

# CONTENTS

## PART I INTRODUCTION TO POCKET CALCULATOR ANALYSIS

- |   |   |    |
|---|---|----|
| 1 | The Pocket Calculator                                     | 3  |
| 2 | Difference Tables, Data Analysis, and Function Evaluation | 53 |

## PART II NUMERICAL EVALUATION OF FUNCTIONS ON THE POCKET CALCULATOR

- |   |  |     |
|---|--|-----|
| 3 | Elementary Analysis with the Pocket Calculator | 81  |
| 4 | Numerical Evaluation of Advanced Functions     | 114 |

## PART III ADVANCED ANALYSIS ON THE POCKET CALCULATOR

- |    |  |     |
|----|--|-----|
| 5  | Fourier Analysis   | 139 |
| 6  | Numerical Integration  | 154 |
| 7  | Linear Systems Simulation  | 180 |
| 8  | Chebyshev and Rational Polynomial Approximations for Analytic Substitution | 198 |
| 9  | Determining the Roots of a Function  | 224 |
| 10 | Statistics and Probability   | 242 |

## PART IV THE PROGRAMMABLE POCKET CALCULATOR

11	The Programmable Pocket Calculator	283
12	Optimization	300
APPENDIX 1	SOME TRICKS OF THE POCKET CALCULATOR TRADE	323
APPENDIX 2	MATRIX ANALYSIS ON THE POCKET CALCULATOR	333
APPENDIX 3	COMPLEX NUMBERS AND FUNCTIONS	336
APPENDIX 4	KEY STROKE SEQUENCES FOR COMPLEX VARIABLE ANALYSIS AND HYPERBOLIC INVERSE FUNCTIONS	340
INDEX
