

CONTENTS

Preface	vii
Chapter 1: Genomes, Genes, Structure and Function	1
Chapter 2: Epigenetics	24
Chapter 3: Signaling Systems	41
Chapter 4: Pluripotency to Differentiation	60
Chapter 5: Development and Growth Abnormalities	71
Chapter 6: Metabolism and Organelles	88
Chapter 7: Brain Development	111
Chapter 8: Cranio–Facial Development and Defects	143
Chapter 9: Molecular Aspects of Heart Development	150
Chapter 10: Vasculogenesis Malformations and Hematopoiesis	157
Chapter 11: Abdominal Wall and Gastro-Intestinal Tract	164
Chapter 12: Lung and Diaphragm Development	168
Chapter 13: Liver and Pancreas Development	173
Chapter 14: Bone and Extra-Cellular Matrix	184
Chapter 15: Kidney and Urinary Tract Development, Malformations in Human Genes	192
Chapter 16: Sex Determination Differentiation and Endocrine Glands	195
Conclusion	208
References	211
Index	249
