PREFACE, PREVIEW, AND GUIDE LINES FOR USE	1
Preface	1
Preview	2
Guide lines for use	5
CHAPTER 0. ELEMENTARY DEFINITIONS	8
0.1. Nontopological preliminaries	8
0.2. Topological preliminaries	11
CHAPTER I. FROM CHOICE FUNCTIONS TO BINARY RELATIONS	13
I.1. Choice functions, their use, and interpretational complications	13
I.1.1. Example	13
I.1.2. Elementary formalizations and some assumptions	14
I.1.3. Thought experiments	14
I.1.4. Normative and descriptive applications	16
I.1.5. The preliminary-choice-problem	17
I.2. From choice functions to binary relations, and to representing functions	18
I.2.1. The congruency condition	18
I.2.2. Other conditions for choice functions	22
I.2.3. Representing functions	24
I.3. Comparison with other set-ups (or: what we do not do)	25
CHAPTER II. CARTESIAN PRODUCT STRUCTURE	27
II.1. Cartesian product structure, examples	27
II.2. Alternatives, subalternatives, and preferences between them	29
II.3. Additive representations	32
II.4. Comparisons of tradeoffs derived from ordinal preferences	35
II.5. Conditions related to coordinate independence, and history	38
CHAPTER III. ADDITIVE REPRESENTATIONS	41
III.1. Introduction	41
III.2. Ordinal and cardinal representations	42

III.3.	Continuity of weak orders	43
III.4.	The Central Theorem on additive representations	46
III.4.1.	Related works and motivation	46
III.4.2.	The hexagon condition and the theorem	47
III.5.	Proof of the Central Theorem	49
III.6.	Corollaries of the Central Theorem and extensions	67
III.7.	Further remarks and extensions	72
III.8.	History and literature of additive representations, and further comments	75
 CHAPTER IV. CONTINUOUS SUBJECTIVE EXPECTED UTILITY		78
IV.1.	Introduction	78
IV.2.	Noncontradictory tradeoffs on consequences	78
IV.3.	Proof of Theorem IV.2.7	84
IV.4.	An application to dynamic decision making	86
IV.5.	Further extensions and applications	89
IV.6.	Comparison of our result to other derivations of subjective expected utility maximization	90
 CHAPTER V. CONTINUOUS SUBJECTIVE EXPECTED UTILITY FOR ARBITRARY STATE SPACES		92
V.1.	Introduction	92
V.2.	Measure theory and simple acts	92
V.3.	Results for simple acts	94
V.4.	Including nonsimple acts with bounded expected utility	98
V.5.	Countable additivity	103
V.6.	The main result, conclusions and further comments	104
 CHAPTER VI. SUBJECTIVE EXPECTED UTILITY WITH NONADDITIVE PROBABILITIES		107
VI.1.	Introduction	107
VI.2.	Capacities and the Choquet integral	108
VI.3.	Comonotonicity	111
VI.4.	Comonotonic-contradictory tradeoffs	113
VI.5.	The Main Theorem	117
VI.6.	Preparations for the proof	118
VI.7.	Additive value functions on C^{id}	120
VI.7.1.	Additive value functions $(V_j^s)_{j=1}^n$ on sets E^s	120
VI.7.2.	Fitting the functions V_j^s together on C^{id}	122
VI.7.3.	The functions $(V_j^{id})_{j=1}^n$ are additive value functions on C^{id}	125
VI.8.	Completion of the proof of Theorem VI.5.1 under absence of maximal and minimal consequences	127
VI.9.	Maximal and/or minimal consequences	130
VI.10.	Survey of the proof of Theorem VI.5.1	133

CHAPTER VII. CONCAVITY ON MIXTURE SPACES AND RISK AVERSION	134
VII.1. Introduction	134
VII.2. Product topological mixture spaces	135
VII.3. Nonincreasing tradeoffs	139
VII.4. Some counterexamples	143
VII.5. Subjective expected utility with risk aversion	145
VII.6. Comparisons of risk aversion	148
VII.7. Removing the requirement of noncontradictory tradeoffs	154
APPENDIX	159
A1. Generalizations of midpoint convexity	159
A2. Classical representations of seu-maximization	160
A3. Further remarks	163
REFERENCE-FOOTNOTES	165
Reference-footnotes to Chapter I	165
Reference-footnotes to Chapter II	167
Reference-footnotes to Chapter III	168
Reference-footnotes to Chapter IV	169
Reference-footnotes to Chapter V	170
Reference-footnotes to Chapter VI	171
Reference-footnotes to Chapter VII	171
Reference-footnotes to the Appendix	172
