protein Fibres	74
3.6	Sustainability and Ecological Issues	75
3.7	Future Trends	75
3.8	Summary	76
3.9	Project Ideas	77
3.10	Revision Questions	77
	References	77
CHAPTER 4	Synthetic Textile Fibers: Regenerated Cellulose Fibers	79
	Learning Objectives	79
4.1	Introduction	79
4.2	Viscose Rayon	81
4.2.1	The History of Viscose Rayon	81
4.2.2	Viscose Rayon Production	82
4.2.3	Viscose Fiber Appearance	83
4.2.4	Viscose Fiber Mechanical Properties	85
4.2.5	Viscose Rayon Physical Properties	85
4.3	Lyocell Rayon	85
4.3.1	The History of Lyocell Rayon	85
4.3.2	Lyocell Rayon Production	86
4.3.3	Lyocell Fiber Appearance	87
4.3.4	Lyocell Fiber Mechanical Properties	87
4.3.5	Lyocell Fiber Physical Properties	89
4.4	Cellulose Acetate	89
4.5	Applications	90
4.6	Case Study	91
4.7	Future Trends	92
4.8	Summary	93

4.9	Project Ideas.....	93
4.10	Revision Questions	94
	References.....	94
CHAPTER 5	Synthetic Textile Fibres: Polyamide, Polyester and Aramid Fibres	97
	Learning Objectives.....	97
5.1	Introduction.....	97
5.2	Classification of Fibres	98
5.3	Polyamide Fibres	99
	5.3.1 Production of Nylon	99
	5.3.2 Structure and Properties of Nylon Fibres	100
	5.3.3 Applications	101
5.4	Polyester Fibres	103
	5.4.1 Production of PET Polyester	103
	5.4.2 PET Fibre Formation	103
	5.4.3 Structure and Properties of Polyester Fibre	104
	5.4.4 Applications	105
5.5	Aramid Fibres	106
	5.5.1 Production of Aramid Fibres	106
	5.5.2 Structure and Properties of Aramid Fibres	108
	5.5.3 Applications	109
5.6	Blended Fibres: Key Issues	109
5.7	Case Study: Polyester Fibres for Apparel and Clothing Applications.....	110
5.8	Future Trends	112
5.9	Summary	112
5.10	Project Ideas.....	113
5.11	Revision Questions	113
5.12	Sources of Further Information and Advice	113
	References.....	114
CHAPTER 6	Synthetic Textile Fibres: Polyolefin, Elastomeric and Acrylic Fibres.....	115
	Learning Objectives.....	115
6.1	Introduction.....	115
6.2	Polypropylene (PP) Fibres.....	116
	6.2.1 Production of Polypropylene (PP)	116
	6.2.2 Fibre Manufacture.....	116
	6.2.3 Types of Yarns.....	117
	6.2.4 Spin Finishes.....	118
	6.2.5 Additives	119
	6.2.6 Fibre Structure	119

	6.2.7 Fibre Properties.....	122
	6.2.8 Applications	122
6.3	Other Polyolefin Fibres.....	123
6.4	Acrylic Fibres	123
	6.4.1 Production of Acrylic Fibres.....	125
	6.4.2 Fibre Manufacture.....	126
	6.4.3 Fibre Structure	127
	6.4.4 Acrylic Fibre Variants	128
	6.4.5 Fibre Properties.....	128
	6.4.6 Applications	129
6.5	Modacrylic Fibres.....	129
6.6	Elastomeric Fibres	129
	6.6.1 Elastane Fibres.....	130
	6.6.2 Fibre Manufacture.....	131
	6.6.3 Fibre Structure	131
	6.6.4 Fibre Properties.....	131
	6.6.5 Applications	132
6.7	Case Study: Why Are There So Many End-Uses for Polypropylene (PP) Fibres, But So Few in Apparel?	133
6.8	Future Trends	133
	6.8.1 Polyolefin Fibres.....	134
	6.8.2 Acrylic Fibres.....	135
	6.8.3 Elastomeric Fibres	135
6.9	Summary	135
6.10	Project Ideas.....	136
6.11	Revision Questions	136
6.12	Sources of Further Information and Advice	137
	References.....	137
CHAPTER 7	Synthetic Textile Fibres: Non-Polymer Fibres.....	139
	Learning Objectives.....	139
7.1	Introduction.....	139
7.2	Carbon Fibres.....	139
	7.2.1 Manufacture	140
	7.2.2 Structure.....	142
	7.2.3 Properties	143
	7.2.4 Applications	147
7.3	Glass Fibres	147
	7.3.1 Manufacture	147
	7.3.2 Structure.....	148
	7.3.3 Properties	148
	7.3.4 Applications	148

7.4	Metallic Fibres	149
	7.4.1 Manufacture	149
	7.4.2 Basic Structure and Properties	150
	7.4.3 Applications	150
7.5	Ceramic Fibres	152
	7.5.1 Manufacture	152
	7.5.2 Basic Structure and Properties	152
	7.5.3 Applications	152
7.6	Case Study: The Use of CFRP in Sporting Goods	153
7.7	Future Trends	153
7.8	Summary Points	153
7.9	Project Ideas	154
7.10	Revision Questions	154
	References and Further Reading	154

