CHAPTER	PAGE
FOREWORD	v
PART I	
THE SCIENTIFIC ORIENTATION	
I WHAT SCIENCE IS	3
<i>A. Definition</i>	4
<i>B. Science vs. Pseudo-science</i>	17
<i>C. The Relation Between Science and Nonscience</i>	23
II SCIENTIFIC REASONING	27
<i>A. Philosophical Orientation</i>	29
<i>B. Facts and Truth</i>	32
<i>C. Assumptions</i>	34
<i>D. Postulates</i>	37
<i>E. The Role of Logic</i>	47
III PROBLEM FORMULATION	52
<i>A. Procedural Stages</i>	54
<i>B. Feasibility of Solution</i>	57
<i>C. Special Problems of the Social Sciences</i>	62
<i>D. Scope</i>	67
<i>E. General Principles</i>	69
IV THE ROLE OF CONCEPTS	75
<i>A. Concept Definition</i>	77
<i>B. Units of Study</i>	83
<i>C. Common Errors in the Employment of Concepts</i>	86
PART II	
THE RESEARCH PROCESS	
V PRINCIPLES OF RESEARCH	103
<i>A. Function of the Research Design</i>	105
<i>B. The Role of the Hypothesis</i>	110

<i>C. Interrelation of Theory and Fact</i>	114
<i>D. Sampling</i>	120
<i>E. Delimitations of Data</i>	124
VI DATA COLLECTION: PRELIMINARY CONSIDERATIONS	128
<i>A. Role of the Literature</i>	129
<i>B. Evaluation of Materials</i>	134
<i>C. Instruments and Tools</i>	137
<i>D. Special Limitations of Social Science Instruments</i>	140
<i>E. Detecting Feeling States</i>	146
VII DATA COLLECTION: PROBLEMS OF METHODOLOGY	152
<i>A. Determination of Techniques</i>	154
<i>B. Observation</i>	156
<i>C. Historical Data</i>	163
<i>D. Measurement</i>	166
<i>E. Recording and Presentation</i>	171
PART III	
SCIENTIFIC ANALYSIS	
VIII THE PROBLEM OF CAUSATION	179
<i>A. Attributing Causes</i>	180
<i>B. Types of Causal Relationships</i>	186
<i>C. Linking Causation with Theory</i>	190
<i>D. Inductive Inference</i>	192
IX THE ANALYTIC METHOD	204
<i>A. The Structure of Analytic Designs</i>	205
<i>B. The Role of Variables</i>	212
<i>C. Quantification</i>	216
<i>D. Frame of Reference</i>	218
X INTERPRETATION AND VERIFICATION	223
<i>A. Interpretation: Basic Principles</i>	224
<i>B. Verification: the General Problem</i>	235
<i>C. Verification: Basic Principles</i>	242
APPENDIX: BIBLIOGRAPHY	248
INDEX	253

Figures

<i>1. Syllogistic Arguments</i>	99
<i>2. Types of Causal Relationships</i>	187
<i>3. Method of Agreement</i>	197
<i>4. Method of Difference</i>	199
<i>5. Method of Concomitant Variation</i>	201
<i>6. Method of Residues</i>	202
<i>7. Basic Analytic Design</i>	207
<i>8. Before-After Design</i>	208
