

Chapter 1. Early Recursive Definitions	1
1.1. Introduction	1
1.2. The First Recursive Definitions	5
1.3. Mathematical Thought at the Turn of the Nineteenth Century	11
1.3.1. Mathematical Truth and Consistency	11
1.3.2. The Paradoxes of the Infinite	14
1.4. Concluding Remarks	17
Chapter 2. Skolem's Contribution	19
2.1. Introduction	19
2.2. The 1923 Paper	20
2.3. Comments and Conclusion	29
Chapter 3. Hilbert's Program and Gödel's Incompleteness Theorems	33
3.1. Introduction	33
3.2. Hilbert's Approach	35
3.3. Hilbert's Foundational Papers	39
3.4. Results on Recursive Function Theory	43
3.4.1. Scope of the Functions	45
3.4.2. Transfinite Recursion	46
3.4.3. General Schema for Ordinary Recursion	47
3.4.4. Extension of Ordinary Recursion	49
3.5. The Fate of Hilbert's Plan	53
3.6. Gödel's 1931 Paper	56

3.7. Comments and Conclusion	67
Chapter 4. Early Work Leading to λ -Definable Functions	73
4.1. Introduction	73
4.2. Church's System of Logic	75
4.3. The Development of Church's System	82
4.4. A Theory of Positive Integers in Formal Logic	84
4.5. λ -Definable Functions	88
4.6. Decision Problems	92
4.7. Conclusion - The Inconsistency of Church's Logic	98
Chapter 5. General Recursive Functions	105
5.1. Introduction	105
5.2. The Development of Ordinary Recursive Functions	107
5.3. General Recursive Functions	115
5.4. Kleene's Normal Form for General Recursive Functions	125
5.5. The First Definition	127
5.6. An Example of the First Definition	130
5.7. The Second Definition	130
5.8. Other Developments	135
5.9. Conclusion	143
Chapter 6. Church's Thesis	147
6.1. Introduction	147
6.2. λ -Definable vs. General Recursive	150
6.2.1. The Equivalence Theorem	154
6.2.2. Some Extended Equivalence Results	157
6.3. Church's Thesis	162
6.3.1. The Heuristic Evidence	170
6.3.2. The Equivalence of Various Diverse Formulations	170
6.3.3. Turing's Computable Functions	171
6.3.4. Church's Formulations	171
6.4. Reaction to Church's Thesis	171

6.5. Recursive Unsolvability	174
6.6. Constructivity and Conclusion	182
Chapter 7. Turing's Computable Functions	189
7.1. Introduction	189
7.2. Turing's Machines	192
7.3. Post's Formulation and Later Devices	199
7.4. Turing's Thesis	202
7.5. The Non-Existence of Certain Machines	206
7.6. Computable, Recursive and λ -Definable Functions	209
7.7. Conclusion	212
Appendix A. Dates of Major Figures	219
Appendix B. Letters	221
B.1. Alonzo Church to Stephen C. Kleene, November 29, 1935	223
B.2. Stephen C. Kleene to Author, July 28, 1977	228
B.3. Alonzo Church to Author, April 21, 1978	236
B.4. Hao Wang to Author, July 16, 1979	239
B.5. Stephen C. Kleene to Author, July 17, 1979	241
B.6. Jean van Heijenoort to Author, August 17, 1979	245
B.7. Stephen C. Kleene to Author, November 3, 1981	248
B.8. Stephen C. Kleene to Author, November 13, 1981	267
B.9. J. Barkley Rosser to Author, November 19, 1981	273
B.10. Stephen C. Kleene to Author, September 9, 1982	275
B.11. Stephen C. Kleene to Author, April 4, 1983	284
Bibliography	289