PART 2 MANUFACTURING TEXTILES: YARN TO FABRIC

CHAPTER 8	Conversion of Fibre to Yarn: an Overview	159
	Learning Objectives	159
8.1	Introduction	159
8.2	Classification of Yarns	159
	8.2.1 Staple Yarns	159
	8.2.2 Continuous-Filament Yarns	159
	8.2.3 Novelty Yarns	160
	8.2.4 Industrial Yarns	161
	8.2.5 High-Bulk Yarns	161
	8.2.6 Stretch Yarns	161
8.3	Staple-Fibre Yarns	161
	8.3.1 Spinning Methods	161
	8.3.2 Operations in Staple-Fibre Spinning	162
	8.3.3 Yarn Structure	162
	8.3.4 Applications of Staple-Spun Yarns	164
8.4	Filament Yarns	164
	8.4.1 Spinning Methods	164
	8.4.2 Polymer Spinning Processes	165
	8.4.3 Structures of Continuous Filament Yarns	166
	8.4.4 Applications of Filament Yarn	168
8.5	Fancy Yarns	170
	8.5.1 Marl Yarn	170
	8.5.2 Spiral or Corkscrew Yarn	170

8.5.3	Gimp Yarn.....	170
8.5.4	Diamond Yarn.....	171
8.5.5	Boucle Yarn.....	171
8.5.6	Loop Yarn.....	171
8.5.7	Snarl Yarn.....	172
8.5.8	Knop Yarn.....	172
8.5.9	Slub Yarn.....	173
8.5.10	Fasciated Yarn.....	173
8.5.11	Tape Yarn.....	174
8.5.12	Chainette Yarn.....	174
8.5.13	Chenille Yarn.....	174
8.5.14	Ribbon Yarns.....	175
8.5.15	Composite Yarns.....	175
8.5.16	Covered Yarns.....	175
8.5.17	Metallic Yarns.....	176
8.6	Staple-Fibre Yarn Manufacturing.....	176
8.6.1	Ring (Conventional) Spinning.....	176
8.6.2	Hollow-Spindle Spinning.....	178
8.6.3	Combined Systems.....	178
8.6.4	The Doubling System.....	180
8.6.5	Open-End Spinning.....	182
8.6.6	Air-Jet Spinning.....	184
8.6.7	The Chenille Yarn System.....	185
8.6.8	Flocking.....	186
8.6.9	Mock Chenille.....	186
8.7	Future Trends.....	187
8.8	Summary.....	187
8.9	Project Ideas.....	188
8.10	Revision Questions.....	188
	References.....	189
CHAPTER 9	Fibre to Yarn: Staple-Yarn Spinning.....	191
	Learning Objectives.....	191
9.1	Introduction.....	191
9.2	Preparation of Cotton and Other Short Staple Fibres.....	192
9.2.1	Opening and Cleaning.....	192
9.2.2	Blending.....	193
9.2.3	Carding.....	195
9.2.4	Combing.....	195
9.2.5	Drawing.....	196
9.2.6	Roving.....	196

9.3	Preparation of Wool and Other Long Staple Fibres: The Woollen System.....	196
	9.3.1 Opening.....	198
	9.3.2 Scouring and Carbonising.....	198
	9.3.3 Drying or Oiling.....	198
	9.3.4 Blending.....	198
	9.3.5 Carding.....	199
9.4	Preparation of Wool and Other Long Staple Fibres: The Worsted System.....	199
	9.4.1 Carding.....	200
	9.4.2 Gilling.....	200
	9.4.3 Combing.....	201
9.5	Spinning Techniques for Staple Fibres.....	201
	9.5.1 Ring Spinning.....	202
	9.5.2 Twist-Spinning Methods: Open-End (Rotor and Friction) Spinning and Self-Twist Spinning.....	204
	9.5.3 Open-End Spinning: Rotor Spinning.....	205
	9.5.4 Open-End Spinning: Friction Spinning.....	206
	9.5.5 Self-Twist Spinning.....	208
9.6	Wrap-Spinning Techniques.....	208
	9.6.1 Air-Jet Spinning.....	208
	9.6.2 Filament Wrapping Techniques.....	210
9.7	Future Trends.....	210
9.8	Summary Points.....	210
9.9	Project Ideas.....	211
9.10	Revision Questions.....	211
	9.10.1 Cotton System.....	211
	9.10.2 Wool System.....	212
	References and Further Reading.....	212
CHAPTER 10	Fibre to Yarn: Filament Yarn Spinning.....	213
	Learning Objectives.....	213
10.1	Introduction.....	213
	10.1.1 Definitions.....	213
	10.1.2 Classification of CF Yarns.....	214
	10.1.3 Yarn Count System.....	215
10.2	Fibre-Extrusion Spinning.....	216
	10.2.1 Melt-Spinning.....	216
	10.2.2 Wet Spinning.....	219
	10.2.3 Dry Spinning.....	221
10.3	Yarn Texturing.....	222
	10.3.1 False-Twist Texturing.....	224
	10.3.2 Air-Jet Texturing.....	229

