PART I INTRODUCTION

1	Organizational control in and around organizations: an introduction to the <i>Research Handbook on Organizational Control</i>	2
	<i>Laura B. Cardinal, Markus Kreutzer and C. Chet Miller</i>	

PART II EVOLVING DYNAMICS OF ORGANIZATIONAL CONTROL: TRUST, TECHNOLOGY, AND STRATEGIC LEADERSHIP

2	The control-trust literature: beyond the micro-macro faultline	19
	<i>Chris P. Long, Fabrice Lumineau and Sim B. Sitkin</i>	
3	Grabbing the wheel: information availability and shared responsibility in decisions to control in trust relationships	39
	<i>Gary A. Ballinger, F. David Schoorman and Kinshuk Sharma</i>	
4	Crossing the borders of normality: how and why supervisory control actions engender distrust and loss of control effectiveness	55
	<i>Katinka Bijlsma-Frankema, Susanne Täuber, Evelien Croonen and Joost van de Brake</i>	
5	Sensing and organizational control	74
	<i>Shiko M. Ben-Menahem</i>	
6	Strategic levers: the impact of board-controlled CEO succession planning processes on organizational outcomes	87
	<i>Anthony J. Nyberg, Patrick M. Wright and Ipsu Khadka</i>	
7	Culture and control: building stories to align a firm's strategies and culture	109
	<i>Jay B. Barney, Manoel Amorim and Carlos Júlio</i>	

PART III ALGORITHMIC CONTROL

8	Algorithmic control in platform and non-platform work contexts: structural differences and wicked control problems	123
	<i>Martin Wiener, W. Alec Cram and Alexander Benlian</i>	

9	Beyond humans: exploring algorithmic control in 21st-century organizations <i>Jorge Walter and Markus Kreutzer</i>	138
10	Designing control systems: from Weber to platform organizations and artificial intelligence <i>Richard M. Burton, Børge Obel and Dorthe Døjbak Håkonsson</i>	162
11	<i>So test, therefore, who joins forever</i> – deciphering consistency of datafication technology, leadership, and institutional logic configurations for meeting 21st-century challenges <i>Simon Schafheitle and Antoinette Weibel</i>	182
12	Configurations of internal and external control in police organizations adopting predictive policing technology <i>Henrik Dosdall and Stefanie Büchner</i>	200
13	Trust, organizational control, and the emergence of collective human capital resources: the impact of AI <i>M. Audrey Korsgaard, Yoojin Jeong and Robert E. Ployhart</i>	215
PART IV INTEGRATING INFORMATION PROCESSING, CREATIVITY, R&D, AND AUTONOMY IN ORGANIZATIONAL CONTROL PERSPECTIVES		
14	An information-processing perspective of organizational controls <i>Mona V. Makhija</i>	235
15	The control of organizational creativity <i>Isabella Grabner and Gerhard Speckbacher</i>	251
16	Control dynamics for R&D units in the MNC: from local to global innovation <i>Kazuhiro Asakawa, Björn Ambos and Tina C. Ambos</i>	267
17	Control and autonomy in management and organizations research <i>Vanessa M. Conzon and Poonam H. Zantye</i>	285
PART V INTER-ORGANIZATIONAL CONTROL – ALLIANCES, DIGITAL PLATFORMS, AND ECOSYSTEMS		
18	William Ouchi and the shift from control to governance in the study of inter-organizational relationships <i>William S. Hesterly</i>	304
19	Control in digital platforms <i>Christoph Lechner and Alexander Göritz</i>	311
20	Control in ecosystems: an evolutionary perspective <i>Stefano Brusoni and Anja Schulze</i>	327

21	Human resource controls within a workforce ecosystem <i>Scott A. Snell, Shad S. Morris and Kirsi Jarvis</i>	344
PART VI ACCOUNTING AND PERFORMANCE MANAGEMENT SYSTEMS		
22	Configuring performance measurement systems for organizational innovation <i>David S. Bedford</i>	367
23	Accounting-based perspectives on performance management <i>Ralph W. Adler</i>	388
24	Sharing insights across disciplines: leveraging research from the management accounting literature on the levers of control <i>Lucia Bellora-Bienengräber, Roland F. Speklé and Sally K. Widener</i>	407
PART VII SUSTAINABILITY AND RELIABILITY – EXPANDING THE BOUNDARIES OF CONTROL		
25	Expanding conceptualizations of sustainability control – moving beyond managerial design for improving sustainable workplace behaviors and performance <i>Leanne Johnstone, Peter Beusch and Jonas Gerdin</i>	425
26	Organizational control for catastrophic risk mitigation and organizational reliability <i>Peter M. Madsen</i>	446
	<i>Index</i>	461
