

C O N T E N T S

Preface to Part 2	4
Introduction to the II. volume	7
Chapter 8 OPERATORS WITH RATIONAL RESOLVENT FUNCTION	16
Primary decomposition	16
Examples and applications	20
Stable and convergent operators	33
Chapter 9 NORMAL OPERATORS WITH RATIONAL RESOLVENT FUNCTION	38
Spectral theorem for normal operators	39
Square root	46
Ljapunov theorem	50
Chapter 10 COMPLEXIFICATION	54
Chapter 11 JORDAN REPRESENTATION OF LINEAR OPERATORS	67
Canonical representation of a nilpotent operator	67
One-cell operators	76
Jordan theorem	78
Comments and exercises	87
Chapter 12 VARIATIONAL PRINCIPLES	93
Chapter 13 DRAZIN'S PSEUDOINVERSE OPERATOR	107
Chapter 14 MOORE-PENROSE OPERATOR	126
References	145
Index	147
List of symbols	149