10.4	Bulk Continuous Fibre (BCF) Technology	231
	10.4.1 Twisting/Plying of Continuous-Filament Yarns	231
	10.4.2 Metallised Yarns	233
10.5	Properties of CF Yarns	234
	10.5.1 Morphology.....	234
	10.5.2 Tensile Properties	237
10.6	Adding Functionality to Yarn.....	242
	10.6.1 Moisture Absorption	242
	10.6.2 Dyeability and Printability	243
	10.6.3 Functional Additives	246
10.7	Applications	247
10.8	Future Trends	250
10.9	Project Ideas	251
10.10	Revision Questions	251
	References.....	251
CHAPTER 11	Yarn to Fabric: Weaving.....	255
	Learning Objectives	255
11.1	Introduction.....	255
11.2	Looms.....	255
	11.2.1 Rigid Heddle Loom.....	256
	11.2.2 Table Loom	256
	11.2.3 Floor/Tredden Loom	257
	11.2.4 Counterbalanced Loom	258
	11.2.5 Dobby Loom	258
	11.2.6 Computerised Loom.....	259
	11.2.7 Jacquard Loom.....	260
11.3	Making a Warp and Dressing the Loom	260
	11.3.1 Selecting a Warp Yarn	260
	11.3.2 Calculating the Warp Yarns	260
	11.3.3 Making the Warp.....	261
	11.3.4 Making a Chain.....	261
	11.3.5 Dressing the Loom	262
11.4	Documentation.....	266
	11.4.1 Point Paper	267
	11.4.2 Threading Plan	267
	11.4.3 Lifting Plan	267
	11.4.4 Reed Plan	268
11.5	Pattern Drafting.....	268
	11.5.1 Straight Draft.....	268
	11.5.2 Pointed Draft.....	268

	11.5.3 Block Draft.....	270
	11.5.4 Scattered Draft	271
11.6	Weave Structures.....	271
	11.6.1 Balanced and Unbalanced Weave Structures	271
	11.6.2 Balanced Plain Weave	271
	11.6.3 Unbalanced Plain Weave.....	272
	11.6.4 Basket Weave	272
	11.6.5 Twill Weaves	272
	11.6.6 Herringbone Twill	274
	11.6.7 Satin Weave.....	275
11.7	Derivative-Weave Structures	276
	11.7.1 Mock Leno	276
	11.7.2 Double Weave	276
	11.7.3 Honeycomb	278
	11.7.4 Jacquard Weaves	278
11.8	Starting to Weave	279
11.9	Designing for Woven Textiles.....	279
11.10	Designing for the Jacquard Loom.....	280
11.11	Tapestry Weaving.....	281
11.12	Case Study: Honeycomb Woven Structures	283
11.13	Finishing.....	283
11.14	Tips for Weaving.....	284
11.15	Future Trends	284
11.16	Summary	285
11.17	Revision Questions	286
11.18	Sources of Further Information and Advice.....	286
	11.18.1 Collections	286
	Further Reading.....	286
CHAPTER 12	Yarn to Fabric: Knitting	289
	Learning Objectives	289
12.1	Introduction.....	289
12.2	Loop Formation.....	290
12.3	Knitting Terminology.....	291
12.4	Weft-Knitted Structures	292
	12.4.1 Weft-Knitting Machines.....	293
12.5	Warp Knitted Structures.....	294
	12.5.1 Warp Knitting Machines	295
12.6	Knitting Developments	296
12.7	The Impact of Computers in Design and Technology	298
12.8	Quality Control	299

12.9	Case Study.....	300
12.10	Future Trends	301
12.11	Summary	302
12.12	Project Ideas.....	303
12.13	Revision Questions	303
12.14	Sources of Further Information and Advice.....	304
	References.....	305
CHAPTER 13	Fibre to Fabric: Nonwoven Fabrics.....	307
	Learning Objectives	307
13.1	Introduction.....	307
13.2	Technologies for the Formation of Nonwoven Fabrics	308
	13.2.1 Fibrous Web Formation.....	309
	13.2.2 Web Bonding Technologies.....	310
	13.2.3 Nonwoven Fabric Finishing and Converting Techniques	312
	13.2.4 Coating and Laminating.....	314
13.3	Characteristics of Nonwoven Fabric Structure and Properties	315
	13.3.1 Characterisation of Fabric Bond Structure.....	315
	13.3.2 Nonwoven Fabric Structural Parameters.....	322
13.4	Properties and Performance of Nonwoven Fabrics.....	327
13.5	Methods for the Evaluation of Nonwoven Fabric Structure, Properties and Performance	328
	13.5.1 Standard Test Methods for the Evaluation of the Structure and Properties of Nonwoven Fabrics	328
	13.5.2 Standards for the Evaluation of the Performance of Nonwoven Products ...	328
13.6	Nonwoven Fabrics and Their Applications.....	329
13.7	Nonwoven Fabrics in Fashion.....	330
13.8	Future Trends	332
13.9	Project Ideas.....	332
13.10	Revision Questions	332
13.11	Sources of Further Information.....	333
	References.....	333
CHAPTER 14	Yarn to Fabric: Specialist Fabric Structures	337
	Learning Objectives	337
14.1	Introduction.....	337
14.2	Triaxial Fabrics	337
14.3	Pile Fabrics.....	339
14.4	Knotted Fabrics	341
	14.4.1 Nets	341
	14.4.2 Macrame.....	341

