Woodhead Publishing Series in Textiles	xi
1 Introduction	1
<i>J.W.S Hearle</i>	
1.1 Introduction	1
1.2 Range of 3D textiles	2
1.3 Uses of 3D textiles	10
1.4 Conclusion	15
References	17
Part One 3D Woven Textiles	19
2 Solid three-dimensional woven textiles	21
<i>A. Bogdanovich</i>	
2.1 Introduction	21
2.2 Terminology and fabric categorization	24
2.3 3D multilayer interlock weaves	27
2.4 3D noncrimp orthogonal weaves	33
2.5 3D dual interlaced weaves	40
2.6 Machine automation and computer-aided fabric design	43
2.7 Mechanical properties of 3D woven composites	44
2.8 Manufacturing and applications	45
2.9 Outlook of future needs	46
Acknowledgment	47
References	47
3 Hollow three-dimensional woven fabrics	53
<i>X. Chen</i>	
3.1 Introduction: Overview and potential applications	53
3.2 Principles of hollow woven fabrics	54
3.3 Properties and performance of structures based on hollow woven fabrics	56
3.4 Structural and mechanical modelling of hollow woven fabrics	64
3.5 Possible applications of hollow fabrics and future trends	75
3.6 Sources of further information and advice	76
References	76

4	Shell three-dimensional woven textiles	79
	<i>A. Buesgen</i>	
4.1	Introduction	79
4.2	Reasons for the development of weaving processes for three-dimensional shells	79
4.3	History and classification of shell three-dimensional woven textiles	82
4.4	Flat woven and unfolded double-layer fabrics	85
4.5	Shell creation by alternating thread spacings	88
4.6	Weave design and patterns of 3D woven shells	92
4.7	CAD and simulation of three-dimensional woven shells	93
4.8	Conclusion	96
	References	97
5	Nodal three-dimensional woven textiles	99
	<i>L.W. Taylor, X. Chen</i>	
5.1	Introduction	99
5.2	Nodal 3D structures	101
5.3	Nodal 3D design and production parameters	104
5.4	Applications	118
5.5	Future trends	118
5.6	Conclusion	120
	References	120
Part Two	3D Knitted, Braided and Nonwoven Textiles	123
6	Three-dimensional knitted textiles	125
	<i>Y. Liu, H. Hu</i>	
6.1	Introduction	125
6.2	3D knitting technologies	125
6.3	3D knitted structures	128
6.4	Properties and applications	145
6.5	Future trends	150
	References	151
7	Recent advances in 3D braiding technology	153
	<i>T. Sontag, H. Yang, T. Gries, F. Ko</i>	
7.1	Introduction and objectives	153
7.2	State-of-the-art	154
7.3	Ideal tubular, bifurcated structure	171
7.4	Novel track-and-column braiding processes	173
7.5	Conclusion	180
	References	181

8	Developments in 3D nonwovens	183
	<i>R.H. Gong</i>	
8.1	Introduction	183
8.2	High-bulk flat nonwovens	184
8.3	Shaped 3D nonwovens	191
8.4	Future development	201
	References	201
	Sources for further information	203
Part Three	3D Textiles for Industrial Applications	205
9	3D woven preforms for E-textiles and composites reinforcements	207
	<i>M. Amirul (Amir) Islam</i>	
9.1	Introduction	207
9.2	E-textiles	208
9.3	3D fabrics and preforms for composite reinforcements	219
9.4	Applications of E-textiles and 3D woven composites	237
9.5	3D weaves	238
9.6	Manufacturing technologies	246
9.7	Future trends and applications	261
	Acknowledgments	261
	References	262
10	Three-dimensional textiles in the automotive industry	265
	<i>C. Dufour, P. Pineau, P. Wang, D. Soulat, F. Boussu</i>	
10.1	Introduction	265
10.2	Textile composite solutions used in the automotive industry	269
10.3	Manufacturing techniques for forming 3D fabrics	269
10.4	Forming simulation of 3D fabrics	273
10.5	Applications (oil pan for automotive use)	275
10.6	Discussion	286
10.7	Future trends	286
	Acknowledgments	287
	References	287
11	Three-dimensional textiles in the aerospace industry	293
	<i>A. Prichard</i>	
11.1	Historical overview of aerospace fabric	293
11.2	The introduction of composite textiles	295
11.3	The introduction of carbon fiber	297
11.4	Manufacturing	298
11.5	Quality	299
11.6	Applications	300

11.7	Design considerations	302
11.8	Conclusion	303
	References	304
12	Three-dimensional fabrics as medical textiles	305
	<i>S. Eriksson, L. Sandsjö</i>	
12.1	Introduction	305
12.2	Medical textiles	305
12.3	Textile techniques, manufacturing technologies and materials contributing to 3D medical textiles	309
12.4	Main applications of 3D textile in medicine	315
12.5	Future trends	332
12.6	Conclusion	333
12.7	Further sources	334
	Acknowledgments	334
	References	334
13	Three-dimensional textiles for protective clothing	341
	<i>D. Sun, X. Chen</i>	
13.1	Introduction	341
13.2	Types of 3D weaves and manufacture techniques	344
13.3	3D textiles used for protective clothing	350
13.4	Conclusions and future trends	358
	References	358
14	Three-dimensional textiles for sports and recreational clothing	361
	<i>Y.-S. Gloy, I. Kurcak, T. Islam, D. Buecher, A. McGonagle, T. Gries</i>	
14.1	Introduction	361
14.2	Production and processing of 3D textiles	361
14.3	Features and requirements for sports and recreational clothing	369
14.4	Applications in sports and leisure clothing	373
	References	375
	Index	379
