

Contents

PART ONE: *Problem*

Introduction	1
Frequency Theories	18
The Personalistic Theory of Probability	30
Logical Theories	39

PART TWO: *Theory*

The Object Language	57
The Metalanguage	70
The Rational Corpus	81
Rational Matrices and Statistical Statements	90
Probability Defined	100
Rational Inheritance	116
Rational Inference	143
Properties of Rational Corpora	185
Probability and Frequency	200

viii	PROBABILITY AND THE LOGIC OF RATIONAL BELIEF	
	Probability and Betting Quotients	211
	Further Discussion	228
	PART THREE: <i>Practise</i>	
	Analysis of Contexts (I)	247
	Analysis of Contexts (II)	258
	Induction	270
	Statistical Inference	293
	Justification	305
	APPENDIX I	
	Possible Ramifications	325
	APPENDIX II	
	Contexts	333
	BIBLIOGRAPHY	334