	14.4.3 Lace.....	342
	14.4.4 Crochet.....	342
	14.4.5 Knotting.....	342
14.5	Braided Fabrics.....	344
14.6	Three-Dimensional Fabrics and Future Developments.....	346
	14.6.1 3D Solid Structures.....	346
	14.6.2 Hollow Structures.....	347
	14.6.3 Shell Structures.....	348
	14.6.4 Knitted Structures.....	349
	14.6.5 Nonwoven Structures.....	350
14.7	Summary.....	352
14.8	Project Ideas.....	352
14.9	Revision Questions.....	352
	References and Sources of Further Information.....	353
CHAPTER 15	Yarn to Fabric: Intelligent Textiles.....	355
	Learning Objectives.....	355
15.1	Introduction.....	355
15.2	What Are Intelligent Textiles Used For?.....	356
	15.2.1 Smart Textile Applications.....	357
	15.2.2 Research and Development of Smart Textiles.....	359
	15.2.3 Phase Change Materials.....	360
	15.2.4 Shape Memory Materials.....	363
	15.2.5 Chromic and Conductive Materials.....	365
	15.2.6 Stress-Responsive Materials.....	367
	15.2.7 Wearable Electronics.....	367
15.3	Case Study: Biomimetics and Intelligent Textiles.....	368
	15.3.1 Examples of Biomimetic Products.....	368
	15.3.2 The Lotus Effect.....	368
15.4	Future Trends.....	369
	15.4.1 Future Applications of Intelligent Textiles.....	369
	15.4.2 Future Market Development.....	372
15.5	Summary.....	373
15.6	Project Ideas.....	374
15.7	Revision Questions.....	375
15.8	Sources of Further Information and Advice.....	375
	References and Further Reading.....	375
PART 3 FABRIC FINISHING AND APPLICATIONS		
CHAPTER 16	Fabric Finishing: Joining Fabrics Using Stitched Seams.....	379
	Learning Objectives.....	379
16.1	Introduction.....	379

16.2	The Stitch	380
	16.2.1 Class 100 Chain Stitches.....	380
	16.2.2 Class 300 Lockstitches.....	381
	16.2.3 Class 400 Multi-Thread Chain Stitches	381
	16.2.4 Class 500 Overedge Stitches	382
	16.2.5 Stitch Quality	382
16.3	The Seam.....	382
	16.3.1 Class 1: Superimposed Seams.....	384
	16.3.2 Class 2: Double-Lap Seams	385
	16.3.3 Class 3: Bound Seams.....	385
	16.3.4 Class 4: Flat Seams	385
16.4	Sewing Machines	385
	16.4.1 The Needle	390
	16.4.2 Machine Feeding Systems	394
	16.4.3 Machines for Different Stitching Operations.....	400
16.5	Seam Quality Problems.....	402
	16.5.1 Pucker.....	402
	16.5.2 Thread Breakage	405
16.6	Future Trends	405
16.7	Summary	409
16.8	Case Study and Project Idea.....	409
16.9	Revision Questions	410
	References and Further Reading.....	410
CHAPTER 17	Joining Fabrics: Fastenings	413
	Learning Objectives	413
17.1	Introduction.....	413
17.2	Zips.....	413
	17.2.1 Components of a Zip.....	415
	17.2.2 Zip Functions and Applications	416
	17.2.3 How to Measure the Correct Length of Opening for a Zip.....	416
	17.2.4 Machinery and Attachments Used to Apply Zips	419
	17.2.5 Continuous Zips	419
	17.2.6 Safety Standards and Legislation for Selecting and Applying Zips	419
17.3	Buttons	422
	17.3.1 Types of Buttons	423
	17.3.2 Materials Used to Make Buttons.....	425
	17.3.3 How to Measure Buttons.....	425
	17.3.4 Machinery and Attachments Used to Apply Buttons.....	425
	17.3.5 Safety Standards and Legislation for Selecting and Applying Buttons	431

