List of Figures	xiii
Dedication	xv
Foreword	xvii
Preface	xxi
Acknowledgments	xxiii
Biographical Notes	xxv
An Overview: MMPI Response Patterns from Contemporary Normal Adolescents and Adults	1
Part I: The Minnesota Multiphasic Personality Inventory (MMPI): A Brief Historical Review	7
Underpinnings	7
Development	10
Normal and Criterion Samples	12
Validity Scales	19
Clinical Scales	25
Part II: The Contemporary Normative Study of Adults: A Summary	43
The Need for Contemporary MMPI Norms for Adults	43
Developing New Adult MMPI Norms	49
Part III: Adolescents, Adults, and the MMPI	59
Original Minnesota Adolescent Norms	61
Marks and Briggs Combined Sample	66
Comments on Currently Available Adolescent MMPI Norms	68

Part IV: The Contemporary Normative Study of Adolescents	71
Purpose	71
Preliminary Investigations	72
Geographic Location	73
Household Selection Procedures	73
Initial Mail Contact	74
Telephone Interview	74
Subject Selection Procedures	75
MMPI Research Packet	76
Flowcharts	76
Follow-Up	77
Inspection and Scoring of MMPI Decklet	77
Review of Telephone Interview Data	79
Coding of Demographic Data	79
Time Line for Completion	79
Data Analysis	79
Results	80
Validity Scale Characteristics of the MMPIs That Were Included in the Final Sample	85
Analysis of Contemporary Adolescent MMPI Data	85
Age-Related MMPI Changes Among Contemporary Adolescents	91
Development of New MMPI Norms for Adolescents	98
New Procedures for Transformation of Raw Scores to T Scores	102
Correlation Matrices	109
Item Analysis	109
K-Corrected Raw Score Conversion Tables for Normal Adolescents	117
Toward an Adolescent MMPI	119
Part V: A Manual for Using the MMPI Contemporary Adolescent Norms	127
Constructing Adolescent MMPI Profiles Without K Correction	127
Constructing Adolescent MMPI Profiles With K Correction	127
Part VI: Summary: Reminders, Recommendations, Suggestions,	
Caveats . . .	135
Development of the MMPI	135
Clinical Application	135
The Aging MMPI	136
Using Contemporary and Original Norms	137
Minnesota Statewide Ninth-Grade Sample	137
Adolescent Norms: Marks and Briggs	137
Contemporary Normative Changes	137
Contemporary Interpretation	138
Integration of Adolescent and Adult Contemporary Norms	139
Interpretive Strategies	139
K Correction	140
Reading Level	140
MMPI Research and Age-Related Changes	141
Conclusion	143

Appendix A: Research/Supplemental Scales for the MMPI	147
Set 1: Response Bias, Response Consistency, and General Validity	153
Set 2: Subscales, Item Clusters, Content Scales	209
Set 3: State/Trait Personality Characteristics	385
Appendix B: Mean T Scores for 13 Basic MMPI Scales Among Contemporary Normal Adolescents and Adults in Eight Age Groups, Using Original Hathaway Norms and K-Corrected Values	531
Appendix C: Mean and Mean + 2 SD MMPI Profiles for Contemporary Normal Adolescents, Using Original Hathaway Adult Norms and K-Corrected Scores	545
Appendix D: Mean and Mean + 2 SD MMPI Profiles for Contemporary Normal Adolescents, Using Contemporary Adult Norms and K-Correct Scores	549
Appendix E: Mean and Mean + 2 SD MMPI Profiles for Contemporary Normal Adolescents, Using Marks and Briggs Norms and Scores Without K Correction	553
Appendix F: Product-Moment Correlations Between Normalized T Scores With and Without K Correction and Age on Basic MMPI Validity and Clinical Scales for Contemporary Normal Adolescents	557
Appendix G: Product-Moment Correlations Between Raw Scores With and Without K Correction and Age on Basic MMPI Validity and Clinical Scales for Contemporary Normal Adolescents	563
Appendix H: Percentage of Sample Responding True on Each MMPI Item from the Contemporary Normal Sample of Adolescents, by Age and Sex, Compared with the Percentage Responding True in a Random Sample of 100 Boys and 100 Girls in the Hathaway and Monachesi Minnesota Statewide Sample of Ninth-Grade Students	569
Appendix I: New Normalized T Scores for MMPI Raw Scores With K Correction for Adolescents Ages 13 to 17 Years	593
