Einleitung/Introduction	11
<b>I. General aspects of building and architecture</b>	<b>17</b>
1. Buying and financing	17
2. Planning	19
a. types of architecture	19
b. types of building and structure	19
c. building projects	20
d. general planning work (architects, engineers, consultants, etc.)	21
e. architectural materials, instruments and terms	22
f. financial aspects of planning	24
g. parts of a house	27
3. Building and civil engineering	29
a. general terms	29
b. mathematical processes	30
c. geometry	30
d. properties of materials	31
e. structural terms	31
f. types of loads	32
g. forces	32
h. spans	33
i. supports	34
j. deformation and stability	34
4. Building trade (people, tools, machines)	35
a. different people involved	35
b. types of building work	36
c. bricklayer's tools	37
d. carpenter's tools	37
e. joiner's tools	38
f. tinsmith's tools	38
g. steelworker's tools	39
h. blacksmith's tools	39
i. plumber and drainlayer's tools	40
j. painter's tools	40
5. Project administration at building stage	41
<b>II. Small conventional houses</b>	<b>44</b>
1. Site installation	44
a. site survey	44
b. site development	45
2. General building machinery and plant	47
3. Earthwork	50
a. machines and tools	50
b. materials	50
c. operations	51
d. What does the site look like?	52

4. Foundations	53
a. machines and tools	53
b. materials	53
c. operations	55
5. The basement	56
a. general	56
b. formwork	56
c. concrete work	57
c1. types of concrete	57
c2. components	58
c3. mixing and production	59
c4. statics and behaviour of concrete	61
c5. reinforcement	62
6. Super-structure	63
a. walls	63
a1. types of walls	63
a2. brickwork	64
b. stairs	66
c. roof	67
c1. types of wood	67
c2. timberwork	68
c3. types of metal	69
c4. sheetmetal work	69
c5. types of roofs	71
c6. roof components	71
7. Interior finishings	74
a. water supply	74
b. drainage	76
c. insulation, heating, air conditioning	79
d. electricity	82
e. ceiling and wall surfacing, floor finishes, tiles	84
f. woodwork and furniture	86
f1. materials and operations	86
f2. furniture	87
g. ironmongery	88
h. windows and doors	90
i. glazing	93
j. painting	94
k. kitchen equipment	95
8. The house and its surroundings	96
a. the house itself	96
b. the surroundings	96
<b>III. Other buildings and structures</b>	<b>98</b>
1. Other buildings	98
a. prefabricated construction	98
b. high-rise buildings	99
c. factories	100

2. Roads	101
a. road users	101
b. types and parts	101
c. design, construction procedures	103
d. material and plant	105
3. Traffic tunnels	105
a. types and parts	105
b. construction procedures	106
c. materials and plant	107
4. Bridges	107
a. types and parts	107
b. design and construction procedures	109
c. materials	110
5. Dams	110
a. types and parts	110
b. design and construction procedures	112
c. materials and plant	113
6. Building outside Europe	113
a. climate and accommodation	113
b. business and administration	114
c. the job	116
d. living conditions and health	117