17.4	Hook-and-Loop Fasteners.....	432
	17.4.1 Types of Hook-and-Loop Tapes.....	433
	17.4.2 Materials Used to Make Hook-and-Loop Tape.....	434
	17.4.3 Machinery and Attachments Used to Apply Hook-and-Loop Tape.....	434
	17.4.4 Safety Standards and Legislation for Selecting and Applying Hook-and-Loop Tape.....	434
17.5	Press Fasteners.....	435
	17.5.1 Types of Press Fasteners.....	436
	17.5.2 Materials Used to Make Press Fasteners.....	437
	17.5.3 Machinery and Attachments Used to Apply Press Fasteners.....	439
	17.5.4 Other Non-Snap Components.....	442
	17.5.5 Safety Standards and Legislation for Selecting and Applying Press Fasteners.....	442
17.6	Cords, Ties and Belts.....	446
	17.6.1 Materials Used to Make Cords, Ties and Belt Fastenings.....	446
	17.6.2 Machinery and Attachments Used to Apply Cords, Ties and Belts.....	447
	17.6.3 Safety Standards and Legislation for Selecting and Applying Cords, Ties and Belts.....	448
17.7	Hook-and-Eye Fasteners.....	448
	17.7.1 Types of Hook-and-Eye Fasteners.....	449
	17.7.2 Materials Used to Make Hooks and Eyes.....	449
	17.7.3 Machinery and Attachments Used to Apply Hooks and Eyes.....	450
	17.7.4 Safety Standards and Legislation for Selecting and Applying Hooks and Eyes.....	450
17.8	Hook-and-Bar Fasteners.....	451
	17.8.1 Types of Hook-and-Bar Fasteners.....	451
	17.8.2 Materials Used to Make Hooks and Bars.....	452
	17.8.3 Machinery and Attachments Used to Apply Hooks and Bar/Fasteners.....	453
	17.8.4 Safety Standards and Legislation for Selecting and Applying Hooks and Bar/Fasteners.....	453
17.9	Buckles and Adjustable Fasteners.....	454
	17.9.1 Types of Buckles and Adjustable Fasteners.....	454
	17.9.2 Materials Used to Make Buckles and Adjustable Fasteners.....	454
	17.9.3 Machinery and Attachments Used to Apply Buckles and Adjustable Fasteners.....	455
	17.9.4 Safety Standards and Legislation for Selecting and Applying Buckles and Adjustable Fasteners.....	455
17.10	Summary.....	456
17.11	Project Ideas.....	456
17.12	Revision Questions.....	457

17.13	Sources of Further Information.....	457
	References and Further Reading.....	457
CHAPTER 18	Fabric Finishing: Pretreatment/Textile Wet Processing.....	459
	Learning Objectives.....	459
18.1	Introduction.....	459
18.2	Processing Methods.....	460
18.3	Fabric Preparation Processes.....	461
	18.3.1 Desizing.....	461
	18.3.2 Scouring.....	462
	18.3.3 Bleaching.....	463
	18.3.4 Mercerization.....	464
	18.3.5 Carbonization.....	465
	18.3.6 Heat Setting.....	465
	18.3.7 Drying.....	465
18.4	Quality Control in Fabric Preparation.....	466
18.5	Environmental Impact and Sustainability of Fabric Preparation.....	467
18.6	Research and Future Trends.....	467
18.7	Summary.....	468
18.8	Case Study.....	468
18.9	Project Ideas.....	469
18.10	Revision Questions.....	469
18.11	Sources of Further Information.....	469
	References.....	469
CHAPTER 19	Fabric Finishing: Dyeing and Colouring.....	475
	Learning Objectives.....	475
19.1	Introduction.....	475
19.2	Colour Theory.....	475
	19.2.1 Light and the Human Eye.....	476
	19.2.2 Colour Description and Measurement.....	476
	19.2.3 Instrumental Colour Match and Shade Assessment.....	477
19.3	Selection of Dyes.....	477
	19.3.1 Achieving the Required Shade.....	478
	19.3.2 Compatibility of Dyes.....	479
	19.3.3 Metamerism.....	479
	19.3.4 Colour Fastness.....	479
	19.3.5 Environmental Considerations.....	480
19.4	The Dyeing Process.....	480
	19.4.1 Dyeing Conditions.....	481
	19.4.2 Machinery for Dyeing.....	481
	19.4.3 Further Textile Colouration.....	481

19.5	Classes of Dye for Different Fibre Types.....	485
	19.5.1 Cellulosic Fibres	485
	19.5.2 Protein Fibres	487
	19.5.3 Polyamide Fibres.....	489
	19.5.4 Polyester Fibres.....	491
	19.5.5 Acrylic Fibres.....	492
	19.5.6 Fibre Blends	493
	19.5.7 Fluorescent Brightening Agents.....	493
19.6	Strengths and Weaknesses of Natural and Synthetic Dyes	494
	19.6.1 Safety	494
	19.6.2 Shade Range and Reproducibility.....	494
	19.6.3 Colour Fastness	494
	19.6.4 Availability of Natural Dyes.....	494
	19.6.5 The Way Forward.....	495
19.7	Ensuring Quality and Effectiveness of Dyeing.....	495
	19.7.1 Assessment of Shade.....	495
	19.7.2 Assessment of Colour Fastness	496
	19.7.3 Assessment of Overall Substrate Quality.....	496
19.8	Environmental Impact of Dyeing.....	496
	19.8.1 Water Consumption.....	497
	19.8.2 Energy Consumption.....	497
	19.8.3 Air Emissions	497
	19.8.4 Effluent Emissions	497
	19.8.5 Occupational Safety	498
	19.8.6 Safety of Dyed Products	498
19.9	Research and Future Trends.....	499
19.10	Summary	500
19.11	Case Study: Reactive Dyeing of Knitted Cotton Garments.....	500
	19.11.1 Selection of Dyes	500
	19.11.2 Selection of Process Method.....	501
	19.11.3 Selection of Machinery	502
	19.11.4 Post-Dye Operations	502
19.12	Project Ideas.....	503
	19.12.1 Process Control to Reduce the Environmental Impact of Dyeing.....	503
	19.12.2 Restricted Substances List	504
	19.12.3 Controls Within a Dyeing and Finishing Operation.....	504
19.13	Revision Questions	504
19.14	Sources of Further Information.....	505
	References.....	505

