

Table of Contents

Preface	xi
Acknowledgements	xii
Introduction	xiv
Chapter 1: Welcome to the Phage World	1-1
Stories	
The Phage Life Cycle: Why So Many Genes?	1-2
The Phage Life Cycle: Why Be Temperate?	1-5
Perspective	
Phage Classification for the 21st Century	1-8
<i>by Daniel C. Nelson</i>	
Chapter 2: On the Prowl	2-1
Stories	
Testing the Waters	2-6
Phages Win with GOD on Their Side	2-13
The Flagellar Express	2-19
Using Your Head	2-27
Caution! Phage Ambush Ahead!	2-35
Perspectives	
March from the Sea: A Brief History of Environmental Phage Ecology from Marine to Human Ecosystems	2-39
<i>by Ben Knowles</i>	
The Phage Metagenomic Revolution	2-55
<i>by Matthew B. Sullivan</i>	
Chapter 3: Entry	3-1
The Podophage Tail: Extensible, Economical, and Deadly	3-5
Down the Chute	3-10
T7 Takes the Slow Lane	3-17
ϕ 6 Refuses to Leave Its Capsid at the Door	3-23
Perspective	
Voyages with Chloroviruses	3-26
<i>by James L. Van Etten and David D. Dunigan</i>	

Chapter 4: Takeover	4-1
Stories	
T4's Timed Transcription Takeover	4-7
Restriction: A Microbial Free Lunch?	4-10
Unrestricted Entry by DNA Mimicry	4-17
A Perpetual Arms Race	4-25
Haven't We Met Before?	4-33
Perspective	
A Lifetime of Phage Explorations	4-37
<i>by Elizabeth Martin Kutter</i>	
Chapter 5: Replication	5-1
Stories	
The Simple Switch of Brujita Witch	5-5
Anything You Can Do, We Can Do Better	5-12
Getting a Handle on Linear Genome Replication	5-18
An Independent Prophage	5-25
ϕ 29 Hijacks Bomb Shelter for Survival	5-31
A Phage Infection in Two Acts	5-37
The Little Phage That Could Kill	5-43
Perspective	
Unintelligent Design: Mosaic Construction of Bacteriophage Genomes ...	5-47
<i>by Graham F. Hatfull</i>	
Chapter 6: Assembly	6-1
Stories	
Gifsy-2 Goes Straight	6-5
Armored Capsids	6-13
P4: Sophisticated Capsid Thief	6-18
The Great Cystophage Packaging Challenge	6-25
Virion Grows Long Tails— <i>Two of Them</i> —After Leaving Home	6-31
Mimi and the Giant Phage Factory	6-41
Perspective	
Those Magnificent Greasy Phages: A Tribute to Research Collaboration ...	6-45
<i>by Dennis H. Bamford</i>	

Chapter 7: Escape	7-1
Stories	
λ Blows Up Host and Splits	7-5
Expert Lysis Timing on a Tight Genomic Budget	7-11
f1: A Pilus Phage	7-17
The Mysterious Pyramids of <i>Sulfolobus</i>	7-25
Perspective	
Into the Devil's Kitchen: A Personal History of Archaeal Viruses	7-28
<i>by Kenneth Stedman</i>	
Concluding Thoughts and a Look Ahead	8-2
Appendix A: Technical Notes	8-5
Appendix A1: Sources for Field Guide Data	8-5
Appendix A2: Drawing Phage Portraits	8-6
Appendix A3: The Phage Proteomic Tree	8-8
Appendix A4: Global Maps	8-20
Appendix A5: Annotated Genome Maps	8-24
Appendix B: Lexicon of Phage Behaviors	8-27
B1: Rationale	8-27
B2: Lexicon	8-29
Glossary	8-36
Index	8-41
About Us	8-47
