I. INTRODUCTION

A 23-year longitudinal study of 208 schizophrenics and impressions in regard to the nature of schizophrenia	
MANFRED BLEULER	3

II. GENETIC STUDIES

A review of earlier evidence on genetic factors in schizophrenia	
ELIOT SLATER	15
Schizophrenia in monozygotic male twins	
PEKKA TIENARI	27
Severity/concordance and diagnostic refinement in the Maudsley-Bethlem schizophrenic twin study	
IRVING I. GOTTESMAN	37
An epidemiological-clinical twin study on schizophrenia	
EINAR KRINGLEN	49
Studies on the offspring of two schizophrenic parents	
L. ERLNMEYER-KIMLING	65
Genealogic studies of schizophrenia	
JON L. KARLSSON	85
Summary of the genetic evidence	
JAMES SHIELDS	95

III. SOCIAL, CULTURAL AND INTERPERSONAL STUDIES

Does schizophrenia disorganize the family? The modification of an hypothesis	
LLOYD ROGLER	129
Cultural factors in the genesis of schizophrenia	
H. B. M. MURPHY	137

Social class and schizophrenia: a critical review MELVIN L. KOHN	155
The family, language, and the transmission of schizophrenia THEODORE LIDZ	175
Methodologic and conceptual issues in the study of schizophrenics and their families LYMAN C. WYNNE	185
From the mothers of schizophrenic patients to interactional family dynamics YRJÖ O. ALANEN	201
Family interaction and schizophrenia: alternative frameworks of interpretation ELLIOT G. MISHLER and NANCY E. WAXLER	213
Family problem solving: two experiments on the relationship between family interaction and individual thinking in families of schizophrenics, normals and character disorders DAVID REISS	223
A psychiatric assessment of the adoptive parents of schizophrenics PAUL H. WENDER, DAVID ROSENTHAL and SEYMOUR S. KETY	235
Interpersonal factors in the transmission of schizophrenia JOHN A. CLAUSEN	251
 IV. STUDIES EXAMINING THE INTERACTION BETWEEN GENETIC AND EXPERIENTIAL FACTORS	
Some premorbid characteristics related to breakdown in children with schizophrenic mothers SARNOFF A. MEDNICK and FINI SCHULSINGER	267
The developmental precursors of adult schizophrenia E. JAMES ANTHONY	293
Biological, psychological and historical differences in a series of monozygotic twins discordant for schizophrenia WILLIAM POLLIN and JAMES R. STABENAU	317
The subclassification of psychotic children: application to a study of longitudinal change WILLIAM GOLDFARB	333
The types and prevalence of mental illness in the biological and adoptive families of adopted schizophrenics SEYMOUR S. KETY, DAVID ROSENTHAL, PAUL H. WENDER and FINI SCHULSINGER	345
Interactions between early life experience and biological factors in schizophrenia LEONARD L. HESTON and DUANE DENNEY	363

Schizophrenics' offspring reared in adoptive homes	
DAVID ROSENTHAL, PAUL H. WENDER, SEYMOUR S. KETY, FINI SCHULSINGER, JOSEPH WELNER and LISE ØSTERGAARD	377
Gene-environment interaction in human disease	
BRIAN MACMAHON	393
The interaction of biological and experiential factors in schizophrenia	
LEON EISENBERG	403

V. RECAPITULATION AND CRITICAL OVERVIEW

The heredity-environment issue in schizophrenia: summary of the Conference and present status of our knowledge	
DAVID ROSENTHAL	413
Author Index	429