CHAPTER 20	Fabric Finishing: Printing Textiles.....	507
	Learning Objectives	507
20.1	Introduction.....	507
20.2	Direct Printing.....	508
	20.2.1 Pigment Printing	509
	20.2.2 Reactive Dye Printing	510
	20.2.3 Disperse Dye Printing.....	510
	20.2.4 Vat Dye Printing.....	510
	20.2.5 Acid Dye Printing.....	511
	20.2.6 Digital Inkjet Printing	511
20.3	Other Printing Techniques.....	511
	20.3.1 Resist Printing.....	512
	20.3.2 Discharge Printing.....	512
	20.3.3 Burn-Out (Devoré) Printing.....	512
20.4	Traditional Printing Methods	513
20.5	Screen Printing.....	515
	20.5.1 Table Screen Printing.....	515
	20.5.2 Automatic Flat-Bed Screen Printing	516
	20.5.3 Rotary Screen Printing.....	517
	20.5.4 Screen Design and Production	518
20.6	Transfer Printing	519
	20.6.1 Gravure Printing.....	519
	20.6.2 Digital Paper Printing.....	520
	20.6.3 Heat Transfer Press	520
20.7	Digital Inkjet Printing	520
	20.7.1 Technology and Characteristics	522
	20.7.2 Design Application.....	523
20.8	Impact of CAD/CAM on the Design of Printed Textiles.....	523
20.9	Research and Future Trends.....	525
20.10	Summary	526
20.11	Case Study.....	526
20.12	Project Ideas.....	527
20.13	Revision Questions	528
20.14	Sources of Further Information and Advice.....	528
	References.....	529
CHAPTER 21	Applications of Textile Products	531
	Learning Objectives	531
21.1	Introduction.....	531
21.2	Apparel.....	532
21.3	Furnishing or Interior Textiles, Including Household Products.....	534

21.4	Technical Textiles.....	536
	21.4.1 Industrial Textiles and Geotextiles.....	536
	21.4.2 Smart Fabrics and Intelligent Textiles.....	536
	21.4.3 Medical Textiles.....	537
	21.4.4 Wearable Textiles and Protective Clothing.....	537
	21.4.5 Eco Textiles.....	538
21.5	Textile Art.....	538
21.6	Textile Industry.....	539
21.7	Case Study: Traditional Bedouin al Sadu Hand-Woven Products and Contemporary Digital Applications.....	540
21.8	Future Trends.....	542
21.9	Summary.....	543
21.10	Revision Questions.....	543
21.11	Sources of Information.....	544
	Further Reading.....	544
CHAPTER 22	Sustainable Textile Production.....	547
	Learning Objectives.....	547
22.1	Introduction.....	547
22.2	Key Issues in Sustainability.....	548
22.3	The Textile Supply Chain.....	549
	22.3.1 Supply Chain for Fabrics Made from Natural Fibres.....	550
	22.3.2 Synthetic Fibres.....	552
22.4	Assessing the Environmental Impact of the Textile Supply Chain.....	553
22.5	Minimising the Environmental Impact of the Textile Supply Chain.....	554
22.6	Case Study: Creating Sustainable and Socially Responsible Fashion.....	556
	22.6.1 Future Thinking in Sustainable Futures.....	556
22.7	Summary and Project Ideas.....	558
22.8	Sources of Further Information and Advice.....	559
	References.....	560

PART 4 DEVELOPING TEXTILE PRODUCTS: THE CASE OF APPAREL

CHAPTER 23	Material Culture: Social Change, Culture, Fashion and Textiles in Europe.....	563
	Learning Objectives.....	563
23.1	Introduction.....	563
23.2	Art and Society.....	564
	23.2.1 Advances in Technology: The Industrial Revolution.....	564
	23.2.2 Advances in Technology: Modern Developments.....	567

	23.2.3 Travel and Discovery	568
	23.2.4 Orientalism.....	569
	23.2.5 The Space Race.....	572
	23.2.6 Modern Day	575
23.3	Politics.....	575
	23.3.1 Poster Art.....	575
	23.3.2 Soviet Posters.....	576
	23.3.3 Guerilla Art	578
	23.3.4 T-Shirts	580
23.4	War	584
	23.4.1 Bayeux Tapestry.....	584
	23.4.2 Guernica.....	584
	23.4.3 Fashion and World War II	585
	23.4.4 Textile Design Following World War II	586
23.5	Impact of Culture on Design, Fashion and Textiles.....	589
	23.5.1 Cubism and Delaunay	589
	23.5.2 Surrealism and Schiaparelli	589
	23.5.3 Pop Art	589
	23.5.4 Op Art.....	593
	23.5.5 Popular Culture/Pop Culture.....	594
	23.5.6 Counter-Culture	595
	23.5.7 Punk	595
23.6	Definitions of Textile Culture and Fashion Culture: Are They the Same?.....	597
23.7	Project Ideas.....	600
23.8	Revision Questions	600
23.9	Further Reading.....	600
	References.....	602
	Electronic Sources.....	603
CHAPTER 24	Fashion and Culture: Global Culture and Fashion	605
	Learning Objectives	605
24.1	Introduction.....	605
24.2	Impact of Culture in European and Non-European Arenas	606
24.3	Case Study.....	607
	24.3.1 Cultural Exchanges: Japan and the West.....	607
24.4	Future Trends	619
	24.4.1 Globalisation and the Democratisation of Fashion	620
	24.4.2 Sustainability in Fashion and Textiles: 'Green' Issues	624
	24.4.3 Ethical Fashion.....	626
24.5	Summary Points	629
24.6	Project Ideas.....	630

24.7	Revision Questions	630
24.8	Further Reading.....	631
	References	632
	Electronic Sources.....	633
CHAPTER 25	Fashion and the Fashion Industry.....	635
	Learning Objectives	635
25.1	Introduction.....	635
25.2	Emergence, Development and Change in Fashion	636
	25.2.1 Fashion Is Evolutionary	636
	25.2.2 What Is Fashion Style?.....	637
	25.2.3 Fashion Moves in Cycles	637
25.3	The Standard Fashion-Trend Cycle	638
	25.3.1 Style Regeneration	638
	25.3.2 The Classic.....	639
	25.3.3 The Fad.....	639
25.4	Why Fashion Changes?.....	639
	25.4.1 Topman Case Study.....	639
	25.4.2 Topman Case Study: Project Ideas.....	642
	25.4.3 Asos Case Study.....	642
	25.4.4 Asos Case Study: Project Ideas.....	644
25.5	Revision Questions	645
25.6	Summary Points	645
	Magazines/Periodicals	645
	References and Further Reading.....	646
	Websites	647
CHAPTER 26	Visual Design Techniques for Fashion	649
	Learning Objectives	649
26.1	Introduction.....	649
	26.1.1 Research for Design.....	649
	26.1.2 Planning the Collection.....	650
	26.1.3 Developing the Samples.....	651
26.2	Why Consumers Buy New Designs.....	651
26.3	Market Research Methods for Identifying Emerging Consumer Needs.....	652
26.4	Finding Inspiration.....	653
	26.4.1 Trade Shows.....	654
	26.4.2 Fashion Forecasting	654
	26.4.3 Copyright	654
	26.4.4 Creative Thinking Techniques.....	654

26.5	Aesthetic Qualities in a Good Design.....	655
	26.5.1 Shape and Silhouette.....	656
	26.5.2 Proportion.....	656
	26.5.3 Colour.....	656
	26.5.4 Fabrics and Trimmings.....	656
	26.5.5 Prints and Motifs.....	656
	26.5.6 Details and Embellishments.....	657
	26.5.7 Styling and Accessories.....	657
26.6	Design Tools.....	657
26.7	Moving from Sample to Production.....	658
26.8	Future Trends: Impact of New Technologies/Processes.....	658
26.9	Case Study: The Development of a Garment.....	659
26.10	Summary.....	666
26.11	Project Ideas.....	667
	26.11.1 Analysing a Collection.....	667
	26.11.2 Finding Trend Information.....	667
	26.11.3 Analysing a Garment.....	667
26.12	Revision Questions.....	667
26.13	Sources of Further Information and Advice.....	668
	References.....	668
	Further Reading.....	668

CHAPTER 27	Computer-Aided Design (CAD) and Computer-Aided Manufacturing (CAM) of Apparel and Other Textile Products.....	671
	Learning Objectives.....	671
27.1	Introduction.....	671
27.2	Fashion and Textile Software Programs.....	673
27.3	Using CAD to Design Fashion Products.....	674
	27.3.1 Flats/Working Drawings.....	675
	27.3.2 Specification Sheets (Specs).....	675
	27.3.3 Style Sheets.....	678
27.4	Other Uses of CAD in Fashion Design.....	678
	27.4.1 Digital Design Library.....	678
	27.4.2 Design Presentations.....	682
	27.4.3 Digital Design Portfolio.....	682
	27.4.4 The Place of the App.....	685
27.5	CAM in Fashion and Textiles.....	686
	27.5.1 3D Digital and Virtual Fabrication in Textiles and Fashion.....	686
	27.5.2 New 3D Printing and Fabrication in Textiles and Fashion.....	688

27.6	Case Studies: Fashion Designers Interviewed by Sandra Burke	691
	27.6.1 Laura Krusemark.....	691
	27.6.2 Alissa Stytsenko	693
27.7	Summary Points and Project Ideas.....	700
27.8	Revision Questions	700
27.9	Sources of Further Information and Advice.....	700
	27.9.1 Books	700
	27.9.2 Websites	701
	27.9.3 Web Resources	702
	27.9.4 Open Source Software	702
	References and Further Reading.....	703
CHAPTER 28	Adding Functionality to Garments	705
	Learning Objectives	705
28.1	Introduction.....	705
28.2	Factors Affecting Garment Function.....	706
28.3	Improving Fabric Handle and Tailorability.....	706
	28.3.1 Fibre Properties	707
	28.3.2 Yarn Properties	710
	28.3.3 Fabric Properties	710
	28.3.4 Dyeing and Finishing.....	710
	28.3.5 Measurement of Fabric Handle and Making-Up	711
28.4	Reducing Wrinkling.....	712
	28.4.1 Factors Affecting Wrinkling and Wrinkle Recovery During Wear.....	713
	28.4.2 Fibre Properties	715
	28.4.3 Yarn and Fabric Parameters.....	716
	28.4.4 Mechanical and Chemical Finishing to Reduce Wrinkling	717
	28.4.5 Measurement of Wrinkle and Crease Recovery.....	717
28.5	Reducing Pilling.....	719
	28.5.1 How Pills Are Formed.....	720
	28.5.2 Fibre Properties	720
	28.5.3 Yarn Properties	722
	28.5.4 Fabric Properties	722
	28.5.5 Dyeing and Finishing	722
	28.5.6 Measurement of Pilling.....	722
28.6	Reducing Bagging.....	724
	28.6.1 Fibre Properties	724
	28.6.2 Yarn Properties	725
	28.6.3 Fabric Properties	725
	28.6.4 Garment Construction	725
	28.6.5 Finishing.....	725
	28.6.6 Measurement of Bagging.....	725

28.7	Improving Fabric and Garment Drape	726
	28.7.1 Fibre Properties	727
	28.7.2 Yarn Properties	728
	28.7.3 Fabric Properties	728
	28.7.4 Dyeing and Finishing	729
	28.7.5 Garment Construction	729
	28.7.6 Measurement of Drape	729
28.8	Improving Fabric and Garment Durability	730
	28.8.1 Fibre Properties	730
	28.8.2 Yarn Properties	731
	28.8.3 Fabric Properties	731
	28.8.4 Garment Design and Fit	732
	28.8.5 Dyeing and Finishing	732
	28.8.6 Measurement of Fabric Durability	732
28.9	Research and Future Trends	735
28.10	Summary	735
28.11	Project Ideas	736
28.12	Revision Questions	736
	References	736
CHAPTER 29	Improving the Comfort of Garments	739
	Learning Objectives	739
29.1	Introduction	739
29.2	Tactile Comfort	740
29.3	Thermo-Physiological (Thermal) Comfort	742
	29.3.1 Factors Affecting the Thermal Insulation of Fabrics and Clothing	742
	29.3.2 Factors Affecting the Moisture (Vapour) Transmission Properties of Fabric and Clothing	743
	29.3.3 Factors Affecting Liquid Water Transport Properties of Fabrics and Clothing	744
	29.3.4 Factors Affecting Garment Fit and Ease of Body Movement	745
29.4	Measuring Physiological Comfort	746
	29.4.1 Tactile Comfort	746
	29.4.2 Thermal Contact	746
	29.4.3 Thermal Insulation	746
	29.4.4 Water Vapour Permeability	747
	29.4.5 Liquid Water Transport Properties	749
	29.4.6 Garment Fit and Ease of Body Movement	750
	29.4.7 Pressure Comfort	750
	29.4.8 Formaldehyde Content	750

29.5	Psychological Comfort.....	751
	29.5.1 Factors Affecting Psychological Comfort.....	751
	29.5.2 Assessing Psychological Comfort.....	753
29.6	Improving Waterproofing and Breathability	753
	29.6.1 Factors Affecting Fabric and Garment Breathability	755
	29.6.2 Measuring Waterproofing and Breathability	757
29.7	Research and Future Trends.....	758
29.8	Summary	759
29.9	Case Study.....	759
29.10	Project Ideas.....	760
29.11	Revision Questions	760
	References.....	760
CHAPTER 30	The Marketing of Fashion.....	763
	Learning Objectives	763
30.1	Introduction.....	763
30.2	What is Marketing?.....	763
	30.2.1 The Four P's: Product, Price, Place and Promotion.....	764
	30.2.2 The Four C's: Consumer, Cost, Convenience and Communication	764
30.3	The Marketing of Fashion.....	764
	30.3.1 Product Development.....	766
	30.3.2 Retailing Space	766
	30.3.3 Communication of the Product	766
	30.3.4 Public Relations	766
30.4	Targeting a Market	767
	30.4.1 Customer Profiles.....	768
	30.4.2 Seasonal and Occasion Markets.....	768
30.5	Branding.....	768
	30.5.1 Branding Case Study: Apple Inc.....	768
30.6	The Traditional Media Channels.....	769
30.7	New Technologies as Media Channels	770
	30.7.1 Web 2.0 and Other Technological Developments	770
	30.7.2 Case Study: Wickedweb Digital Marketing Agency.....	773
30.8	The Marketing Plan.....	774
	30.8.1 Case Study 1: 'Evolution' by Katie Lay	774
	30.8.2 Case Study 2: 'Stratagem' by Luke Anthony Richardson	782
	30.8.3 Case Study 3: Commercial Case Study – All Saints of Spitalfields.....	790
30.9	Future Trends	791
	30.9.1 Fashion Forecasting	791
	30.9.2 New Technologies and Processes.....	792
30.10	Summary Points	794

30.11	Project Ideas and Revision Questions.....	795
30.12	Sources of Further Information.....	795
30.12.1	Books	795
30.12.2	Trend Forecasting Companies.....	795
30.12.3	Fashion Forecasting Companies	796
